Personal Statement:

I have been privileged to be the East Ward councillor for 21 years and during that time I have had experience as acting Mayor and Deputy Mayor. Married with three children I have found Salisbury to be a good place to bring up my family. I believe that the Council must maintain its focus on attracting business investment which creates jobs for our youth and continue with the environmental initiatives such as water recycling. The existing clubs in Salisbury are in need of assistance with investment on building upgrades. Tight financial management of the council must also be maintained as it is not acceptable to just lift rates higher. To be an effective councillor means more than attending social functions and meetings. It involves listening to what residents need and want, then working hard with fellow councillors and council staff to make it happen.
