

John Street Public Art Project Judd Place Project Brief

1. PROJECT OVERVIEW AND BACKGROUND

The City of Salisbury is calling for Expressions of Interest (EOI), from suitably qualified artists and/or designers for the creation of a public artwork that celebrates authentic experiences within Salisbury.

Celebrating our long and diverse history through Public Art, our objective is to create an interactive piece of public art that provides a sense of place through an identifiable landmark within the streetscape.

2. PROJECT AIMS AND OBJECTIVES

The key objectives of the project are:

- To celebrate and foster community pride and promote a positive outlook for local residents and visitors to the City of Salisbury.
- To preserve and celebrate local stories, history and connect local residents to the landscape and heritage of the Salisbury region.
- To provide a sense of place and establishes distinctive markers within the John Street streetscape.

The target audience includes the local community, local traders and regular users of John Street, and the city centre.

3. LEAD ARTIST ROLE

The project requires a South Australian based artist(s) to work in conjunction with the City of Salisbury and the designated project board to develop an artistic feature that reflects the project's aims and objectives.

The artist will design the artwork for approval prior to the commissioning and implementation of the artwork and work closely with the project board to determine the most appropriate method for incorporating the artwork into the site.

The artist must provide proof of Public Liability Insurance (minimum twenty million dollars (\$20,000,000)) one (1) week prior to the commencement of the Project.

5. ARTISITC DESIGN THEMES

When considering design the artist should consider the overall objectives of the precinct in which the artwork will reside. These include:

- a sense of the precinct being the Heart of the City;
- an identifiable Meeting Place for visitors and residents; and
- provide authentic experiences.

6. ARTWORK REQUIREMENTS

It is the commissioner's vision that the artist(s) should be free to exercise their creativity and artistic skills. However, in developing their concept artist(s) should take into consideration the commissioner's broad visions for the artwork which are articulated below:

- an artwork of scale sufficient to have a visual impact;
- an artwork that engages with a broad audience, has the capacity to attract people's attention and allows people to engage with the artwork;
- the use of innovative materials is encouraged and should be robust and vandal resistant;
- made of durable, robust, high quality, low maintenance materials available to achieve the artist's concept;
- be easily cleaned to remove dirt and general grime;
- meet all relevant safety standards and avoid dangerous protrusions and sharp edges; and
- require minimal ongoing maintenance but consider long term maintenance requirements and costs.

The artwork is envisaged to remain in situ for a minimum period of 20 years.

7. PROJECT SITE DETAILS

The location of the artwork is at Judd Laneway on John Street, Salisbury. This location is part of the Salisbury City Centre, John Street provides an important connection to the City Centre which includes supermarkets, retail shops, eateries, entertainment venues, banking and community services. It is also an essential public transport route.

Two areas (nodes) along John Street have been allocated as part of the Church and John Street revitalisation project, each area is approx. 1m x 1m, with access to power and comms.

The proposed location of the work is illustrated in the aerial map demonstrated in appendix A of this brief. Although the location of the work has been identified the exact positioning of the work within this site has not been finalised and the artist(s) will work with the project board to finalise the works exact location.
