## What is Growing for Gold:

Growing for Gold encourages local young people aged 3-16 to participate in sporting and recreational activities within our community. The program runs during the October school holidays and local sport and recreation providers are invited to open their doors to promote their club activities FREE of charge to participants.

All club sessions are fully supervised by a representative of the club and designed to introduce young people to a wide range of different sport and recreation opportunities, with the focus on:

- Being inclusive
- Free to participants
- Fun and helping achieve personal success and growth

Built into the event is an incentive scheme that encourages young people to try different activities and most importantly to take the next step of joining a club of their choice. The following incentives are provided to participants:

- A Certificate of Participation to all who register.
- A Gold Certificate is awarded if a young person joins a participating club within a set period of the program ending, irrespective of the number of activities.

Growing for Gold has been running across the City of Salisbury since 1999 and become a very successful model attracting between 400 and 500 young people each year. Approximately 20% of participants have been successful in joining a club, with up to 25 clubs participating each year.

For many clubs this is a great opportunity to promote their club and to provide participants with a fun and enjoyable experience that encourages them to come back.

An exciting new partnership was established in 2017 for the Growing for Gold program with neighbouring Port Adelaide Enfield and Playford Councils. With the ability to broaden and increase audiences; this cross-council collaboration will assist in strengthening efforts to facilitate growth and future opportunities to increase community participation and active participation in sport and recreation.
