Personal Statement:

Through being involved in local community groups and a first home owner I am aware of what is important to residents. I will work to secure basic services like a community bus and increase services to the elderly. I will ensure that council spends more on maintenance of roads and footpaths and the removal of nuisance trees, to protect our property. I will also ensure that all residents have a voice and that their concerns are actioned. I would like to see more done to combat hoon drivers and other anti social behaviour. I will work towards supplying Salisbury's recycled storm water to all Salisbury residents and expand the commercial sale of our recycled water to offset future council rates. I am a community minded individual who is young, enthusiastic and will work for you.
