

Streetscape

A term that is used to describe the **combined natural and built elements of a street**.

It is how the buildings, houses, gardens, paths and road work together as a whole to create the **'look and feel'** of a neighbourhood.

What happens next?

The City of Salisbury will review all survey feedback provided by residents. This will help inform how the streetscape renewal is designed.

A streetscape concept design will then be released for community consultation.

Following this consultation, Council will finalise the design which will be provided to residents.

Construction works are expected to occur within the 2022 / 23 financial year.

City of Salisbury Streetscape Renewal Program

The City of Salisbury is proposing to redevelop your street as part of Council's Streetscape Renewal Program.

Continue reading to learn more about the Streetscape Renewal Program and how you can participate.

Streetscape Renewal Program

Investing in our streets and communities

What is the Streetscape Renewal Program?

The Streetscape Renewal Program aims to deliver enhancements to selected streets in the City of Salisbury that will enrich and beautify the City.

Proposed narrowed footpath crossing locations

Why do we need streetscape renewal?

Planning and investment in the Streetscape Renewal Program is essential to the long-term sustainability of the City's neighbourhoods.

Streetscape renewal is about providing spaces that:

- are safe for vehicles, pedestrians, and cyclists
- are inclusive for people with a range of abilities
- factor the impacts of changing climate
- help communities remain connected
- fit with the history and character of the City
- provide a range of new trees, shrubs and plants
- are low-maintenance

We need your input!

The City of Salisbury is committed to ensuring community members play a key role in shaping the renewal outcomes for their street.

Residents of Venlo Court, Salisbury Downs are invited to provide input into the next stage of Streetscape Renewal scheduled for your street in late 2022.

Use the link below or scan the QR code to complete a brief survey on Venlo Court, Salisbury Downs. All survey participants can remain anonymous.

www.salisbury.sa.gov.au/srp

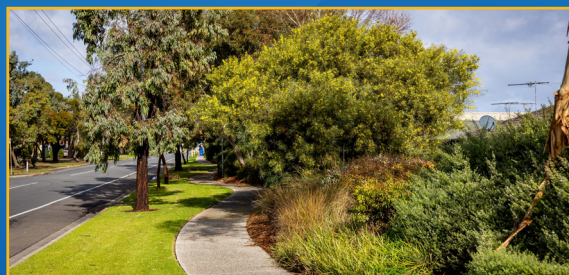

This survey will be open from June 24 to July 15 2022.

Street trees and rubble verge treatment

Screen plantings

Potential streetscape treatments

Some of the new streetscape features you may expect to see proposed for your street include:

- planting and replacement of street trees
- new vegetation on verges
- improved footpaths and pedestrian ramps
- rain gardens

Rain garden

Footpath renewal

Vegetation rejuvenation

Street vegetation provides essential cooling and greening for the city.

The Streetscape Renewal Program will renew street vegetation like street trees and verge plantings.

It is also an opportunity to replace existing trees that cause issues for both Council and private assets.
