

ANNUAL REPORT 2021-2022

Acknowledgement of Country

The City of Salisbury acknowledges that we are on the traditional Country of the Kaurna people of the Adelaide Plains and pays respect to Elders past and present. We recognise and respect their cultural heritage, beliefs and relationship with the land. We acknowledge that they are of continuing importance to the Kaurna people living today.

Subsidiary Report 2021-22 NAWMA Annual Report.....147

Foreword

The City of Salisbury's vision of being a progressive, sustainable and connected community has been highlighted through key projects that were delivered in the 2021/22 financial year.

Despite returning to a sense of normality, Council once again showed leadership during the COVID-19 pandemic by supporting the community and businesses through uncertain times.

Bridgestone Athletics Centre became the home of athletics in South Australia during 2022, due to the SA Athletics Stadium in Mile End undergoing an upgrade. The three athletics clubs that use Bridgestone Athletics Stadium also experienced membership increases of 35 per cent during 2021/22.

Other progressive projects included the completion of improvements at The Paddocks, such as a new playground, viewing mound, board walk and pathways, as well as clearing the pond.

In line with Council's commitment to sustainability, 10,000 new trees and shrubs were planted along the Little Para River with the help of school students and community members. The many popular planting days play an important role in enhancing the City's biodiversity corridors.

Other sustainable projects include the use of recycled glass in the construction of a path from Jenkins Reserve to Carisbrooke Park. This process is managed by the Northern Adelaide Waste Management Authority.

The Polaris Business and Innovation Centre once again worked with hundreds of businesses to provide mentorship programs, seminars and support in relevant areas, such as digital marketing.

In 2021-22, Council's Economic Development team worked with 29 companies to help them expand or relocate to the region, including Noumed Pharmaceuticals, which is building an \$85 million manufacturing plant that will create 250 jobs during construction and 180 ongoing roles.

As we look forward to 2022/23 our continued efforts and initiatives will further underpin and advance the vision for our City.

John Harry
Chief Executive Officer

City Plan 2035

The Local Government Act requires Councils to regularly prepare strategic management plans. This City Plan, along with Council's 'Long Term Financial Plan' and 'Strategic Asset Management Plan', address the Council's obligations.

In preparing this Plan, Council has:

- assessed economic, environmental, social and demographic trends and projections
- reviewed State Government policies and directions, including the 'State Infrastructure Strategy', 'Growth State', 'Planning and Design Code' and 'Climate Change Strategy' (some of which are not yet finalised)
- identified regional development projects and initiatives that could affect Salisbury
- reviewed other Council strategies, including the 'Adapting Northern Adelaide Climate Adaptation Plan', 'Intercultural Plan', 'Youth Action Plan', 'Growth Action Plan' and 'Ability Inclusion Strategic Plan'
- reviewed strategies currently being developed, such as our draft 'Place Activation Strategy' and 'Digital Strategy'

- commissioned an economic report into how to grow Salisbury's economy and ways for residents to benefit from that growth
- reviewed Council research, such as the 'Community Perceptions Survey'
- engaged with the community and stakeholders to inform the City Plan's priorities and directions.

A City Dashboard that highlights the social, environmental and economic factors shaping our City, as well as key indicators for the performance and sustainability of Council, is part of this plan. These indicators introduce each of the directions outlined in this document.

Other factors may impact on our City over the life of this plan. These include the rapid advance of technology; changes in work practices as a result of Covid 19; the continued evolution of social media; on-demand services and autonomous systems; and changing expectations on all levels of government.

City Plan Structure

City Plan 2035 contains a vision for Salisbury to be ‘a progressive, sustainable and connected community’. It has three directions that capture the social, environmental and economic influences on Salisbury, and one direction that addresses factors within Salisbury Council itself.

A welcoming and liveable City

Encompasses issues that affect the liveability of the City and the health and wellbeing of its people, including safety, social connections, the look and feel of our neighbourhoods, and the facilities and programs available to support our community’s aspirations.

A sustainable City

Includes protecting and conserving our diverse natural environment to support biodiversity, reducing Council’s environmental footprint, ensuring we make the most of our resources and enabling our community, environment and infrastructure to be resilient to a changing climate.

A growing City that creates new opportunities

This focuses on how we support the success and growth of local businesses, job opportunities for our residents, attracting investment, quality urban planning and providing infrastructure that supports economic activity.

Innovation and Business Development

Outlines how Council will work to provide exceptional experiences, deliver quality outcomes and be recognised as a great place to work.

Several ‘Foundations’ are then identified for each of the 4 directions.
Council has determined that these Foundations are the goals that we will seek to achieve for Salisbury. . They are supported by critical actions that outline the Council’s priority deliverables over the life of the plan.

CRITICAL ACTIONS

Our critical actions range from operational and site-specific projects that will have immediate impact, to strategic objectives that will guide how and what Council achieves in the longer term.

Immediately noticeable impact

Strategic projects
significant stand-alone projects to be delivered by Council within the next four years

-
-
-
-
-

Operational focus
services that community feedback has highlighted must be Council priorities through feedback from our community

-
-
-
-
-

Medium to longer term impact

Future planning
strategies and plans Council will develop or review that are important for delivering our City Vision

-
-
-
-
-

Advocacy priorities
priority projects for which investment will be sought from other organisations

-
-
-
-
-

Accompanying the above is a range of corporate indicators that highlight the progress being made in addressing the foundations.

Our Vision

Salisbury

a progressive, sustainable
and connected community

Council's vision is for Salisbury to be a progressive, sustainable and connected community.

Council's Elected Members developed this vision after they considered the factors that characterise successful cities and their aspirations for Salisbury.

Successful communities are **progressive**. They embrace change as essential if they are to be liveable and competitive in a changing environment and economy. At the same time, successful communities take pride in their heritage and use their history as the foundation for identifying and creating opportunities and for understanding how to respond to challenges.

Successful cities think about the long term while making decisions today – this is the essence of **sustainability**. They care about the environment, their people and the legacy they leave for future generations. Internally, they are financially responsible, have excellent systems in place and promote a culture that values enduring outcomes.

Connections abound and take many forms. Some connections are social, such as friendships formed through community groups or with neighbours. Some are environmental, including the connections people have with nature or the biodiversity corridors that support wildlife. Other connections are economic, such as the links between residents, jobs and businesses. Salisbury is a diverse community and we value connections between our many cultures. For connections to prosper, there must be appropriate infrastructure that enables people to move and connect with places further afield.

The Salisbury community consists of the 147,602 people who live in our 32 suburbs, whether they have been here all their lives or are new arrivals; the 7,200 businesses and 53,000 workers that make Salisbury the state's fourth largest economy; and the community groups, schools, churches and sporting clubs that bring people together.

Salisbury has many of the building blocks in place to achieve its vision. This City Plan outlines the actions that Council will prioritise over the next four years to enable Salisbury to achieve it.

Long Term Financial Plan and Annual Business Plan for 2022-23

Looking ahead to 2022/23

The City of Salisbury continues to put the needs of our community first and is ready to undertake a number of exciting initiatives in the new Financial Year 2022/23. Priorities include building on the work accelerated through Council's COVID-19 Infrastructure Recovery Program, while at the same time investing in community assets for the future and increasing the level of services that matter to you.

The 2022/23 Long Term Financial Plan and Annual Business Plan (Annual Business Plan) incorporates the exciting redevelopment of the Salisbury Recreation Precinct, which includes the development of a \$28.4m Aquatic Centre which will include the construction of indoor warm water hydrotherapy, lap and leisure pools, a gymnasium, water play park and café. Other large-scale initiatives that will be important during 2022/23 Financial Year include:

Community Spaces

There will once again be a major focus on the continued development of community facilities through the creation of great inviting places to visit, such as The Paddocks recreation and open space precinct on Maxwell Road, and the refurbishment of the Yalumba Drive and Fairbanks Drive Reserves, both in Paralowie.

City Amenity

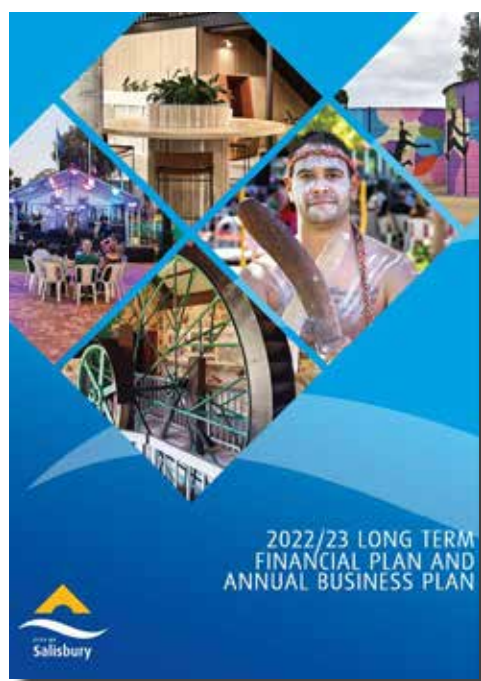

Council's Streetscape Program will vibrantly transform the City's streetscape, improving its overall attractiveness and accessibility. Continued investment in the City Wide Trails Program will increase the City's network, with projects scheduled for completion within the 2022/23 Financial Year costing \$1M.

Commercial Precincts

The Church and John Street Revitalisation is a key project as part of the City Centre revitalisation, that will upgrade and refresh these important City Centre locations. The ambitious and exciting revitalisation will support the community, traders and visitors to the City Centre. Once completed, the project will create a high-quality environment that will encourage economic investment and increased visitation.

Traffic Improvements

Council's Major Traffic Improvements Program will address identified, specific major traffic network deficiencies in the City. A total of \$1.2M has been allocated to improve these. Through the 2022/23 Annual Business Plan, Council maintains an ambitious program of City enhancement, while remaining committed to long-term financial sustainability to ensure we are best placed to support our community in the coming years. Together we will continue to improve and enhance our City to achieve our vision of a progressive, sustainable and connected community for the benefit of all.

Long Term Financial Plan and Annual Business Plan for 2022-23

Features of the 2022/23 Budget

In 2022/23, Council will see the official opening of the new Burton Community Hub, which will provide library services, community programs, technology labs, meeting and quiet spaces and a community garden for the community to enjoy.

Other key outcomes will include the completion of the upgrade to Fairbanks Drive Reserve, at Paralowie, and the Church and John Streets Revitalisation Project. Construction of the new Salisbury Aquatic Centre will commence and continue into 2023/24.

Some of the key identified projects for the 2022/23 plan are as follows:

- New outdoor fitness equipment, St Kilda Adventure Playground - \$70,000
- New playspace and parking facilities, Kingswood Crescent Reserve, Paralowie - \$250,000
- Reserve upgrade and new sports clubrooms, Yalumba Drive Reserve, Paralowie - \$2.1 million
- Flood mitigation, Catterall Avenue Reserve, Salisbury Heights - \$310,000
- Salisbury Recreation Precinct Redevelopment - \$28.4 million
- Church and John Street Revitalisation - \$3 million
- School pedestrian and transport improvements, Salisbury East High School - \$195,000
- Reserve upgrade, Fairbanks Drive Reserve, Paralowie - \$2.6 million
- Hausler Reserve, Paralowie – Stage 2 Upgrade - \$1.2 million
- New cricket practice wicket and off-street parking, Baltimore Reserve, Parafield Gardens - \$400,000
- Para Hills Knights leased facility building renewal works, Paddocks, Para Hills West - \$500,000
- New community sports clubroom, Paddocks - \$4.2 million (including \$1.2 million of State Government funding)
- New dog park for small dogs, Dry Creek Linear, Mawson Lakes - \$72,000
- Dog park renewal and improvements, Golding Oval, Para Vista - \$150,000
- New irrigation and turf, Bush Park, Pooraka - \$210,000

Long Term Financial Plan and Annual Business Plan for 2022-23

How do we set rates?

Setting rates is a balance between funding Council operations, maintaining our financial sustainability and the need to contain increases to minimise the impact on ratepayers. Council is mindful of the impact and affordability of rates and regularly compares our rates with those of other metropolitan councils; in terms of average rates Salisbury ranks third lowest based on available 2021/22 data.

The first step we take in setting rates is to remove the impact of the average market increase/decrease in property values for the year. What this means is that if property values go up 15 per cent on average in a year, we adjust our calculations down to remove this impact. Then we apply the increase we need to fund Council services and projects for the coming year.

For the financial year 2022/23 Council has adopted an average residential rate increase of 3.5 per cent, and an average commercial and industrial increase of 3.9 per cent. The increase for each property may vary where the change in market value is different to the average market movement, or as a result of improvements, a change in land use or zoning, a change in ownership, or a correction to property values.

Rate Categories

Minimum Rates apply to all properties where the capital value falls below a certain level so that all ratepayers make a fair contribution. The minimum rate for 2022/23 has increased from \$1,044 in 2021/22 to \$1,081 in 2022/23 reflecting a 3.5 per cent increase over the 2021/22 minimum rate.

Differential Rating - different rates may be applied to different categories of property called 'land uses' as determined by the Valuer General. A loading is applied to commercial and industrial properties and to vacant land. Residential and other properties pay the base rate. The differential rate for vacant land is 30 per cent higher compared to the residential rate to support development of land.

Separate Rates - Council collects rates for other organisations:

- Salisbury Business Association - to enable it to market and promote the City Centre
- Globe Derby Community Club - to maintain an area of common land held through 63 shares
- Regional Landscape (RL) Levy which councils are required to collect on behalf of the State Government. All enquiries about the RL Levy can be directed to the Green Adelaide Board on 08 8204 7910 or at dew.greenadelaide@sa.gov.au

Ward Boundaries

Council

Elector Representation

The community of the City of Salisbury is currently represented on Council by a Mayor who is elected from the whole community, and 14 Elected Members representing seven wards with two Elected Members per ward. Elected Members are elected by the residents of their respective ward.

In accordance with Section 12 of the Local Government Act 1999 Council is required to conduct an Elector Representation Review as prescribed by the Local Government (General) Regulations 2013 and published by notice in the South Australian Government Gazette.

The City of Salisbury conducted a Representation Review in 2016-2017. The next review is scheduled for 2024 -2025.

The Local Government Act 1999 sets out the requirements and processes that councils are required to follow when undertaking and elector representation review. The Representation Review process requires Council to review all aspects of the composition of Council including ward boundaries. The process involves the public notification and opportunity for community submissions at key stages of the review.

The representation quota for the City of Salisbury, that is the number of electors represented by each Councillor, is shown in the table below. The City of Salisbury has approximately 98,474 electors across 13 wards. Comparative data for other major metropolitan Councils in Adelaide has also been included in the table below. The representation quota has been determined by dividing the total number of electors for each council by the number of Elected Members.

Council	Elected Members ²	Electors	Representation Quota ³
Salisbury	15	98474	6564
Playford	16	67796	4237
West Torrens	15	43183	2878

Tea Tree Gully	13	74880	5760

¹ Data source: Electoral Commission SA 2022 (available from the LGA SA).

² Including the Mayor

³ Representation quota for the purposes of Schedule 4 of the Local Government Act 1999.

¹ Data supplied by the Local Government Association.

Council

Elected Member Allowances

Each Elected Member receives an annual allowance, paid monthly in arrears. The Remuneration Tribunal is responsible for the determination of Elected Member Allowances to be applied. Elected Member allowances were reviewed by the Remuneration Tribunal in Determination No. 6 of 2018, which resulted in an increase to allowances for City of Salisbury Elected Members as follows, effective November 2021:

Mayor, Gillian Aldridge OAM:	\$100,332 per annum
Deputy Mayor, Cr Chad Buchanan:	\$30,588.75 per annum
Chair of Standing Committee Cr Chad Buchanan (not cumulative as already incorporated in remuneration for position of Deputy Mayor) Cr Donna Proleta Cr Julie Woodman Cr Lisa Braun Cr Adam Duncan Cr Kylie Grenfell Cr Graham Reynolds	\$31,353.75 per annum
Councillor Cr Maria Blackmore Cr Peter Jensen Cr Shiralee Reardon Cr David Hood Cr Sarah Ouk Cr Julie Woodman Cr Natasha Henningsen Cr Beau Brug	\$25,083 per annum
Chair of Sub Committee Cr Beau Brug Cr Chad Buchanan (ineligible due to holding position of Deputy Mayor) Cr Maria Blackmore Cr Shiralee Reardon Cr Peter Jensen	\$248 per meeting limited to an aggregate amount of \$1,483 per annum

In accordance with section 76 of the Act, allowances set out in Determination No. 6 of 2018: Members of Local Government councils will be adjusted annually on the first, second and third anniversary of the 2018 local government election to reflect changes in the Consumer Price Index, where the Consumer Price Index is defined as “the Consumer Price Index (All groups index for Adelaide)” Published by the Australian Bureau of Statistics.

In addition to an allowance, Elected Members are offered resources to assist in the representation of their community and conducting Council business. This includes an Apple iPad, laptop computer and printer, broadband internet access, stationery and business cards. The Mayor has access to a personal assistant and is provided with a mobile phone and car. The Elected Members Allowances, Facilities and Support Policy provides full details of resources (including reimbursement of expenses) provided to Elected Members. The policy as well as a register that records all Elected Members allowances and support, is available on the City of Salisbury website.

Independent members of the Audit and Risk Committee and the Council Assessment Panel are paid a sitting fee to attend meetings, as outlined below

- Audit and Risk Committee
 - \$500 per meeting attended
- Council Assessment Panel
 - Presiding Member - \$500 per meeting attended
 - Other independent members - \$400 per meeting attended
 - Elected Member attendance: currently Cr Beau Brug, receives \$320 per meeting attended in addition to his standard Councillor allowance listed above.

Council

Council and Committee Structure

Council is supported in its decision-making process by 8 Committees and 6 Sub-Committees

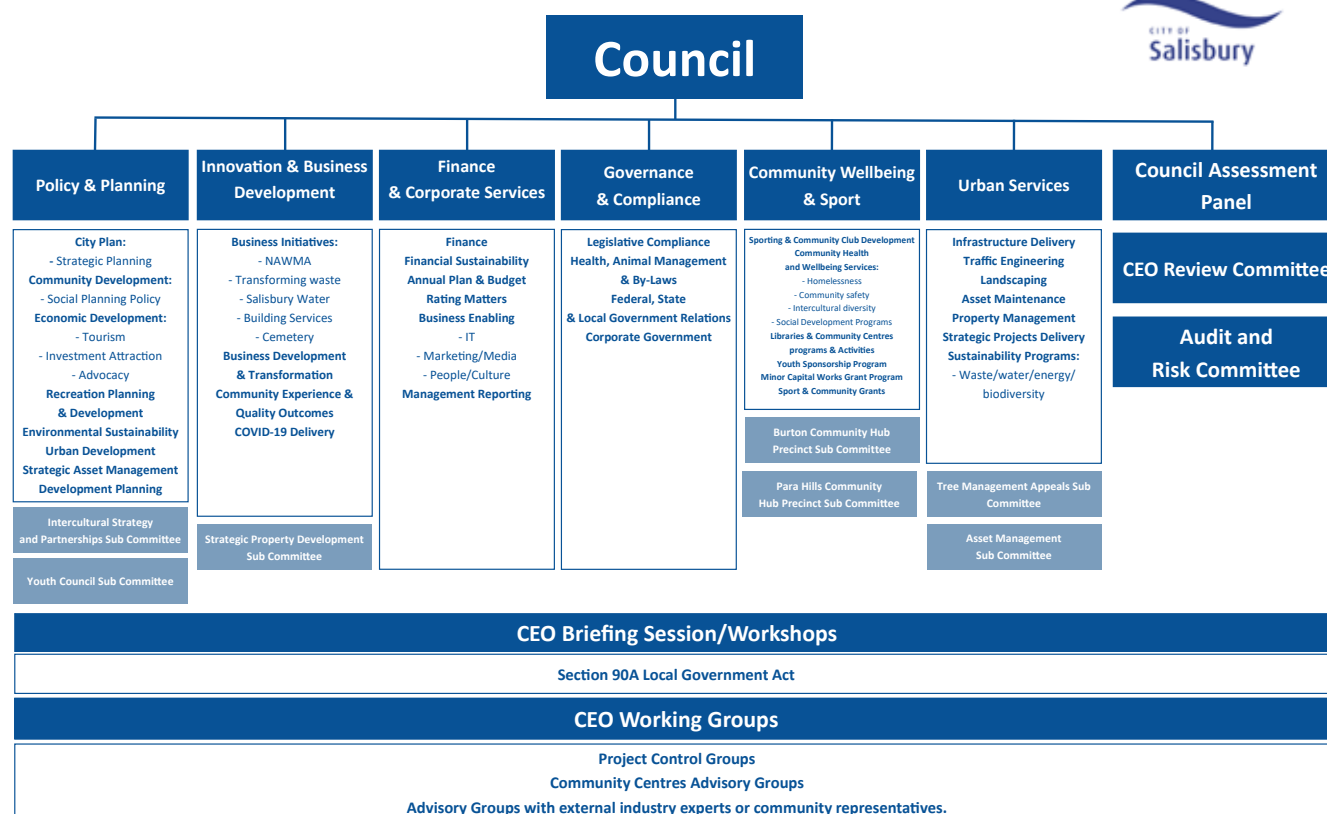

In addition, two other committees are established under legislation: the Audit and Risk Committee and the Council Assessment Panel (CAP) are independent Committees comprising of experts external to Council as well as Elected Member representation.

The CEO Review Committee has also been established by Council and meets at a minimum twice per year or as required.

The Committee structure and membership is set out below. Terms of Reference for each Committee can be found on our Website.

Council also maintains a Delegations Register on our website to support efficient and effective decision making.

Council Governance Structure

Council

There were 13 Council meetings held between 1 July 2021 and 31 June 2022; of these, 12 were Ordinary Council meetings and 1 was a Special Council meeting:

LOA - Leave of Absence

Council

Open and transparent decision-making

Council continues to ensure its commitment to open and transparent decision making through minimising the number of decisions it takes in confidence. Occasionally, exceptional circumstances make it necessary for the Council or a Committee to discuss a matter in confidence. Matters that may be discussed in confidence are limited to those listed in section 90 (3) of the Local Government Act 1999 and for example include matters that concern personal affairs, legal issues or have commercial implications.

During 2021/22 a total of 606 items were considered by Council and Committees. Of these, 48 items were considered in confidence.

	No. of items considered in confidence	Confidential items as a % of total no. of items considered
2017/18	33	6.21%
2018/19	31	5.64%
2019/20	43	7.06%
2020/21	63	8.7%
2021/22	48	7.92%

Of the 48 items where members of the public were excluded, all or part of the documents presented remained confidential after discussion in confidence had taken place.

The following table is a summary of the number of occasions that the provisions listed in Section 90 (excluding the public during debate) or Section 91 (documents to be kept confidential for a period of time) of the Local Government Act 1999 were used during the 2021-2022 financial year.

Council

The following table is a summary of the number of occasions that the provisions listed in Section 90 (excluding the public during debate) OR Section 91 (documents to be kept confidential for a period of time) of the Local Government Act (1999) were used during the 2020-2021 financial year.

Date	Item	Subject matter	Section 90(3) subsection reference	Number of occasions moved into confidence Section 90(2)	Number of occasions with retention order on reports, minutes and/or appendices Section 91(7)

22 confidentiality orders were revoked or expired in full during 2021/22, with 3 orders being partially released. Remaining orders will be reviewed internally twice per year and if deemed appropriate, the Chief Executive Officer has the delegation to revoke orders.

177 orders remained operative at the end of 2021/22.

Council

Management and Governance

The City of Salisbury places particular emphasis on its commitment to democratic principles. These principles include fair representation, openness and transparency in all its operations.

The Local Government Act 1999 and the Local Government (Elections) Act 1999 provide the legislative foundation for Council and contain a range of reporting and operating requirements that contribute toward good governance. As part of its compliance, the City of Salisbury maintains the following registers, codes of conduct and policies:

Registers

- Elected Member Register of Interests
- Elected Member Allowances and Benefits Register
- Register of Salaries
- Register of Interests (Officers)
- Register of Public Roads
- Register of By-laws

Codes

- Code of Conduct for Council Members

- Code of Practice - Access to Meetings and Associated Documents
- Code of Practice for Meeting Procedures
- Code of Conduct for Council Employees

The City of Salisbury has the following By-laws:

- By-law 1 Permits Penalties
- By-law 2 Movable Signs
- By-law 3 Roads
- By-law 4 Local Government Land
- By-law 5 Dogs
- By-law 6 Waste Management

Policies

- City of Salisbury Council Policies are publicly accessible on our website. Policies are reviewed under our Policy Management Framework.

A comprehensive list of codes, documents, policies, registers and guidelines are available for public inspection either at the Council offices, 34 Church Street, Salisbury or at www.salisbury.sa.gov.au

Copies of most documents are available for purchase for a small fee. All of these documents are updated on a regular basis as required by the Act. Documents marked with * are also available at www.salisbury.sa.gov.au

Council

Number of Requests for a Review of Council Decisions

During the 2021/22 financial year, the City of Salisbury received one (1) request for review of a Council decision, as follows:

- Review of a Council administration decision not to refund \$918 'Lease Preparation Fee' to an Association") where preparation of the lease had already been completed and executed. The final determination was that the process undertaken in relation to the decision not to refund the lease preparation fee was correct. However, given the submission made by the Association in relation to its financial circumstances and the services it provides to the community, the reviewer determined that 50% of the lease preparation fee be waived in accordance with its delegated authority under section 188 of the Local Government Act 1999.

Local Nuisance and Litter Control

Set out in the table below are details of the performance by Council of functions conferred on it under the Local Nuisance and Litter Control Act 2016.

Local Nuisance and Litter Control Act, Section 8 — Annual reports by councils

A council must, in its annual report prepared pursuant to section 131 of the Local Government Act 1999 in relation to a particular financial year, include details of the performance by the council during that year of functions conferred on it under this Act.

Local Nuisance and Litter Control Regulations, Regulation 5 — Annual reports Council

For the purposes of section 8 of the **Local Nuisance and Litter Control Act 2016**, Council's annual report should include details of —

- (a) the number of complaints of local nuisance or littering received by Council; and
- (b) the number and nature of —
 - (i) offences under the Act that were expiated; and
 - (ii) offences under the Act that were prosecuted; and
 - (iii) nuisance abatement notices or litter abatement notices issued; and
 - (iv) civil penalties negotiated under section 34 of the Act; and
 - (v) applications by Council to the Court for orders for civil penalties under section 34 of the Act and the number of orders made by the Court on those applications; and
- (c) any other functions performed by Council under the Act.

Council

Audit and Risk Committee of Council

The Audit and Risk Committee reports to Council and is a critical component of the Council's governance framework. The Audit and Risk Committee is established in accordance with Section 126 of the Local Government Act 1999. Its functions as per the Act are as follows:

- reviewing annual financial statements to ensure that they present fairly the state of affairs of the council;
- proposing, and providing information relevant to, a review of the council's strategic management plans or annual business plan;
- proposing, and reviewing, the exercise of powers under section 130A;
- liaising with the council's auditor; and

- reviewing the adequacy of the accounting, internal control, reporting and other financial management systems and practices of the council on a regular basis.

Further information regarding the roles and responsibilities of the Audit and Risk Committee are contained in its Terms of Reference, which are available on the City of Salisbury website.

The Audit and Risk Committee consists of five members, three of whom are independent of the Council. Independent members are appointed by Council based on their individual skills, knowledge and experience to ensure the effective discharge of the Committee's responsibilities.

Audit Committee Membership July 2021 – June 2022

Name	Elected Member or Independent Member
Cr Graham Reynolds	Elected Member (Chairman)
Cr Kylie Grenfell	Elected Member (Deputy Chairman)
Mr Craig Johnson	Independent Member
Mr Neil Ediriweera	Independent Member
Ms Paula Davies	Independent Member

All members of the Audit and Risk Committee were present for all of the five committee meetings held during the year 2021/2022.

Council

Internal Controls

The City of Salisbury utilises a risk and control management application called ControlTrack, to monitor and review its internal financial controls. There are approximately 260 controls within ControlTrack across 7 classes: Assets, Expenses, External Services, Liabilities, Revenue, Strategic Financial Planning and Financial Governance.

We use a five point rating scale when self-assessing the effectiveness of our internal financial controls (1 = ineffective, 2 = requires significant improvement, 3 = partially effective, 4 = majority effective and 5 = effective).

Of the 260 controls assessed and reviewed in 2021/22, four controls (1.5%) were assessed as being partially effective, and the other controls assessed are rated as either effective or majority effective. Treatment plans have been established to improve the rating for the four controls that are assessed as partially effective.

A total of \$487,291.68 was spent using corporate credit cards. The City of Salisbury has a credit card policy and internal processes and controls for all credit card transactions that supports an efficient and effective financial process.

High risk outcomes/findings from internal audits

The City of Salisbury operates a risk-based Internal Audit Plan, where audits are conducted to provide assurance on the risks identified in the Strategic Risk Register.

The following audits were completed and reported to the Audit and Risk Committee in the 2021/2022 period:

- Event Incident Management Framework;
- Volunteer Management Audit; and
- Capital Works Projects Audit.

An audit on the Event Incident Management Framework was performed to provide assurance that the controls in place to prevent and manage contamination incidents / sites are robust.

An audit on the Volunteer Management process was performed to provide assurance regarding the effectiveness of the processes that are in place regarding the volunteer management process.

An audit on Capital Works Projects was performed to provide assurance regarding the effectiveness of the processes that are in place to manage, monitor and deliver capital works projects undertaken through City Infrastructure, in accordance with the Project Management Manual and/or Capital Delivery Framework.

Actions were identified to address the total 12 risk findings from these three internal audits, for implementation by the Council as per agreed timeframes. Of the 12 risk findings, there was a total of two high risk-rated findings from internal audits identified and reported to the Audit and Risk Committee in the 2021/2022 financial year, and these two findings were resolved and closed in 2021/2022.

Council

Risk Management

In November 2021 the Audit Committee was renamed as Audit and Risk Committee in readiness of anticipated legislative reform. During the year, the Audit and Risk Committee reviewed Council's Enterprise Risk Management Policy, Enterprise Risk Management Framework, and Fraud and Corruption Prevention and Management Policy. A Risk Management and Internal Controls Activities report is reviewed by the Audit and Risk Committee which captures the review of strategic risk register and other risk management and internal control activities on a quarterly basis.

Financial Internal Controls Framework

The City of Salisbury follows the Local Government Better Practice Model – Financial Internal Control for South Australian Councils. In order to comply with this model the City operates an extensive financial internal controls framework. The framework is designed to ensure financial processes, procedures, policies and systems are applied efficiently and effectively in order to mitigate the financial risks identified in the Model. Oversight of the financial internal control framework is provided by The Audit and Risk Committee of Council, through the Governance Division. The financial internal controls framework of the Council is audited by the City of Salisbury's external auditor.

Freedom of Information

During the 2021/2022 financial year, the City of Salisbury determined 8 applications under the provision of the Freedom of Information Act 1991.

Of these 8, one application was granted full release:

- One application related to access to video or photos of a vehicle and boat trailer that hit a car at St Kilda Boat Ramp 31/12/2021 between 0830-1500 hours.

Of these 8, seven applications were granted partial release:

- One application related to a request for a copy of a demolition application and Council property demolition approval.
- One application related to a copy of all documentation, including all letters, emails and file notes in relation to a dog complaint or any other type of neighbourhood complaint from 02-02-2019 to 20-07-2021.
- One application related to a request for copies of any documents, emails, photos, providing information on the state of a food business, such as building inspections.
- One application related to a request for a copy of development plans and approval documents.
- One application related to a request for copies of correspondence from Salisbury Council to the property manager or property owner certifying a retaining wall is constructed in accordance with the development approval.
- One application related to a request for documents relating to dog attack including the name, contact details of owners, name of person who assessed the dog's behaviour and records of previous attacks.
- One application related to a request for all documents, emails, correspondence, notes or other records relating to complaints made against or about a person relating to their dogs, or noise complaints regarding their dogs.

Council

Overseas Travel by Elected Members and Staff for 2021/2022

In accordance with Regulation 35(2) of the Local Government (General) Regulations 2013, Council is required to publish details of travel (overseas and interstate) for Elected Members and Staff.

During the period 01/07/2021 through to 30/06/2022 there was no interstate or overseas travel undertaken involving Elected Members or Staff.

Executive Allowances

The Executive management structure is comprised of the Chief Executive Officer and four General Managers. Salary packages for these five executives are comprised of:

- A negotiated annual salary;
- Statutory superannuation;
- Provision of a fully maintained Council vehicle or equivalent (with the exception of the CEO); and
- Provision for professional development fees - \$750 per annum.

Executive membership on External Boards and Committees:

Below is a list of membership on external bodies by City of Salisbury Executive during the past financial year.

Chief Executive Officer, John Harry

- Local Government Chief Officers Group
- Northern Adelaide Local Health Network Steering Group

General Manager City Development, Michelle English

- Nil

General Manager Business Excellence, Charles Mansueto

- Northern Adelaide Waste Management Authority (Board Member)
- Northern Adelaide Waste Management Authority Audit Committee

General Manager Community and Organisational Development, Amy Pokoney Cramey

- Siblings Australia (Board Member)

General Manager City Infrastructure, John Devine

- Northern Adelaide Waste Management Authority (Deputy Board Member)
- Local Government Functional Support Group (Commander)

Council

Community Champions

We reward our Community Champions at The Australia Day Citizen of the Year Awards, which are proudly presented by the Australia Day Council of South Australia and the City of Salisbury.

The Awards reward and recognise individuals and organisations that have made a noteworthy contribution during the current year, and/or given an outstanding service over a number of years, to a local community over and above normal employment duties.

Outstanding contribution and community service includes areas such as education, health, fundraising, charitable and voluntary services, business, sport, arts, the environment, or any other area that contributes to the advancement and well being of a community.

Community Champions Categories

Citizen of the Year Award

To be eligible, the person must be an Australian Citizen and live, work or play within the City of Salisbury.

Young Citizen of the Year Award

To be eligible, the person must be an Australian Citizen under 30 years of age on 26 January 2021 and live, work or play within the City of Salisbury.

Senior Citizen of the Year Award

To be eligible, the person must be an Australian Citizen 60 years or over on 26 January 2021 and live, work or play within the City of Salisbury.

Community Event of the Year Award

This is presented to the person/group who has staged the most outstanding community event during the past year. The person/group must live or the event must take place within the City of Salisbury.

Award for Active Citizenship

(open to all including non-Australian citizens)

This new Award would be for a person or group delivering outstanding work or for an event or cause staged in the community during the past year.

Salisbury Community Achievement Award

(open to all Salisbury residents and ratepayers regardless of citizenship)

This new Award would be for a person or group delivering outstanding work or for an event or cause staged in the community during the past year.

Community Champions 2022 Recipients

Citizen of the Year: Eunice Ammerlaan

Eunice is an amazing individual” – these are the first words in her nomination. A dedicated volunteer, she has spent more than six years in the ‘Gaining Your L’s Road Safety Program’ at the Bagster Road Community Centre.

Her great repour with the community and ability to connect with people of all ages and backgrounds has helped more than 350 people gain their L’s in 2021. Always eager to see her students succeed, she regularly offers additional tutoring sessions to students, some are non-English speakers or have other barriers such as mental health or learning difficulties.

Eunice has proved to be a natural leader during the height of the COVID-19 pandemic, when despite a significant drop in volunteer numbers, she stepped up and volunteered almost five days a week.

Giving back to the community, whether it’s through her donation of time or expertise, it’s never too much to ask for Eunice, who has even given up space in her home to store 99 plastic storage tubs full of goods for community hampers. She works with a local charity to sort and collate these goods into hampers to bring Christmas joy to families and the disadvantaged.

And as always, Eunice does all of this with a smile.

Community Champions 2022 Recipients

Young Citizen of the Year: Sofina Le

Sofina Le, 22, was proudly born and raised in the City of Salisbury and is an active citizen who enhances community life through her countless hours of volunteering.

After volunteering at the Jack Young Centre as a Café Assistant in 2017 she progressed to administration assistant, a position she held until 2020. It was during this time that she became passionate about working in aged care. A passion that led her to volunteer with the ACH Group Help at Home, where she regularly visits a senior resident for social companionship. A role she continues to this day. In fact, she has made a number of great friendships through this program and doesn't see it as volunteering anymore.

Her hard work and ability to lead by example has been recognised by her fellow peers who have elected her to Chairperson of the Salisbury Youth Council. While working full-time, Sofina has devoted time and energy to the City of Salisbury by volunteering at events, working parties and more.

Through the Salisbury Youth Council, she has been involved in a long list of activities, including the 2020 Multicultural Project Team, which at the height of the COVID pandemic, developed a survey to understand how connected and safe young people felt in the community. Aboriginal and Torres Strait Islander and first-generation young people were also targeted for the survey and it was presented to the Australia Refugee Association.

It goes without saying that Sofina gives 100 percent in everything she does, she is community-minded to the core and always says "yes" whenever a helping hand is needed. This unique characteristic for someone her age

has seen her complete the Bronze Duke of Edinburgh Award and receive highly regarded feedback from multiple organisations like Headspace and Every Life Matters, where Sofina is a youth reference group member advocating for youth mental health.

Community Champions 2022 Recipients

Senior Citizen of the Year: Pieter (Pedro) Dawson

Pedro served as a National Serviceman during the Vietnam War, where almost 60,000 Australians served in the eight-year conflict. Settling in the City of Salisbury in 1972, he has lived at his current residence in Braham Lodge since 1982.

For almost a decade, Pedro has provided an outstanding service as part of the Vietnam Veterans Association Northern Suburbs Sub-branch Inc.

He has served as Treasurer for two years and then became President in 2010, a role he continues to perform today. The 120 Veterans, family members and friends have seen Pedro progressively transform the branch into a high-performing Incorporated Body and Registered Charity.

Pedro has worked tirelessly on a purely voluntary basis, attending the clubrooms 5 days a week for hours each day, to provide an environment where Veterans can talk and share their experiences.

The clubrooms operate mostly as a drop-in service for people to visit to pay respects in the Memorial Garden or simply socialise with fellow Veterans. An advocacy service is available on Tuesdays and regular lunches on Wednesday for approximately 35 attendees. These regular services and activities can only happen because Pedro opens the clubrooms each day and diligently looks after the cleaning and maintenance.

Pedro is very respected by members and has become a role model and mentor to many, actively helping Veterans find purpose and friendship in life.

Each year, the Veterans take a vote for President and the fact that he has been voted in unanimously each time just goes to show how loved and respected he is.

Community Champions 2022 Recipients

Active Citizenship: Adelaide Dragon Football Club

All from the Bhutanese refugee background, the boys from the Adelaide Dragon Football Club work tirelessly to engage the Bhutanese South Australian youth in sporting activities for better outcomes in their mental wellbeing, physical health, connectedness and belonging.

Despite working full-time and having their own academic and family commitments, the older boys in the leadership team are active and positive role models to the younger ones, mentoring them and building a close-knit support network, with the intention of deterring young members from anti-social behaviour like drugs and crime.

Fundraising tournaments have become a fun way for the Club to give back, with funds raised for bushfire victims in Australia, earthquake victims in Nepal and other donations going towards refugee camps and funeral costs for grieving families.

A very relevant cause the Club has led with a passion is connecting the Bhutanese community with accurate information about the COVID-19 vaccination and going as far as hosting a special forum in partnership with Settlement Council of Australia, HOST International and Refugee Health Service. This forum was organised to inform and educate community members, for whom English is their second language, on the COVID-19 vaccination in a comfortable and familiar setting.

Linking with Host International once again, the Club provided funding and much needed food vouchers to the not-for-profit organisation to be given to Afghan evacuees recently arrived in Australia. With most of the members coming from a refugee background, they sympathise with the struggles of new Australians attempting to make a

home in Australia and adjust to the different weather, language and food.

Periodic blood donations through Red Cross is another commitment for the Club, as is their support for important cultural and traditional celebrations and events throughout the border community.

Parents, families and the community at large recognise the contribution made by the Club – as does a long list of local charities and organisations. The Club leaders are good role models and inspire other young people to follow in their footsteps, pay it forward and respect others.

Community Champions 2022 Recipients

Community Event of the Year: Celebrating 80 years of the Edinburgh defence precinct

Over 1,000 people attended the Edinburgh Military Vehicle Museum Defence Day to celebrate 80 years of the Edinburgh Defence Precinct with activities and fun for the whole family.

Held in a group of historic WW2 era buildings within the Defence precinct of Edinburgh Parks, the vehicles on display are not just restored to look at, they are rebuilt to authentic running condition and the collection ranges from the First World War to current times.

All these buildings and vehicles are heritage listed and 82 vehicles were on display on the day – 46 are owned by the museum trust and a further 36 were brought in for the day.

Live music created a friendly atmosphere and walking around the event there were constant surprises with action packed military vehicle rides, interesting displays and amazing exhibitions by talented artist Barry Spicer.

More than 450 people supported the event from various community organisations, acknowledging the many connections the Edinburgh base has with the border community and its enrichment. Volunteers were present from Barkuma, Centrelink, SES, CFS, St Johns, Defence Bank, Veterans SA, Cadet units (Army/Airforce/Navy), local schools and the Salvation Army.

The interactive day was well planned and had entertainment for the whole family. It was great to have the opportunity to take the family out for a great day out and show them a heavy slice of the City of Salisbury's history at a minimal cost.

Community Champions 2022 Recipients

Salisbury Community Achievement: Radwa Alobaid

Radwa is credited with developing relationships between refugees and the community. Coming to Australia as a refugee herself upon fleeing war torn Syria, she understands the challenges of integrating into the Australian lifestyle and adapting to the culture.

One of her most prominent roles in the Australian-Syrian community is her role in supporting women and encouraging them to develop their English language skills. This has led her to organise relaxed educational sessions for non-English speakers about how to access health and pharmacy services and where to find the products they'd used (or ones similar to) those found back in the middle east region.

Radwa has also worked with the Australian Refugee Association in presenting road safety and fire safety advice videos after a house fire burnt down her new Australian home. Understanding that the migrant population are less aware of these risks, due to their new environment and how different it is from their home country, she has passionately educated many new arrivals about the dangers.

Community Champions 2022 Recipients

Mayor's Commendation: Sharif Habibi

Sharif has volunteered at pretty much every event the City of Salisbury has hosted since 2019.

He is always the first one to put up his hand and help out at events and is a valued member of the events team who enjoys creating memorable experiences for the community.

In his other role as ambassador of the Salisbury Youth Council, he supports and guides his fellow colleagues and other volunteers. With a strong passion for sustainability, you'll often catch him making sure things like cable ties and bottles and cans are recycled correctly after an event.

Sharif demonstrates professionalism, courtesy, friendliness and compassion when dealing with all of our community. He is also the first to try new things and is eager to learn Australian slang and sayings (and have a laugh about how strange they sound).

Most of all, he loves meeting new people and now boasts a new confidence when introducing himself; a skill learnt during his many hours of volunteering and work within the youth council.

A welcoming and liveable City

A welcoming and liveable City

A welcoming and liveable City encompasses issues such as the health and wellbeing of our people, including safety, social connections, the look and feel of neighbourhoods and the facilities and programs available to support our community's aspirations.

There are a number of foundations which will be used to measure Salisbury as welcoming and liveable, including promoting a City that is attractive and well maintained with the health and wellbeing of our community a priority. Community members are valued and should feel safe, included and connected, while our community is resilient and adaptive to change. As a welcoming and liveable City, should also be proud of our strengths, achievements and cultural diversity.

Strategic Projects

Council has worked on several strategic projects aimed at enhancing Salisbury's appeal and reputation as a progressive, friendly, people-centred community. These include:

- the completion of the Burton Community Hub, which opened on 31 July 2022 to provide library services and community programs and activities for diverse user groups
- continued implementation of the Ability Inclusion Strategic Plan, including staging disability inclusion training workshops for 250 employees and introducing more playground equipment for people with disabilities
- the completion of budgeted works at St Kilda, including a new boat ramp and accessible hoists
- completion of the next stage in the Paddocks Master plan including a district playspace, boardwalk, viewing platform and pathways as well as the design for new shared use clubrooms and netball courts in preparation for the next stage of the master plan.
- the opening for public and school use of the Bridgestone Athletics Centre. Since October 2021, the centre has become home to three athletics clubs. Membership of the three clubs increased by 35 per cent in 2021-22, compared with the 19 per cent increase in 2020/21.
- development of a draft regional public health plan and wellbeing plan to maximise and plan to expand the city's capacity to improve residents' and visitors' health and wellbeing outcomes
- planning and design for the \$28.4 million Salisbury Aquatic Centre, construction of which is scheduled to begin in late 2022.

A welcoming and liveable City Cont'd

- Stage 1 of the Fairbanks reserve redevelopment was completed and has seen the installation of a rage cage and toilet facilities. The Design phases for stage 2 (playground upgrade, irrigated open space and new pathways) has commenced and is due for completion in the 2022/23.

Council also continued to maintain and enhance existing public spaces with landscape and irrigation programs, increased lighting, and tree planting at popular sites such as along Mawson Lakes Boulevard and in Dunkley Green, Carlyle, Amsterdam Crescent and Canterbury Drive reserves.

Operational Focus

The provision of safe and clean areas in which to live, work and play was a major focus of the Council's operations in 2021-22.

In the midst of the COVID-19 pandemic, during which safety and hygiene in public spaces were of paramount concern, the Council paid close attention to clearing rubbish, including illegally dumped rubbish, from public spaces, and expanded its use of CCTV to monitor undesirable behaviour and outcomes – such as dumping, graffiti and dangerous driving – in public places and during public events.

Council is committed to improve accessibility for people with disabilities. A universal design guideline has been developed and is used during the design phase for all upgrades of facilities as well as ongoing maintenance of footpaths, pram ramps, bus stops and shelters, sports facilities and playspaces. Council also consults with the Disability Access and Inclusion Network (DAIN) on relevant projects.

Community participation in health and recreation programs was boosted through the provision of a range of programs designed to attract attendees and enhance their health, fitness and connectedness. More than 97,000 attendees joined programs at the city's libraries, senior centres and other centres, while the senior centres served nearly 16,000 healthy meals to 699 customers and staged more than 70,000 hours of wellbeing and active ageing programs.

Harmony Week and Refugee Week events and other activities supported by the Welcoming and Intercultural Cities Networks and other organisations contributed to Council's Intercultural Strategic Plan objectives to build connections and increase collaboration and understanding within the region's multicultural community.

Council also promoted participation in local sports clubs and other not-for-profit organisations by awarding 54 community grants for equipment, uniforms and other essential items.

A welcoming and liveable City Cont'd

Future Planning

Completion of the Place Activation Strategy is enabling Council to design community facility requirements and upgrades, with the mapping of the population density across the city a component of planning, including for the West of Port Wakefield Road Strategic Growth infrastructure.

Council will also review feedback on the physical activity and social isolation aspects of the City Pride Strategy before relaunching the strategy in 2022-23.

Advocacy Priorities

Council is committed to addressing the housing and income inequality issues experienced by some city residents. In 2022 it worked with Good Shepherd and other organisations to support the Northern Adelaide Financial Inclusion Action Plan through actions designed to build awareness and responses to financial vulnerability, hardship and inclusion, and minimise their impacts on residents' security, health and wellbeing.

Council sought support from partners such as SAPOL, the Australian Drug and Alcohol Foundation, suicide prevention networks, schools and transport departments to help city residents and visitors access the health and safety services they need. Regular meetings with SAPOL and business and community leaders engendered a shared approach to minimising crime and anti-social behaviour.

A six-month community bus trial demonstrated support for improved public transport across the city. Council is continuing to provide the bus until December 2022, while discussing the city's need for better public transport services – particularly in the western region – with the State Government.

Council's internal design review process continues to be offered to developers – including those proposing infill development – at no charge. The design review process seeks to encourage good design principles so that new development improves the general amenity of the location in which it is built.

A sustainable City

A sustainable City

A sustainable City includes protecting and conserving our diverse natural environment to support biodiversity, reducing Council's environmental footprint, ensuring we make the most of our resources and enabling our community, environment and infrastructure to be resilient to a changing climate.

The foundations used to measure Salisbury as a sustainable City include the existence of a balance of green spaces and natural environments that support biodiversity, making the most of our resources including water, waste and energy and a community, environment and infrastructure that are adaptive to a changing climate.

Strategic projects

Council's commitment to reducing its carbon footprint and protecting and conserving the natural environment continued, with work including:

- The installation of 8,000 LED street lights to reduce carbon emission and energy costs
- A review of community buildings that highlighted possible improvements to boost environmental performance
- The planting of 10,000 trees along the Little Para River, with the help of school students and community members, to enhance the city's biodiversity corridors
- Educating students and other community members about biodiversity, with a focus on propagation and native plantings along Little Para River and Dry Creek
- Installing sensors to monitor water flows, quality and use in the region's creek lines
- Exploring potential markets for recyclable materials

Operational Focus

Council continues to seek and introduce practices to conserve natural resources and reduce carbon emissions.

For example, Council's road, buildings and other infrastructure is designed to accommodate climate change, including catering for more frequent heat and storm events. Road pavement design includes materials and treatment types that reduce heat near roads, building design considers energy efficiency technology such as including solar panels and batteries, and Council planting more trees, their types selected according to their capacity to withstand higher temperatures or need less water.

A sustainable City Cont'd

In addition, Council includes in its own construction tenders the requirement to re-use concrete, bitumen, glass and other material, and includes recycled products in its road resealing projects.

Council continues to educate and inform residents about how to improve their environmental performance. A three-bin service is provided to the 75,000 residential properties in the city, with green organics kerbside bins provided free of charge from July 2021. An additional 5,420 free green organics kerbside bins were provided to the community during 2021/2022. Funding provided by Green Industries SA supported the provision of kitchen caddies and compostable liners to the community to divert food waste from landfill, processing it into useful compost products instead. During the initial six months of the kitchen caddy rollout (January to June 2022), approximately 900 tonnes of food and organics waste was diverted from landfill.

Future Planning

Work on a new Sustainability Strategy commenced with five themes covering biodiversity, climate change adaptation, emissions reduction, resource recovery and water management. Next year it is planned to consult with the community on the draft Sustainability Strategy and its implementation.

The Dry Creek Stormwater Management Plan is due for completion in 2022-23. It will outline measures to protect high-risk areas of the city from flooding, a key component of the city's plans to avoid the impacts of weather events related to climate change.

Council will develop education and information materials to explain how good design supports and enhances the environmental, social and economic performance and appeal of buildings and neighbourhoods.

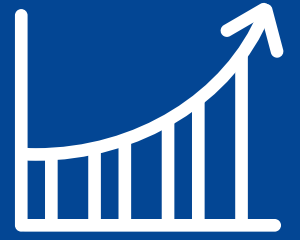

Advocacy Priorities

Council continues to invest in and promote to residents and business owners a range of tools and practices to increase the environmental performance of physical infrastructure and reduce waste to landfill.

The management of stormwater is a key component of the overall planning and maintenance of urban water infrastructure, both for Council and for private developers.

This page is intentionally left blank.

A growing City that creates new opportunities

A growing City that creates new opportunities

Council's commitment to be a growing City that creates new opportunities is focused on how we support the success and growth of local businesses, job opportunities for our residents, attracting investment, quality urban planning and providing infrastructure that supports economic activity.

We are consistently working on supporting businesses to be successful and establishing the region as a place of choice for business while supporting investment and business activity and well-planned urban growth.

Strategic Projects

The City of Salisbury welcomes and promotes businesses and other ventures that contribute to a bright, vibrant and prosperous community now and that support its plans for growth.

It is committed to providing the safe and appealing commercial, residential and recreational areas that will attract business and new residents, including with urban design, technology and other features supporting innovation and growth.

In 2021-22, this included starting important upgrades to the Salisbury City Centre. Work began on upgrading Church and John streets, with improvements to footpaths, landscaping, furniture and signage to help navigation and use of the streets.

This laid the foundation for efforts by Council's Economic Development team to attract business to the City. In 2021-22, the team worked with 29 companies to help them expand or relocate to the region, including:

- Pelligra – with 450 construction jobs and 55 ongoing roles
- DCI Data Centers – building a \$100 million facility with 20 direct ongoing jobs and 100 indirect supply-chain roles
- Apex Steel, which is moving to a new \$38.25 million warehouse in Direk
- Noumed Pharmaceuticals, which is building an \$85 million manufacturing plant, creating 250 jobs during construction and 180 ongoing roles when operational.

A growing City that creates new opportunities Cont'd

Despite pandemic-related challenges, there were a number of business successes achieved throughout the 2021/22 financial year. The following successes are from the many business services that Council provide at the Polaris Business and Innovation Centre:

- More than 20 new businesses were launched during the 2021/22 financial year
- Free webinar and information sessions were provided to the business community during the COVID-19 pandemic
- More than 50 businesses participated in programs offered by the Polaris Business and Innovation Centre
- Partnered with the Department of Innovation and Skills to launch the Marketing for Success program
- Unique business engagements surpassed 500 during the 2021/22 financial year
- More than 10 businesses were provided support to secure funding; this total funding amount surpassed \$2 million
- More than 40 informative networking events, workshops and seminars were offered to businesses

The importance of Technology Park in the state's defence and other future-focused sectors was reinforced by Council's Economic Development department maintaining and expanding links with innovation precincts throughout the year. For example, team members participated in the Australia-Japan Forum's Innovation-hub Ecosystem Forum in November 2021, outlining the challenges facing innovation precincts to an audience including academics, economists and public sector representatives. A project to enable two way traffic flow from the Technology Drive precinct was completed and has improved access to and from Main North Road.

Council delivered award-winning residential development projects under the Salisbury Living Brand, including at Salisbury North (The Reserve), Paralowie (Greentree Walk and Boardwalk at Greentree), Parafield Gardens (Emerald Green) and Irving Place at Para Hills. Work continues on new projects at Lake Windemere, in Salisbury North and Walkleys Road Corridor at Ingle Farm, with community engagement a key component of each project.

We are working with the State Government on improving the design and safety of the Salisbury Interchange.

Operational Focus

Council's development and infrastructure teams led activity within the organisation to ensure progress in its objectives to support growth and create opportunities, and to assist those looking to capitalise on the region's business-friendly environment.

The recognition of the significance of parking to businesses and residents was demonstrated in Council's attention to parking in the Salisbury City Centre and in its announcement that a study of parking in Mawson Lakes will be conducted in 2022-23.

A growing City that creates new opportunities Cont'd

Council continued to improve the streetscape of commercial and industrial precincts, introducing or upgrading suitable verges, tree plantings, footpaths and roads and directional signage.

Council delivered services to support the many small businesses in the region, working with the Small Business Friendly Council charter championed by the Small Business Commissioner. Procurement processes and internal services were reviewed to ensure they suit and can offer maximum assistance to local small businesses.

Future Planning

Council will undertake a number of projects to ensure it is best-placed capitalise on existing work and to identify other opportunities for business attraction regional growth.

Reviews of Council's economic growth strategy and Growth Action Plan will inform a new economic development strategy and other updated plans for presentation in 2022-23.

Council has finalised a structure plan for the land west of Port Wakefield Road in preparation for building a new region for city growth. The Strategic Growth Framework - Waterloo Corner and Bolivar Corridor was also finalised following community and stakeholder engagement and is a blueprint for State Government and Council planning for development in the area.

A consultancy funded by Council, Defence SA and other partners is examining the potential for an 'innovation district' at Technology Park. Council is also working with Defence SA to identify development barriers to development and land access at Edinburgh Parks.

Advocacy Priorities

Transport, road design and maintenance and parking are critical to Council's and local businesses' plans for growth.

Council continues to work with the State Government on road network planning and improvements across the city, and is studying traffic patterns and parking requirements at the Salisbury and Mawson Lakes interchanges, including east west connectivity and Main North Road improvements.

It is also working with the State Government to appropriately develop the Dry Creek Salt Fields and to identify and capitalise on development opportunities at Edinburgh Parks.

Innovation and Business Development

Innovation and Business Development

Innovation and Business Development outlines how Council will work to provide exceptional experiences, deliver quality outcomes and be recognised as a great place to work. The foundations of this include delivering quality outcomes, members of our community receiving an exceptional experience when interacting with Council, recognition of Council as a great place to work, effective planning and meaningful engagement to ensure the community is aware of Council initiatives.

Strategic Projects

A range of initiatives were implemented to ensure Council continues to deliver its services to its community during the pandemic. A number of these initiatives have continued to deliver enhanced outcomes.

Its COVID-19 Resident and Business Support Response Plan provided initiatives and grants to help community groups and members most impacted by pandemic-related lockdowns and workforce and supply issues.

Upgrading the operations centre at Cross Keys Road and increasing staff involvement in multi-team programs were among projects to increase the efficiency and effectiveness of Council services.

Council commenced a review of its technology platforms to ensure future upgrades align to the transforming Council's operation to deliver exceptional community experience.

Operational Focus

The establishment of the 'business transformation' team demonstrated the increased focus in ensuring Council operations and services meet not only current community needs but build the platform to enable future needs to be met.

Council is increasingly using Power BI (business intelligence) dashboards to analyse data and support decision-making. A key outcome from this initiative is to make the data Council holds available to the community. Examples of this will be information related to Council infrastructure so members of the community can access information on what services are provided on Council reserves.

A 10.73 per cent increase in views between the launch of Council's new website on 29 August 2021 and 30 June 2022 demonstrated its value to community members seeking advice and support online.

Council continues to seek community input and feedback on a range of issues and actions through platforms including social media. The 'Discover Salisbury' campaigns were particularly popular, with an increase in unique viewers of more than 30 per cent.

New Salisbury Spirit Awards have been created and will be announced at a special event each year to recognise and celebrate the hard work and dedication of Council staff members and volunteers.

Innovation and Business Development Cont'd

Future Planning

A new digital strategy and reviews of the community engagement strategy and Strategic Asset Management plan will improve Council's capacity to respond efficiently to the needs of and challenges facing local business.

The new website and increased attention to social media activity will boost engagement with and understanding of local business and community groups and their issues and concerns.

Advocacy Priorities

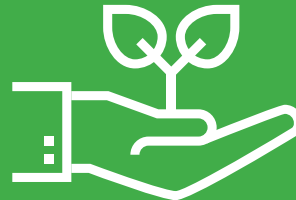

Council continues to establish and build strong relationships with State Government departments and agencies to support its capacity to offer a vibrant, user-friendly environment for business and the community.

Council Certificate

Certification of Financial Statements

We have been authorised by the Council to certify the financial statements in their final form.

In our opinion:

- the accompanying financial statements comply with the *Local Government Act 1999, Local Government (Financial Management) Regulations 2011* and Australian Accounting Standards,
- the financial statements present a true and fair view of the Council's financial position at 30 June 2022 and the results of its operations and cash flows for the financial year,
- internal controls implemented by the Council provide a reasonable assurance that the Council's financial records are complete, accurate and reliable and were effective throughout the financial year,
- the financial statements accurately reflect the Council's accounting and other records.

John Harry
Chief Executive Officer

12 October 2022

Gillian Aldridge
Mayor

12 October 2022

General Purpose Financial Statements

for the year ended 30 June 2022

Understanding Council's Financial Statements

Introduction

Each year, individual Local Governments across South Australia are required to present a set of audited Financial Statements to their Council and Community.

About the Certification of Financial Statements

The Financial Statements must be certified by the Chief Executive Officer and Mayor as 'presenting a true and fair view' of the Council's financial results for the year and ensuring both responsibility for and ownership of the Financial Statements across Council.

What you will find in the Statements

The Financial Statements set out the financial performance, financial position and cash flows of Council for the financial year ended 30 June 2022.

The format of the Financial Statements is standard across all South Australian Councils and complies with both the accounting and reporting requirements of Australian Accounting Standards and the requirements as set down in the South Australia Model Financial Statements. The Financial Statements incorporate four 'primary' financial statements:

- 1. Statement of Comprehensive Income**
A summary of Council's financial performance for the year, listing all income and expenses.
- 2. Statement of Financial Position**
A 30 June snapshot of Council's financial position including its assets and liabilities.
- 3. Statement of Changes in Equity**
The overall change for the year (in dollars) of Council's "net wealth".
- 4. Statement of Cash Flows**
Indicates where Council's cash came from and where it was spent.

About the Notes to the Financial Statements

The Notes to the Financial Statements provide greater detail and additional information on the four Primary Financial Statements.

About the Auditor's Reports

Council's Financial Statements are required to be audited by external accountants (that generally specialise in Local Government).

In South Australia, the Auditor provides an audit report, with an opinion on whether the Financial Statements present fairly the Council's financial performance and position.

About the Independence Certificates

Council's Financial Statements are also required to include signed Certificates by both the Council and the Auditors that the Council's Auditor has maintained its independence in accordance with the requirements of the *Local Government Act 1999* and the *Local Government (Financial Management) Regulations 2011*.

Who uses the Financial Statements?

The Financial Statements are publicly available documents and are used by (but not limited to) Councillors, Residents and Ratepayers, Employees, Suppliers, Contractors, Customers, the Local Government Association of South Australia, the SA Local Government Grants Commission, and Financiers including Banks and other Financial Institutions.

Under the *Local Government Act 1999* the Financial Statements must be made available at the principal office of the Council and on Council's website.

Notes to and forming part of the Financial Statements for the year ended 30 June 2022

Note 1. Summary of Significant Accounting Policies

The principal accounting policies adopted by Council in the preparation of these consolidated financial statements are set out below.

These policies have been consistently applied to all the years presented, unless otherwise stated.

(1) Basis of Preparation

1.1 Compliance with Australian Accounting Standards

This general purpose financial report has been prepared on a going concern basis using the historical cost convention in accordance with Australian Accounting Standards as they apply to not-for-profit entities, other authoritative pronouncements of the Australian Accounting Standards Board, Interpretations and relevant South Australian legislation.

The financial report was authorised for issue by certificate under regulation 14 of the *Local Government (Financial Management) Regulations 2011* dated 12 October 2022.

1.2 Historical Cost Convention

Except as stated below, these financial statements have been prepared in accordance with the historical cost convention.

1.2 Critical Accounting Estimates

The preparation of financial statements in conformity with Australian Accounting Standards requires the use of certain critical accounting estimates and requires management to exercise its judgement in applying Council's accounting policies.

The areas involving a higher degree of judgement or complexity, or areas where assumptions and estimates are significant to the financial statements are specifically referred to in the relevant sections of these Notes.

1.3 Rounding

All amounts in the financial statements have been rounded to the nearest thousand dollars (\$'000).

(2) The Local Government Reporting Entity

City of Salisbury is incorporated under the *South Australian Local Government Act 1999* and has its principal place of business at 34 Church Street, Salisbury. These financial statements include the Council's direct operations and all entities through which Council controls resources to carry on its functions.

Other entities in which Council has an interest but does not *control* are reported in Note 19.

(3) Income Recognition

The Council recognises revenue under *AASB 1058 Income of Not-for-Profit Entities* or *AASB 15 Revenue from Contracts with Customers* when appropriate.

In cases where there is an enforceable contract with a customer with sufficiently specific performance obligations, the transaction is accounted for under AASB 15 where income is recognised when (or as) the performance obligations are satisfied (i.e. when it transfers control of a product or service to a customer). Revenue is measured based on the consideration to which the Council expects to be entitled in a contract with a customer.

In other cases, AASB 1058 applies when a not-for-profit (NFP) entity enters into transactions where the consideration to acquire an asset is significantly less than the fair value of the asset principally to enable the entity to further its objectives. The excess of the asset recognised (at fair value) over any related amounts is recognised as income immediately, except in the case where a financial asset has been received to enable the council to acquire or construct a recognisable non-financial asset that is to be controlled by the council. In this case, the council recognises the excess as a liability that is recognised over time in profit and loss when (or as) the entity satisfies its obligations under the transfer.

Notes to and forming part of the Financial Statements

for the year ended 30 June 2022

Note 1. Summary of Significant Accounting Policies (continued)

In recent years the payment of untied grants (financial assistance grants/local roads/supplementary grants) has varied from the annual allocation as shown in the table below:

Financial Year	Payment Received In Advance \$'000	Comments
2019/20	4,329	Relates to 2020/21
2020/21	4,737	Relates to 2021/22
2021/22	6,706	Relates to 2022/23

Because these grants as applicable for the current reporting period are untied, the Australian Accounting Standards require that payments be recognised upon receipt. Accordingly, the operating results of these periods have been distorted compared to those that would have been reported had the grants been paid in the year to which they were allocated.

The Operating Surplus Ratio disclosed in Note 15 has also been calculated after adjusting for the distortions resulting from the differences between the actual grants received and the grants entitlements allocated.

(4) Cash, Cash Equivalents and other Financial Instruments

Cash Assets include all amounts readily convertible to cash on hand at Council's option with an insignificant risk of changes in value with a maturity of three months or less from the date of acquisition.

Receivables for rates and annual charges are secured over the subject land, and bear interest at rates determined in accordance with the *Local Government Act 1999*. Other receivables are generally unsecured and do not bear interest.

All receivables are reviewed as at the reporting date and adequate allowance made for amounts the receipt of which is considered doubtful.

All financial instruments are recognised at fair value at the date of recognition. A detailed statement of the accounting policies applied to financial instruments forms part of Note 13.

(5) Inventories

Inventories held in respect of stores have been valued by using the weighted average cost on a continual basis, after adjustment for loss of service potential. Inventories held in respect of business undertakings have been valued at the lower of cost and net realisable value.

5.1 Real Estate Assets Developments

Real Estate Assets developments have been classified as Inventory in accordance with *AASB 102 Inventories* and are valued at the lower of cost or net realisable value. Cost includes the costs of acquisition, development, borrowing and other costs incurred on financing of that acquisition and up to the time of sale. Any amount by which cost exceeds the net realisable value has been recognised as an expense.

Revenues arising from the sale of property are recognised in the operating statement when settlement is completed.

5.2 Other Real Estate Held for Resale

Properties not acquired for development, but which Council has decided to sell as surplus to requirements, are recognised at the carrying value at the time of that decision.

Notes to and forming part of the Financial Statements

for the year ended 30 June 2022

Note 1. Summary of Significant Accounting Policies (continued)

(6) Infrastructure, Property, Plant and Equipment

6.1 Initial Recognition

All assets are initially recognised at cost. For assets acquired at no cost or for nominal consideration, cost is determined as fair value at the date of acquisition.

All non-current assets purchased or constructed are capitalised as the expenditure is incurred and depreciated as soon as the asset is held 'ready for use'. Cost is determined as the fair value of the assets given as consideration plus costs incidental to the acquisition, including architects' fees and engineering design fees and all other costs incurred. The cost of non-current assets constructed by the Council includes the cost of all materials used in construction, direct labour on the project and an appropriate proportion of variable and fixed overhead.

Capital works still in progress at balance date are recognised as other non-current assets and transferred to infrastructure, property, plant and equipment when completed ready for use.

6.2 Materiality

Assets with an economic life in excess of one year are only capitalised where the cost of acquisition exceeds materiality thresholds established by Council for each type of asset. In determining (and in annually reviewing) such thresholds, regard is had to the nature of the asset and its estimated service life.

Examples of capitalisation thresholds applied during the year are disclosed in Note 7. No capitalisation threshold is applied to the acquisition of land or interests in land.

6.3 Subsequent Recognition

All material asset classes are revalued on a regular basis such that the carrying values are not materially different from fair value. Significant uncertainties exist in the estimation of fair value of a number of asset classes including land, buildings and associated structures and infrastructure. Further detail of these uncertainties and of existing valuations, methods and valuers are provided at Note 7.

6.4 Depreciation of Non-Current Assets

Other than land, all infrastructure, property, plant and equipment assets recognised are systematically depreciated over their useful lives on a straight-line basis which, in the opinion of Council, best reflects the consumption of the service potential embodied in those assets.

Depreciation methods, useful lives and residual values of classes of assets are reviewed annually; these reviews are conducted either internally or externally through the completion of asset audits and valuations.

Major depreciation periods for each class of asset are detailed in Note 7. Depreciation periods for infrastructure assets have been estimated based on the best information available to Council, but appropriate records covering the entire life cycle of these assets are not available, and extreme care should be used in interpreting financial information based on these estimates.

6.5 Intangible Assets

Intangible Assets have been accounted for in accordance with the requirements of *AASB 138 Intangible Assets*. An item is recognised as an intangible if it meets the definition of an intangible asset, it is probable that future economic benefits will flow to Council and the cost of the asset can be reliably measured.

Intangible Assets are tested for impairment yearly or when there is objective evidence or an indication that these assets may be impaired. Further determinations on useful lives are reviewed annually.

Notes to and forming part of the Financial Statements

for the year ended 30 June 2022

Note 1. Summary of Significant Accounting Policies (continued)

6.6 Impairment

Assets whose future economic benefits are not dependent on the ability to generate cash flows, and where the future economic benefits would be replaced if Council were deprived thereof, are not subject to impairment testing.

Other assets that are subject to depreciation are reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. An impairment loss is recognised for the amount by which the asset's carrying amount exceeds its recoverable amount (which is higher of the present value of future cash inflows or value in use).

Where an asset that has been revalued is subsequently impaired, the impairment is first offset against such amounts as stands to the credit of that class of assets in the Asset Revaluation Reserve, any excess being recognised as an expense.

(7) Payables

7.1 Goods and Services

Creditors are amounts due to external parties for the supply of goods and services and are recognised as liabilities when the goods and services are received. Creditors are normally paid 30 days after the month of invoice. No interest is payable on these amounts.

7.2 Payments Received in Advance and Deposits

Amounts received from external parties in advance of service delivery, and security deposits held against possible damage to Council assets, are recognised as liabilities until the service is delivered or damage reinstated, or the amount is refunded as the case may be. In accordance with AASB 1058 Income for Not-For-Profit Entities, grant revenue received to construct assets has been recognised as payments received in advance in 2022 financial year. During the 2022 end of financial year it was determined that some grants of this nature were not recorded as Income in Advance in 2021 financial year, totalling \$2.4M, however, as this does not result in a material misstatement this prior year error has not been corrected.

(8) Borrowings

Borrowings are carried at their principal amounts which represent the present value of future cash flows associated with servicing the debt. Interest is accrued over the period to which it relates, and is recorded as part of 'Payables'.

(9) Employee Benefits

9.1 Salaries, Wages and Compensated Absences

Liabilities for employees' entitlements to salaries, wages and compensated absences expected to be paid or settled within twelve months of reporting date are accrued at nominal amounts (including payroll based oncosts) measured in accordance with AASB 119 *Employee Benefits*.

Liabilities for employee benefits not expected to be paid or settled within twelve months are measured as the present value of the estimated future cash outflows (including payroll based oncosts) to be made in respect of services provided by employees up to the reporting date. Present values are calculated using government guaranteed securities rates with similar maturity terms.

No accrual is made for sick leave as Council experience indicates that, on average, sick leave taken in each reporting period is less than the entitlement accruing in that period, and this experience is expected to recur in future reporting periods. Council does not make payment for untaken sick leave.

9.2 Superannuation

The Council makes employer superannuation contributions in respect of its employees to the Statewide Superannuation Scheme. The Scheme has two types of membership, each of which is funded differently. No changes in accounting policy have occurred during either the current or previous reporting periods. Details of the accounting policies applied and Council's involvement with the schemes are reported in Note 18.

Notes to and forming part of the Financial Statements

for the year ended 30 June 2022

Note 1. Summary of Significant Accounting Policies (continued)

(10) Leases

The Council assesses at contract inception whether a contract is, or contains, a lease. That is, if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration.

Lease arrangements have been accounted for in accordance with *AASB 16 Leases* which was applied by Council for the first time from 1 July 2019.

10.1 Council as a lessee

The Council recognises lease liabilities to make lease payments and right of use assets representing the right to use the underlying assets.

i) Right of Use Assets

The Council recognises right of use assets at the commencement date of the lease. Right of use assets are measured at cost, less any accumulated depreciation and impairment losses, and adjusted for any remeasurement of lease liabilities. The cost of right of use assets includes the amount of lease liabilities recognised, initial direct costs incurred, lease payments made at or before the commencement date less any lease incentives received and the estimate of costs to be incurred to restore the leased asset. Right of use assets are depreciated on a straight-line basis over the shorter of the lease term and the estimated useful lives of the assets. Land is amortised over a period of 30 years, details for both as follows:

Plant and equipment	3 to 5 years
Water Harvesting Site	30 years

The right of use assets are also subject to impairment. Refer to the accounting policies above.

ii) Lease Liabilities

At the commencement date of the lease, the Council recognises lease liabilities measured at the present value of lease payments to be made over the lease term. In calculating the present value of lease payments, the Council uses its incremental borrowing rate or the interest rate implicit in the lease.

iii) Short term leases and leases of low-value assets

The Council applies the short term lease recognition exemption to its short term leases of machinery and equipment (i.e., those leases that have a lease term of 12 months or less from the commencement date). It also applies the low value assets recognition exemption to leases of office equipment that are considered to be low value. Lease payments on short term leases and leases of low value assets are recognised as expense on a straight-line basis over the lease term.

(11) Equity Accounted Council Businesses

Council participates in cooperative arrangements with other Councils for the provision of services and facilities. Council's interests in cooperative arrangements are accounted for in accordance with *AASB 128 Investments in Associates and Joint Ventures* and set out in detail in Note 19.

(12) GST Implications

In accordance with Interpretation Abstract 1031 '*Accounting for the Goods and Services Tax*'

- Receivables and Creditors include GST receivable and payable.
- Except in relation to input taxed activities, revenues and operating expenditures exclude GST receivable and payable.
- Non-current assets and capital expenditures include GST net of any recoupment.
- Amounts included in the Statement of Cash Flows are disclosed on a gross basis.

Notes to and forming part of the Financial Statements
for the year ended 30 June 2022

Note 1. Summary of Significant Accounting Policies (continued)

(13) New accounting standards and UIG interpretations

The Council applied for the first-time certain standards and amendments, which are effective for annual periods beginning on or after 1 January 2022. New standards and amendments relevant to the Council are listed below. The Council has not early adopted any other standard, interpretation or amendment that has been issued but is not yet effective.

(14) Comparative Figures

To ensure comparability with the current reporting period's figures, some comparative period line items and amounts may have been reclassified or individually reported for the first time within these financial statements and/or the notes.

(15) Disclaimer

Nothing contained within these statements may be taken to be an admission of any liability to any person under any circumstance.

--	-------	-------

On 13 April 2022, Council received advance payment of the 75% of the 2022/2023 Financial Assistance Grant, totalling \$6,706k (comprising \$5,073k in general purpose funding and \$1,633k in untied local road funding) compared to the 50% received in advance in the prior year. This has materially increased Council's operating results in the current year, as these amounts are recognised as income upon receipt, as detailed in Note 1. Potential material effects will be experienced when the timing of these grant payments are once again restored to a normal schedule.

Note 7. Infrastructure, Property, Plant and Equipment (continued)

(b) Valuation of Infrastructure, Property, Plant & Equipment & Investment Property

Valuation of Assets

Council measures and recognises the following assets at fair value on a recurring basis after initial recognition:

- Land
- Land Improvements
- Infrastructure
- Buildings and Other Structures

Council does not subsequently measure any liabilities at fair value on a recurring basis, or any assets or liabilities at fair value on a non-recurring basis.

a) Fair Value Hierarchy

AASB 13 Fair Value Measurement requires the disclosure of fair value information according to the relevant level in the fair value hierarchy. This hierarchy categorises fair value measurements into one of three possible levels based on the lowest level that a significant input can be characterised into. The levels are outlined below:

Level 1	Level 2	Level 3
Measurements based on quoted prices (unadjusted) in active markets for identical assets that the entity can access at the measurement date.	Measurements based on inputs other than quoted prices included in Level 1 that are observable for the asset, either directly or indirectly.	Measurements based on unobservable inputs for the asset.

The fair value of assets that are not traded in an active market is determined using one or more valuation techniques. These valuation techniques maximise, to the extent possible, the use of observable market data. If all significant inputs required to measure fair value are observable, the asset is included in Level 2. If one or more significant inputs are not based on observable market data, the asset or liability is included in Level 3.

b) Valuation Techniques

Council selects valuation techniques that are appropriate in the circumstances and for which sufficient data is available to measure fair value. The availability of sufficient and relevant data primarily depends upon the specific characteristics of the asset being measured. The valuation techniques selected by Council are consistent with one or more of the following valuation approaches:

- *Market Approach* uses prices and other relevant information generated by market transactions involving identical or similar assets.
- *Income Approach* converts estimated future cash flows or income and expenses into a single current (ie. discounted) value.
- *Cost Approach* reflects the current replacement cost of an asset at its current service capacity.

Each valuation technique requires inputs that reflect the assumptions that buyers and sellers would use when pricing the asset, including assumptions about risks. When selecting a valuation technique, Council gives priority to those techniques that maximise the use of observable inputs and minimise the use of unobservable inputs. Inputs that are developed using market data (such as publicly available information on actual transactions) and reflect the assumptions that buyers and sellers would generally use when pricing the asset or liability are considered observable, whereas inputs for which market data is not available and therefore are developed using the best information available about such assumptions are considered unobservable.

During 2017/18 Council initially undertook a review of the internal overhead costs, such as project management, supervision and design, that are directly related to the renewal of Council's Transport and Stormwater assets. The purpose of the review was to ensure that the appropriate level of direct internal overhead costs (expressed as a percentage) were being reflected in the unit rates that are utilised to revalue these asset classes. These overhead percentages were independently reviewed by Tonkin Consulting and continue to be incorporated into their review of Council's Asset Valuations.

c) Capitalisation Thresholds

Notes to and forming part of the Financial Statements

for the year ended 30 June 2022

Note 7. Infrastructure, Property, Plant and Equipment (continued)

Capitalisation thresholds used by Council for a representative range of assets are shown below. No capitalisation threshold is applied to the acquisition of land or interests in land.

	\$
Office Furniture and Equipment	5,000
Plant and Light Vehicles	5,000
Buildings - new construction/extensions	10,000
Park and Playground Furniture and Equipment	5,000
Road construction and reconstruction	10,000
Paving and Footpaths, Kerb and Gutter	5,000
Drains and Culverts	10,000
Reticulation Extensions	5,000
Sidelines and household connections	5,000
Artworks	5,000

d) Estimated Useful Lives

Useful lives are estimated for each individual asset. In estimating useful lives, regard is had to technical and commercial obsolescence, as well as legal and other limitations on continued use. The range of useful lives for a representative range of assets is shown below, although individual assets may have an estimated total useful life of greater or lesser amount:

Plant, Furniture and Equipment

Office Equipment	3 to 10 years
Office Furniture	3 to 10 years
Vehicles and Road-making Equipment	2 to 20 years
Other Plant and Equipment	3 to 20 years

Building and Other Structures

Building Components	10 to 120 years
Playground Equipment	10 to 25 years
Benches, Seats, etc	10 to 15 years

Infrastructure

Roads - Seal	20 to 35 years
Roads - Base	60 to 105 years
Roads - Sub-Base	180 to 315 years
Unsealed Roads	5 to 10 years
Bridge Components	20 to 100 years
Footpaths	8 to 80 years
Kerb, Gutter and Medians	50 to 300 years
Drainage Pipes	80 to 100 years
Culverts, Headwalls and Junction Boxes	80 to 100 years
Dams and Reservoirs	200 to 400 years
Bores	75 years
Reticulation Pipes - PVC	50 to 80 years
Pumps and Telemetry	10 to 50 years

Other Assets

Library Books	3 to 7 years
Artworks/Local History	Indefinite
Street Trees	50 years
Right of Use Assets	3 to 5 years

e) Table of Fair Values 2021/22

Notes to and forming part of the Financial Statements

for the year ended 30 June 2022

Note 7. Infrastructure, Property, Plant and Equipment (continued)

	Level 1 \$'000s	Level 2 \$'000s	Level 3 \$'000s	Total \$'000s
Land	-	554,666	-	554,666
Land Improvements	-	-	135,912	135,912
Buildings and Other Structures	-	4,315	100,606	104,921
Infrastructure	-	-	914,514	914,514
Total	-	558,981	1,151,032	1,710,013

f) Disclosed Fair Value Measurements

Asset Category	Fair Value Hierarchy Level	Valuation Technique	Fair Value \$'000s
Land	2	Market Value	554,666

Valuations of assets in this category are undertaken using the State Valuer Generals Site Values.

Asset Category	Fair Value Hierarchy Level	Valuation Technique	Fair Value \$'000s
Land Improvements	3	Cost Approach	135,912

Valuations of assets in this category are undertaken via one of the following methods:

a. Independent valuations are provided by Tonkin Consulting using a methodology that utilises observable Council specific contract rates or industry construction guides to derive a unit rate used to calculate a current replacement cost for each asset. Assets valued via this method include Footpaths, Kerbing and Carpark Pavement/Seals all situated on Council Reserves. In 2021/22 a 3 year average of these unit rates have been utilised.

b. Revalued using a 3 year average of the Local Government Pricing Index (LGPI) from 2019/20 to 2021/22. Assets valued via this method include Fencing, Irrigation Equipment, Playgrounds, Sports Courts/Facilities, Reserve Furniture, Landscaping and Other Structures all situated on Council Reserves.

c. Independent valuations provided by Tonkin Consulting in 2019/20 using a methodology that utilises observable Council cost information as well as their knowledge of the water industry and references to various construction guides (such as Rawlinsons Australian Construction Handbook) to derive an index for each asset component associated with Councils Recycled Stormwater Business Unit, which includes assets such as Pipework, Pumps, Bores, Valves, Electrical and Computer Equipment. In 2020/21, an independent valuation of the current replacement cost for these assets was undertaken using an ASR Asset Price Index provided by Tonkin Consulting, derived from references to various construction guides (such as Rawlinsons Australian Construction Handbook). In 2021/22, an independent valuation of the current replacement cost for these assets was undertaken using a 3 year average from 2019/20 to 2021/22 of an ASR Asset Price Index provided by Tonkin Consulting, derived from references to various construction guides (such as Rawlinsons Australian Construction Handbook).

d. Independent valuations initially provided by JLL in 2017/18 using a methodology that utilises observable rates and cost information from their research across the Playground and Fitness Equipment industries. Assets valued via this method included Playgrounds and Fitness Equipment. These assets have been revalued from 2018/19 to 2020/21 utilising the Local Government Pricing Index (LGPI) and in 2021/22 utilising a 3 year average of the Local Government Pricing Index (LGPI) from 2019/20 to 2021/22.

Notes to and forming part of the Financial Statements

for the year ended 30 June 2022

Note 7. Infrastructure, Property, Plant and Equipment (continued)

Asset Category	Fair Value Hierarchy Level	Valuation Technique	Fair Value \$'000s
Building and Other Structures	2	Market Value	4,315
Building and Other Structures	3	Cost Approach	100,606
Total			104,921

Valuation of assets in this category are undertaken via the following method:

a. Independent market valuations were provided by Public Private Property for the 2020/21 and 2021/22 Financial Year using a methodology that utilises observable, comparable market sales data in the Salisbury Council area.

b. Independent valuations of the current replacement cost for buildings at a component level was undertaken by Sproutt - Professional Engineering Services and Public Private Property as at 1 July 2020 using a methodology that utilises observable rates and cost information from their extensive knowledge across Building Infrastructure. As at 30 June 2021 for the 2020/21 Financial Year, an independent valuation of the current replacement cost for these assets was undertaken using Building Component Indexes provided by Tonkin Consulting, derived from references to the Rawlinsons Australian Construction Handbook. For the 2021/22 Financial Year, an independent valuation of the current replacement cost for these assets was undertaken using a 3 year average from 2019/20 to 2021/22 of Building Component Indexes provided by Tonkin Consulting, derived from references to the Rawlinsons Australian Construction Handbook.

Asset Category	Fair Value Hierarchy Level	Valuation Technique	Fair Value \$'000s
Infrastructure	3	Cost Approach	914,514

Valuation of assets in this category are undertaken via one of the following methods:

a. Independent valuations are provided by Tonkin Consulting using a methodology that utilises observable Council specific contract rates or industry construction guides to derive a unit rate used to calculate a current replacement cost for each asset. Assets valued via this method include Footpaths, Kerbing, Carpark Pavements/Seals and Drainage Pipes/Pits all situated on or under Council Roads. In 2021/22 a 3 year average of these unit rates have been utilised.

b. Independent valuations initially provided by SMEC in 2016/17 using a methodology that utilises observable rates and cost information from their extensive knowledge of water retention related infrastructure. Assets valued via this method include Major Drainage Dams. In the financial years from 2017/18 to 2020/21 these assets were revalued using the Local Government Pricing Index (LGPI). In 2021/22 a 3 year average of the LGPI from 2019/20 to 2021/22 has been utilised.

c. Independent valuations provided by Infrastructure Management Group and Counterpart Solutions as at 30 June 2022 utilising a methodology that utilises their extensive knowledge across Road Infrastructure as well as a 3 year average of unit rates derived from references to the Rawlinsons Australian Construction Handbook. Assets valued under this method include Road Seals/Pavements.

d. Revalued using a 3 year average from 2019/20 to 2021/22 of the Local Government Pricing Index (LGPI). Assets valued via this method include Bridges, Irrigation Equipment on Roads, Road Furniture, Landscaping on Roads, Open Drainage Systems and Minor Drainage Dams.

The requirements of AASB 13 Fair Value Measurement have been applied to all valuations undertaken since 1 July 2013. There has been no change in the valuation technique(s) used to calculate the fair values disclosed in the financial statements from previous years.

Notes to and forming part of the Financial Statements

for the year ended 30 June 2022

Note 7. Infrastructure, Property, Plant and Equipment (continued)

Highest and best use

All of Council's non financial assets are considered as being utilised for their highest and best use, unless market or other factors suggest a different use by market participants would maximise the value of the asset.

Land Under Roads

Council being of the opinion that it is not possible to attribute a value sufficiently reliably to qualify for recognition; land under roads has not been recognised in these reports. Land acquired for road purposes during the year is initially recognised at cost, but transferred to fair value at reporting date, effectively writing off the expenditure.

Land

Much of the land under Councils care and control is Crown land or has been declared as community land under the provision of the *Local Government Act 1999*. Other types of restrictions on the land may also apply. Valuations of this land are based on the State Valuer General's Site Values, which are based on observable sales in an active market of similar properties with a similar land use on both vacant land and land with improvements. Adjustments to these values are then made by the State Valuer General taking into consideration the highest and best use of the property e.g. if there is a single house on the land but zoning would allow it to be divided for home units.

Infrastructure, Buildings and Land Improvements

As there is no known active market for the majority of infrastructure, building and land improvement assets owned by Council, these assets have been valued at current replacement cost using the *Cost Approach*. Upon revaluation, the current replacement cost and accumulated depreciation are restated such that the difference (the current replacement cost) represents the fair value of the asset determined in accordance with *AASB 13 Fair Value Measurement*.

This method involves the determination of the current cost to construct the asset (or its modern engineering equivalent) and then calculating the value of its remaining service capacity (current replacement cost). Council utilise a number of observable and unobservable inputs in the calculation of these values which may include:

Observable Inputs:

- Council specific contract rates
- Recent construction costs for similar assets
- Independent valuations

Unobservable Inputs/Estimates:

- Quantities of materials used
- Economic (Useful) Lives of assets
- Residual Value of assets
- Preserved Value of assets
- Pattern of consumption of an assets economic benefits
- Condition
- Obsolescence
- Impairment
- Industry construction pricing indexes e.g. Rawlinson's Construction Handbook and Cost Guide
- Other construction pricing indexes e.g. Local Government Pricing Index which is an index developed by the Australian Bureau of Statistics and is prepared quarterly by the South Australia Centre for Economic Studies and is based on price movements in the goods and services purchased by Local Governments.

Intangible Assets

Intangible Assets have been accounted for in accordance with the requirements of *AASB 138 Intangible Assets*. Council has purchased from the market in arm's length transactions, Water Licences that enable the harvesting and sale of stormwater, and is of the opinion that these Water Licences meet the definition and recognition requirements of Intangible Assets, specifically Intangible Assets with an indefinite useful life. Initial recognition of these Water Licences is at cost, and after initial recognition they are carried at cost less any accumulated impairment losses.

Testing for impairment, in accordance with *AASB 136 Impairment of Assets*, is undertaken annually, or whenever there may be an indication that the intangible assets may be impaired. The determination that these Water Licences have an indefinite useful life is reviewed annually to determine whether events and circumstances continue to support an indefinite useful life assessment.

Notes to and forming part of the Financial Statements for the year ended 30 June 2022

Note 7. Infrastructure, Property, Plant and Equipment (continued)

Street Trees

Council is of the opinion that street trees and tree screens are tangible assets that Council uses to support the provision of environmental and recreational services to the community, and have an initial cost that can be reliably measured, that is the cost of planting and establishment. It is therefore considered that costs relating to tree plantings for Street Tree and Tree Screen renewal programs only meet the recognition criteria of property, plant and equipment and are recognised as an asset.

Plant, Furniture and Fittings

Assets are carried at cost, less any accumulated depreciation and impairment losses.

Library Books

Library books are accounted for under the replacement method. Library stock at 30 June 2022 is valued using nominal values recommended by the Public Library Service (PLS). All new purchases are treated as replacement items and the expense is classified as depreciation. This expense is then adjusted by the movement in the calculated value of the library stock.

Right of Use Assets

Valued as the initial measurement of the lease liability being the present value of future lease payments and any initial direct costs, pre-paid lease payments and any estimated costs to dismantle.

Note 9. Reserves (continued)

Purposes of Reserves

Asset Revaluation Reserves

The asset revaluation reserve is used to record increments and decrements arising from changes in fair value of non current assets (less any subsequent impairment losses, where applicable).

Development and Public Infrastructure Reserve

The Development and Public Infrastructure Reserve contains developer contributions towards future footpaths, street signs and street trees specific to the development site. It also contains developer contributions towards future works associated with drainage systems, water pipes and pumps, Council road network, trails and bridges necessary to facilitate the development and external to the development site.

Open Space Reserve

For developer contributions received that are to be utilised towards the future acquisition of open space areas.

Carpark Reserve

For the provision of future renewal and maintenance of car parking areas within the Salisbury Town Centre, Ingle Farm Town Centre and Mawson Lakes Town Centre.

Property Disposal Reserve

To retain the proceeds of any property sales, including surplus land and redevelopments, under the provision of Section 194 of the *Local Government Act 1999* and subject to compliance with all legal requirements thereof, and the cash proceeds received from Council's real estate developments. These proceeds are to be utilised to repay current debt or reduce future borrowing requirements.

Mausoleum Perpetual Care Fund Reserve

To provide maintenance for the Mausoleum situated at Salisbury Memorial Park.

Salisbury Memorial Park Reserve

To fund future development work and maintenance at the Salisbury Memorial Park.

Carried Forward Funds Reserve

Used for unspent budget funds at the end of financial year that are to be carried forward for use in the following year.

Salisbury Water Business Unit Reserve

Generated by the allocation of surpluses, and offset by deficits resulting from the operations of the Salisbury Water Business Unit. Allocations from the Reserve can only be made following a resolution of Council and can only be utilised to fund either business development, asset renewal, offset losses or to distribute dividends to Council.

Northern Futures Fund Reserve

Funds held to be utilised to support local communities, particularly those in priority groups, to engage in lifelong learning leading to employment and provide accessible, quality services and resources relating to schools to work transition, workforce development, employment programs, career transitioning and capacity building. A reference group including three industry representatives, two education representatives and a representative from both the SA Government and City of Salisbury have oversight of the fund and how monies will be disbursed.

Business Transformation Reserve

Generated by the allocation of identified expenditure savings and income gains as stated within the Business Transformation Future Fund Policy and to be utilised to fund future costs associated with projects that align with the City of Salisbury's three success factors being Exceptional Community Experience, Quality Outcomes and Great Place to Work, without unnecessarily burdening the community with the costs of these initiatives in the year of expenditure.

Notes to and forming part of the Financial Statements
for the year ended 30 June 2022

Note 10. Assets Subject to Restrictions

\$ '000	2022	2021
<p>The uses of the following assets are restricted, wholly or partially, by legislation or other externally imposed requirements. The assets are required to be utilised for the purposes for which control was transferred to Council, or for which the revenues were originally obtained.</p>		
Cash and Financial Assets		
Open Space Contributions	1,519	1,481
Developer Contributions	2,970	2,706
Unexpended Grants and Subsidy Funds	–	4,602
Total Cash and Financial Assets	4,489	8,789
Total Assets Subject to Externally Imposed Restrictions	4,489	8,789

Open Space Contributions are received primarily to fund reserves/playspaces and other recreational areas within new subdivisions. Developer Contributions are received primarily to fund infrastructure works in new subdivisions. These funds are held in Reserves (as disclosed in Note 9) until required and as such are regarded as restricted. Grant and Subsidy Funds received but not yet expended are regarded as restricted, and are disclosed in Note 2g.

for the year ended 30 June 2022

Note 11. Reconciliation to Statement of Cash Flows

\$ '000	Notes	2022	2021
---------	-------	------	------

(a) Reconciliation of Cash

Cash Assets comprise highly liquid investments with short periods to maturity subject to insignificant risk of changes of value. Cash at the end of the reporting period as shown in the Statement of Cash Flows is reconciled to the related items in the Statement of Financial Position as follows:

Total Cash and Equivalent Assets	5	9,485	9,801
Balances per Statement of Cash Flows		9,485	9,801

(b) Reconciliation of Change in Net Assets to Cash from Operating Activities

Net Surplus/(Deficit)		13,741	17,985
Non-Cash Items in Income Statements			
Depreciation, Amortisation and Impairment		29,746	28,862
Equity Movements in Equity Accounted Investments (Increase)/Decrease		(1,225)	(970)
Non-Cash Asset Acquisitions		(2,865)	(3,795)
Grants for capital acquisitions treated as Investing Activity		(2,895)	(5,776)
Net (Gain) Loss on Disposals		5,388	1,599
		41,890	37,905
Add (Less): Changes in Net Current Assets			
Net (Increase)/Decrease in Receivables		1,688	(203)
Net (Increase)/Decrease in Inventories		(19)	51
Net Increase/(Decrease) in Trade & Other Payables		3,940	2,507
Net Increase/(Decrease) in Unpaid Employee Benefits		95	214
Net Increase/(Decrease) in Other Provisions		10	3
Net Cash provided by (or used in) operations		47,604	40,477

(c) Financing Arrangements

Unrestricted access was available at balance date to the following lines of credit:

Bank Overdrafts	—	500
Corporate Credit Cards	500	500
LGFA Cash Advance Debenture Facility	50,317	50,317

The bank overdraft facilities may be drawn at any time and may be terminated by the bank without notice.

Revenues and expenses exclude net gain (loss) on disposal or revaluation of assets, net gain (loss) from joint ventures and associated entities, amounts received specifically for new or upgraded assets and physical resources received free of charge.

Notes to and forming part of the Financial Statements for the year ended 30 June 2022

Note 12(b). Components of Functions

The activities relating to Council functions are as follows:

Public Order and Safety

Supervision of various laws, fire prevention, crime prevention and repair, road safety and dog control.

Health

Health Act administration, immunisation services and pest and pest plant control.

Social Security and Welfare

Operation of a senior leisure centre, aged care services, youth services and community information.

Housing and Community Services

Town planning, community development planning, road sweeping, roadside rubbish collection, domestic refuse collection, operating of waste transfer station, stormwater drainage, operation of the St Kilda Mangrove trail, street signs, landscape design, tree management and operation of cemetery.

Recreation and Culture

Maintenance and operation of libraries, recreation centres, swimming pool, community centres, parks, gardens and reserves, clubrooms, playgrounds, sports grounds and halls.

Transport and Communication

Construction and maintenance of roads, footpaths, bridges, parking facilities and bus shelters.

Economic Affairs

Building Act administration, economic initiatives, tourism.

Other, Not Attributed and Administration

Rates, public debt transactions, administration costs, capital works in progress and costs which relate to multiple functions but cannot accurately be split between these functions.

Note 13. Financial Instruments

Recognised Financial Instruments

Bank, Deposits at Call, Short Term Deposits

Accounting Policy:

Initially recognised at fair value and subsequently measured at amortised cost, interest is recognised when earned.

Terms and Conditions:

Deposits are returning fixed interest rates between 1.05% and 2.05% (2021: 0.30% and 0.45%). Short term deposits have an average maturity of 30 days and an average interest rate of 1.92% (2021: 30 days and 0.375%).

Carrying Amount:

Approximates fair value due to the short term to maturity.

Receivables - Rates and Associated Charges

Accounting Policy:

Carried at nominal values less any allowance for doubtful debts. An allowance for doubtful debts is recognised (and re-assessed annually) when collection in full is no longer probable.

Terms and Conditions:

Secured over the subject land, arrears attract interest of 2% (2021: 2.0%). Council is not materially exposed to any individual debtor, credit risk exposure is concentrated within the Council's boundaries in the State.

Carrying Amount:

Approximates fair value (after deduction of any allowance).

Receivables - Fees and Other Charges

Accounting Policy:

Carried at nominal values less any allowance for doubtful debts. An allowance for doubtful debts is recognised (and re-assessed annually) when collection in full is no longer probable.

Terms and Conditions:

Unsecured, and do not bear interest. Council is not materially exposed to any individual debtor, credit risk exposure is concentrated within the Council's boundaries.

Carrying Amount:

Approximates fair value (after deduction of any allowance).

Receivables - Other Levels of Government

Accounting Policy:

Carried at nominal value.

Terms and Conditions:

Amounts due have been calculated in accordance with the terms and conditions of the respective programs following advice of approvals, and do not bear interest. All amounts are due by Departments and Agencies of State and Federal Governments.

Carrying Amount:

Approximates fair value.

Note 13. Financial Instruments (continued)

Liabilities - Creditors and Accruals

Accounting Policy:

Liabilities are recognised for amounts to be paid in the future for goods and services received, whether or not billed to the Council.

Terms and Conditions:

Liabilities are normally settled on 30 day terms.

Carrying Amount:

Approximates fair value.

Liabilities - Interest Bearing Borrowings

Accounting Policy:

Carried at the principal amounts. Interest is charged as an expense as it accrues.

Terms and Conditions:

Secured over future revenues, borrowings are repayable biannually; interest is charged at fixed rates between 4.0% and 6.80% (2021: 4.0% and 7.01%).

Carrying Amount:

Approximates fair value.

Liabilities - Leases

Accounting Policy:

Accounted for in accordance with *AASB 16 Leases* as stated in Note 17.

The following interest rates were applicable to Council's Borrowings at balance date:

\$ '000	2022		2021	
	Weighted Avg Interest Rate	Carrying Value	Weighted Avg Interest Rate	Carrying Value
Overdraft	8.22%	—	6.47%	—
Fixed Interest Rates	6.08%	5,090	5.82%	6,825
		5,090		6,825

Net Fair Value

All carrying values approximate fair value for all recognised financial instruments. There is no recognised market for the financial assets of the Council.

Notes to and forming part of the Financial Statements

for the year ended 30 June 2022

Note 13. Financial Instruments (continued)

Risk Exposures

Credit Risk represents the loss that would be recognised if counterparties fail to perform as contracted. The maximum credit risk on financial assets of the Council is the carrying amount, net of any allowance for doubtful debts. All Council investments are made with the SA Local Government Finance Authority and are guaranteed by the SA Government. Except as detailed in Notes 5 and 6 in relation to individual classes of receivables, exposure is concentrated within the Council's boundaries, and there is no material exposure to any individual debtor.

Market Risk is the risk that fair values of financial assets will fluctuate as a result of changes in market prices. All of Council's financial assets are denominated in Australian dollars and are not traded on any market, and hence neither market risk nor **currency risk** apply.

Liquidity Risk is the risk that Council will encounter difficulty in meeting obligations with financial liabilities. In accordance with the model Treasury Management Policy (LGA Information Paper 15), liabilities have a range of maturity dates. Council also has available a range of bank overdraft and standby borrowing facilities that it can access.

Interest Rate Risk is the risk that future cash flows will fluctuate because of changes in market interest rates. Council has a balance of both fixed and variable interest rate borrowings and investments. Cash flow fluctuations are managed holistically in seeking to minimise interest costs over the longer term in a risk averse manner.

Set out below is the movement in the allowance for expected credit losses:

Note 14. Capital Expenditure and Investment Property Commitments

\$ '000	2022	2021
Capital Commitments		
Capital expenditure committed for at the reporting date but not recognised in the financial statements as liabilities:		
Buildings	9,769	1,679
Infrastructure	18,728	16,049
Plant and Equipment	1,343	931
	29,840	18,659
These expenditures are payable:		
Not later than one year	29,840	18,659
	29,840	18,659

Notes to and forming part of the Financial Statements for the year ended 30 June 2022

Note 15. Financial Indicators

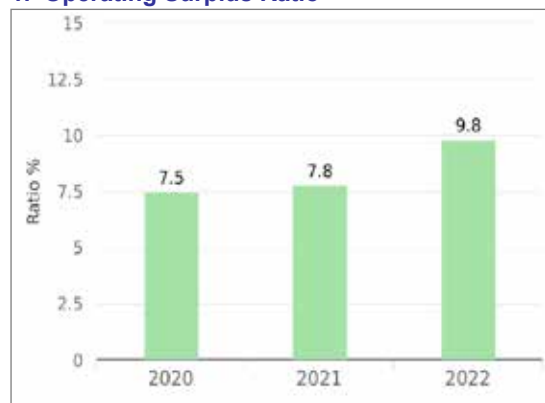

\$ '000	Amounts 2022	Indicator 2022	Indicators 2021	Indicators 2020
Financial Indicators overview				
These Financial Indicators have been calculated in accordance with Information paper 9 - Local Government Financial Indicators prepared as part of the LGA Financial Sustainability Program for the Local Government Association of South Australia.				
1. Operating Surplus Ratio				
Operating Surplus	13,369	9.8%	7.8%	7.5%
Total Operating Income	136,883			
This ratio expresses the operating surplus as a percentage of total operating revenue.				
2. Net Financial Liabilities Ratio				
Net Financial Liabilities	19,505	14.2%	11.3%	17.2%
Total Operating Income	136,883			
Net Financial Liabilities are defined as total liabilities less financial assets (excluding equity accounted investments in Council businesses). These are expressed as a percentage of total operating revenue.				
Adjusted Operating Surplus Ratio				
Operating Surplus	11,400	8.4%	7.5%	7.6%
Total Operating Income	134,914			
Adjustments to Ratios				
In recent years the Federal Government has made advance payments prior to 30 June from future year allocations of financial assistance and supplementary local roads grants, as explained in Note 1. The Adjusted Operating Surplus Ratio adjusts for the resulting distortion in the disclosed operating result for each year.				
3. Asset Renewal Funding Ratio				
Asset Renewals	17,750	88.6%	76.0%	103.5%
Infrastructure & Asset Management Plan required expenditure	20,044			
Asset renewals expenditure is defined as capital expenditure on the renewal and replacement of existing assets relative to the optimal level planned, and excludes new capital expenditure on the acquisition of additional assets.				

Financial Indicators - Graphs

Notes to and forming part of the Financial Statements for the year ended 30 June 2022

Note 15. Financial Indicators (continued)

1. Operating Surplus Ratio

Purpose of operating surplus ratio

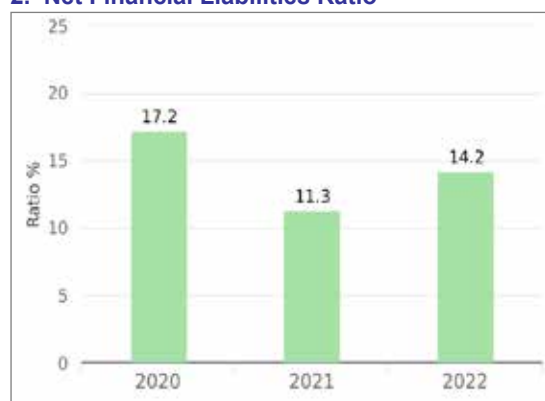

This indicator is to determine the percentage the operating revenue varies from operating expenditure

Commentary on 2021/22 result

2021/22 ratio 9.8%

The target for the operating surplus ratio is 0.5% to 5% with the actual results sitting above the upper limit, primarily due to the delivery of the capital program with delays resulting in lower interest costs as borrowing levels remain low and lower depreciation due to the delay in completion of assets for take up.

2. Net Financial Liabilities Ratio

Purpose of net financial liabilities ratio

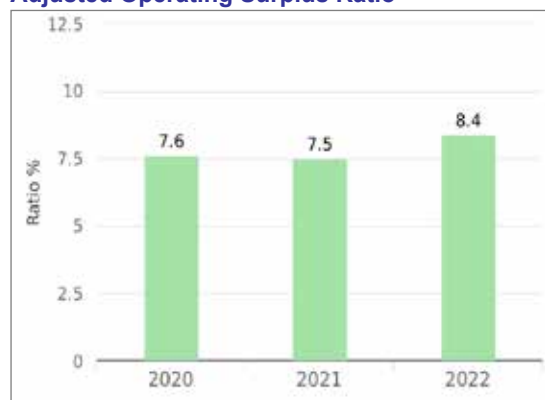

This indicator shows the significance of the net amount owed to others, compared to operating revenue

Commentary on 2021/22 result

2021/22 ratio 14.2%

Net financial liabilities ratio remains low with low levels of debt and advanced payment of the Financial Assistance Grant and Untied Local Roads Grant bolstering the cash position at the end of the financial year. Further contributing is the timing of the delivery of the capital program with significant carry forward into the 2022/23 financial year.

Adjusted Operating Surplus Ratio

Purpose of adjusted operating surplus ratio

This indicator is to determine the percentage the operating revenue (adjusted for timing differences in the Financial Assistance Grant) varies from operating expenditure

Commentary on 2021/22 result

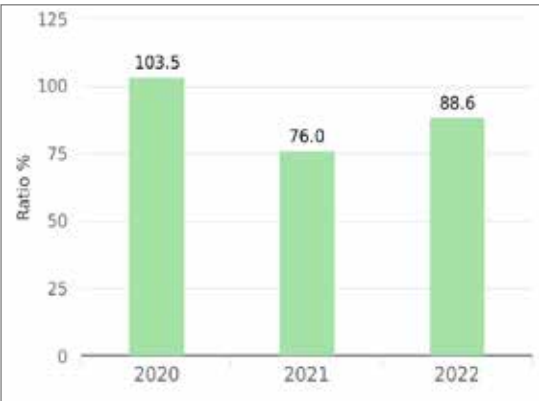

2021/22 ratio 8.4%

The target for the operating surplus ratio is 0.5% to 5% with the actual results sitting above the upper limit, primarily due to the delivery of the capital program with delays resulting in lower interest costs as borrowing levels remain low and lower depreciation due to the delay in completion of assets for take up.

3. Asset Renewal Funding Ratio

Notes to and forming part of the Financial Statements
for the year ended 30 June 2022

Note 15. Financial Indicators (continued)

 <table><tr><th>Year</th><th>Ratio %</th></tr><tr><td>2020</td><td>103.5</td></tr><tr><td>2021</td><td>76.0</td></tr><tr><td>2022</td><td>88.6</td></tr></table>	Year	Ratio %	2020	103.5	2021	76.0	2022	88.6	Purpose of asset renewal funding ratio	
	Year	Ratio %								
	2020	103.5								
	2021	76.0								
2022	88.6									
This indicator aims to determine if assets are being renewed and replaced in an optimal way										
		Commentary on 2021/22 result								
		2021/22 ratio 88.6%								
		The 2021/22 result of 88.6% is just outside the target range of 90% to 110%. There are significant renewal capital carry forwards from 2021/22 into 2022/23, and once delivered will offset the unfavourable 2020/21 and 2021/22 ratios.								

Notes to and forming part of the Financial Statements for the year ended 30 June 2022

Note 16. Uniform Presentation of Finances

\$ '000	2022	2021
<p>The following is a high level summary of both operating and capital investment activities of the Council prepared on a simplified Uniform Presentation Framework basis.</p> <p>All Councils in South Australia have agreed to summarise annual budgets and long-term financial plans on the same basis.</p> <p>The arrangements ensure that all Councils provide a common 'core' of financial information, which enables meaningful comparisons of each Council's finances.</p>		
Income	136,883	129,042
less Expenses	(123,514)	(119,029)
Operating Surplus / (Deficit)	13,369	10,013

for the year ended 30 June 2022

Note 17. Leases

(i) Council as a lessee

Terms and conditions of leases

Council leases information technology equipment and a parcel of land utilised as part of its recycled water operations. The repayments for the information technology assets are fixed and the land is subject to yearly increases in-line with contractual requirements. Information technology leases are either 3 or 5 year terms, and the land has a contractual agreement in place until 2048, with another right of renewal.

Set out below are the carrying amounts of right-of-use assets recognised within Infrastructure, Property, Plant and Equipment and the movements during the period:

(a) Right of use assets

\$ '000	Information Technology Assets	Land	Total
2022			
Opening balance	1,136	1,119	2,255
Additions to right-of-use assets	53	–	53
Adjustments to right-of-use assets due to re-measurement of lease liability	–	–	–
Depreciation charge	(379)	(41)	(420)
Balance at 30 June	810	1,078	1,888
2021			
Opening balance	1,429	1,161	2,590
Additions to right-of-use assets	32	–	32
Adjustments to right-of-use assets due to re-measurement of lease liability	82	(1)	81
Depreciation charge	(407)	(41)	(448)
Balance at 30 June	1,136	1,119	2,255

Notes to and forming part of the Financial Statements
for the year ended 30 June 2022

Note 17. Leases (continued)

(b) Lease liabilities

Set out below are the carrying amounts of lease liabilities (included under interest-bearing loans and borrowings) and the movements during the period:

\$ '000	2022	2021
Balance at 1 July	2,338	2,702
Additions	53	32
Accretion of interest	78	98
Payments	(484)	(512)
Other	—	18
Balance at 30 June	1,985	2,338
Classified as:		
Current	405	415
Non Current	1,580	1,923

The maturity analysis of lease liabilities is included in Note 13.

The Group had total cash outflows for leases of \$543k.

The following are the amounts recognised in profit or loss:

Depreciation expense of Right-of-Use Assets	420	449
Interest expense on lease liabilities	78	98
Expense relating to short term leases	123	143
Total amount recognised in profit or loss	621	690

Notes to and forming part of the Financial Statements

for the year ended 30 June 2022

Note 17. Leases (continued)

(ii) Council as a lessor

Leases Providing Revenue to the Council

Council owns various buildings, plant and other facilities that are available for hire or lease (on a non-cancellable basis wherever practicable) in accordance with the published revenue policy. Rentals received from such leases are disclosed as rent and hire of non-investment property in Note 2.

Investment Property

Rentals received, and outgoings reimbursed, in relation to Investment Property are also disclosed in Note 2. These lease agreements, all of which are classified as operating leases, are made on a non-cancellable basis wherever practicable.

\$ '000	2022	2021
Future minimum rentals receivable under non-cancellable operating leases as at 30 June, are as follows:		
Not later than one year	1,011	1,033
Later than one year and not later than 5 years	2,219	2,779
Later than 5 years	2,133	2,599
	5,363	6,411

Notes to and forming part of the Financial Statements

for the year ended 30 June 2022

Note 18. Superannuation

The Council makes employer superannuation contributions in respect of its employees to Statewide Super (formerly Local Government Superannuation Scheme). There are two types of membership, each of which is funded differently. Permanent and contract employees of the South Australian Local Government sector with Salarylink benefits prior to 24 November 2009 have the option to contribute to the Accumulation section and/or Salarylink. All other employees (including casuals) have all contributions allocated to the Accumulation section.

Accumulation only Members

Accumulation only members receive both employer and employee contributions on a progressive basis. Employer contributions are based on a fixed percentage of ordinary time earnings in accordance with superannuation guarantee legislation (10.00% in 2021/22; 9.50% in 2020/21). No further liability accrues to the Council as the superannuation benefits accruing to employees are represented by their share of the net assets of the Fund.

Salarylink (Defined Benefit Fund) Members

Salarylink is a defined benefit scheme where the benefit payable is based on a formula determined by the member's contribution rate, number of years and level of contribution and final average salary. Council makes employer contributions to Salarylink as determined by the Fund's Trustee based on advice from the appointed Actuary. The rate is currently 6.3% (6.3% in 2020/21) of "superannuation" salary.

In addition, Council makes a separate contribution of 3% of ordinary time earnings for Salarylink members to their Accumulation account. Employees also make member contributions to the Salarylink section of the Fund. As such, assets accumulate in the Salarylink section of the Fund to meet the member's benefits, as defined in the Trust Deed, as they accrue.

The Salarylink section is a multi-employer sponsored plan. As the Salarylink section's assets and liabilities are pooled and are not allocated by each employer, and employees may transfer to another employer within the local government sector and retain membership of the Fund, the Actuary is unable to allocate benefit liabilities, assets and costs between employers. As provided by AASB 119.34(a), Council does not use defined benefit accounting for these contributions.

The most recent actuarial investigation was conducted by the Fund's actuary, Louise Campbell, FIAA, of Willie Towers Watson as at 30 June 2021. The Trustee has determined that the current funding arrangements are adequate for the expected Salarylink liabilities. However, future financial and economic circumstances may require changes to Council's contribution rates at some future time.

Contributions to Other Superannuation Schemes

Council also makes contributions to other superannuation schemes selected by employees under the "choice of fund" legislation. All such schemes are of the accumulation type, where the superannuation benefits accruing to the employee are represented by their share of the net assets of the scheme, and no further liability attaches to the Council.

Notes to and forming part of the Financial Statements

for the year ended 30 June 2022

Note 19. Interests in Other Entities

All joint ventures and associates are required to prepare Annual Financial Statements that comply with the SA Local Government Model Financial Statements.

Northern Adelaide Waste Management Authority

Manages the waste collection, recycling and waste disposal for the Cities of Salisbury and Playford and the Town of Gawler.

Whilst the City of Salisbury has a 54.07% share of equity in NAWMA for the 2022 Financial Year, Council is of the opinion that it does not have control over NAWMA's operations. The rationale being that all three Constituent Councils hold equal voting power at 33.33% and NAWMA's Chairperson and CEO are independent from the constituent Councils. Therefore the ability for Council to control NAWMA's operations is limited to Council's voting power at 33.33%, not its share of equity at 54.07%. Accordingly Council has utilised the equity accounting method to recognise its share of equity in NAWMA for the 2022 Financial Year.

Council has no Unconsolidated Structured Entities

Notes to and forming part of the Financial Statements for the year ended 30 June 2022

Note 20. Contingencies and Assets/Liabilities Not Recognised in the Balance Sheet

The following assets and liabilities do not qualify for recognition in the Statement of Financial Position, but knowledge is considered relevant to the users of the financial report in making and evaluating decisions about the allocation of scarce resources.

1. Land under roads

As reported in the Financial Statements, Council is of the opinion that it is not possible to attribute a value sufficiently reliably for these assets to qualify for recognition, and accordingly land under roads has not been recognised in the reports. Land acquired for road purposes during the year is initially recognised at cost, but transferred to fair value at reporting date, effectively writing off the expenditure.

2. Potential insurance losses

Council is a multi-purpose organisation providing a large range of building, parks infrastructure, playgrounds and other facilities accessible to the public. At any time, it is likely that claims will have been made against Council that remain unsettled.

Council insures against all known insurable risks using a range of insurance policies, each of which is subject to deductible "insurance excesses", the amount of which varies according to the class of insurance.

Council has recognised the potential losses arising from claims known at reporting date based on average historical net cost (including insurance excess) of similar types of claims. Other potential claims not reported to Council may have existed at reporting date.

3. Legal matters

Council is the planning consent authority for its area under the *Development Act 1993* (as amended). Pursuant to that Act, certain persons aggrieved by a planning decision of the Council may appeal. It is normal practice that parties bear their own legal costs. At the date of these reports, Council had notice of nil appeals against planning decisions made prior to reporting date. All known costs have been recognised, but the amount of further costs cannot be known until the appeals are determined.

4. Cemetery

Council operates a Cemetery Facility - Salisbury Memorial Park. A Contingent Liability exists for the ongoing maintenance of this Cemetery. This liability remains for a period of 100 years after the expiry of the lease on the last burial of the site. In addition, Council is party to a leasing arrangement for the management and operations of the Mausoleum situated at Salisbury Memorial Park. As part of this lease the lessee is required to contribute to the Perpetual Care Fund which was established to fund the long term maintenance of the Mausoleum upon expiry of the lease.

Note 21. Events after the Statement of Financial Position Date

Events that occur after the reporting date of 30 June 2022, up to and including the date when the financial statements are 'authorised for issue' have been taken into account in preparing these statements.

Council has adopted the date of receipt of the Auditors' Report as the appropriate 'authorised for issue' date relating to these General Purpose Financial Statements.

Accordingly, the 'authorised for issue' date is 12 October 2022.

Council is unaware of any material or significant 'non adjusting events' that should be disclosed.

Notes to and forming part of the Financial Statements

for the year ended 30 June 2022

Note 22. Related Party Transactions

Key Management Personnel

Transactions with Key Management Personnel

The Key Management Personnel (KMP) of the Council include the Mayor, Councillors, CEO, General Managers and certain prescribed officers under section 112 of the *Local Government Act 1999*, as well as other personnel that satisfy the criteria of KMP as contained within *AASB 124 Related Party Transactions*. In some circumstances members of the KMP have left Council during the financial year, however their compensation has still been included. In all, 44 persons were paid the following total compensation:

\$ '000	2022	2021
The compensation paid to Key Management Personnel comprises:		
Short-Term Employee Benefits	5,537	5,459
Post-Employment Benefits	485	454
Long-Term Benefits	750	717
Total	6,772	6,630

Amounts paid as direct reimbursement of expenses incurred on behalf of Council have not been included above.

Receipts from Key Management Personnel comprise:

There have been no other material amounts received from KMP during the financial year, other than amounts paid in their capacity as ratepayers or residents (e.g. rates, swimming pool entry fees, etc).

Transactions with Regional Subsidiaries:

In regards to Council's Regional Subsidiaries, further information relating to their specific activities and carrying amounts are disclosed in Note 19. Council is an equity owner, along with other member Councils, of both these Subsidiaries. Member Councils have equal representation on the Board of both Regional Subsidiaries and accordingly have influence over both the financial and operational decisions of the Subsidiaries. However, no one Member Council individually has control over these decisions. The following material transactions occurred with Council's Regional Subsidiaries, during the financial year:

	Payments	Outstanding
Northern Adelaide Waste Management Authority	15,437	1,365
Total	15,437	1,365

Budgeted future year expenditure at the reporting date but not recognised in the financial statements as liabilities:

Northern Adelaide Waste Management Authority	14,338
Total	14,338

The budgeted expenditures are payable no later than one year from the reporting date

INDEPENDENT AUDITOR'S REPORT TO THE PRINCIPAL MEMBER OF CITY OF SALISBURY

Report on the Audit of the Financial Report

Opinion

We have audited the financial report of City of Salisbury (the Council), which comprises the statement of financial position as at 30 June 2022, the statement of comprehensive income, the statement of changes in equity and the statement of cash flows for the year then ended, and notes to the financial report, including a summary of significant accounting policies, and the certification of the financial statements.

In our opinion the accompanying financial report presents fairly, in all material respects, the Council's financial position as at 30 June 2022, and its financial performance and its cash flows for the year ended in accordance with Australian Accounting Standards, the *Local Government Act 1999*, and the *Local Government (Financial Management) Regulations 2011*.

Basis for opinion

We conducted our audit in accordance with Australian Auditing Standards. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Report section of our report. We are independent of the Council in accordance with the Local Government Act 1999 and the ethical requirements of the Accounting Professional and Ethical Standards Board's *APES 110 Code of Ethics for Professional Accountants (including Independence Standards)* (the Code) that are relevant to our audit of the financial report in Australia. We have also fulfilled our other ethical responsibilities in accordance with the Code.

We confirm that the independence declaration required by the *Local Government Act 1999*, which has been given to the Council, would be in the same terms if given to the Council as at the time of this auditor's report.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Information Other than the Financial Report and Auditor's Report Thereon

Management is responsible for the other information. The other information obtained at the date of this auditor's report is the annual reports of Northern Adelaide Waste Management Authority for the year ended 30 June 2022.

Our opinion on the financial report does not cover the other information and accordingly we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial report of the City of Salisbury, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial report or our knowledge obtained in the audit, or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Other matter

The financial report of City of Salisbury, for the year ended 30 June 2021 was audited by another auditor who expressed an unmodified opinion on that report on 13 October 2021.

Council's Responsibility for the Financial Report

The Council's officers are responsible for the preparation and fair presentation of the financial report in accordance with Australian Accounting Standards, the *Local Government Act 1999* and the *Local Government (Financial Management) Regulations 2011* and for such internal control as the Council's officers determine is necessary to enable the preparation and fair presentation of the financial report that is free from material misstatement, whether due to fraud or error.

In preparing the financial report, the Council's officers are responsible for assessing the Council's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Council's officers either intend to liquidate the Council or to cease operations, or has no realistic alternative but to do so.

Auditor's responsibilities for the audit of the Financial Report

Our objectives are to obtain reasonable assurance about whether the financial report as a whole is free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with the Australian Auditing Standards will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of this financial report.

A further description of our responsibilities for the audit of the financial report is located at the Auditing and Assurance Standards Board website (<http://www.auasb.gov.au/Home.aspx>) at: http://www.auasb.gov.au/auditors_files/ar4.pdf.

This description forms part of our auditor's report.

Andrew Tickle
Director

Adelaide, 12 October 2022

INDEPENDENT ASSURANCE REPORT ON THE INTERNAL CONTROLS OF THE CITY OF SALISBURY

Opinion

We have undertaken a reasonable assurance engagement on the design and the operating effectiveness of controls established by City of Salisbury ('the Council') in relation to financial transactions relating to the receipt, expenditure and investment of money, acquisition and disposal of property and incurring of liabilities, throughout the period 1 July 2021 to 30 June 2022 relevant to ensuring such transactions have been conducted properly and in accordance with law.

In our opinion, in all material respects:

- (a) The controls established by Council in relation to financial transactions relating to the receipt, expenditure and investment of money, acquisition and disposal of property and incurring of liabilities were suitably designed to ensure such transactions have been conducted properly and in accordance with law; and
- (b) The controls operated effectively as designed throughout the period from 1 July 2021 to 30 June 2022.

Basis for opinion

We conducted our engagement in accordance with Standard on Assurance Engagements ASAE 3150 *Assurance Engagements on Controls* issued by the Auditing and Assurance Standards Board.

We believe that the evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

The Council's responsibilities for the internal controls

The Council is responsible for:

- a) The receipt, expenditure and investment of money, acquisition and disposal of property and incurring of liabilities;
- b) Identifying the control objectives
- c) Identifying the risks that threaten achievement of the control objectives
- d) Designing controls to mitigate those risks, so that those risks will not prevent achievement of the identified control objectives; and
- e) Operating effectively the controls as designed throughout the period.

Our independence and quality control

We have complied with the independence and other relevant ethical requirements relating to assurance engagements, and apply Auditing Standard ASQC 1 *Quality Control for Firms that Perform Audits and Reviews of Financial Reports and Other Financial Information, and Other Assurance Engagements* in undertaking this assurance engagement.

Assurance practitioner's responsibilities

Our responsibility is to express an opinion, in all material respects, on the suitability of the design to achieve the control objectives and the operating effectiveness of controls established by Council in relation to financial transactions relating to the receipt, expenditure and investment of money, acquisition and disposal of property and incurring of liabilities. ASAE 3150 requires that we plan and perform our procedures to obtain reasonable assurance about whether, in all material respects, the controls are suitably designed to achieve the control objectives and the controls operated effectively throughout the period.

An assurance engagement to report on the design and operating effectiveness of controls involves performing procedures to obtain evidence about the suitability of the design of controls to achieve the control objectives and the operating effectiveness of controls throughout the period. The procedures selected depend on our judgement, including the assessment of the risks that the controls are not suitably designed or the controls did not operate effectively. Our procedures included testing the operating effectiveness of those controls that we consider necessary to achieve the control objectives identified. An assurance engagement of this type also includes evaluating the suitability of the control objectives.

Limitations of controls

Because of the inherent limitations of an assurance engagement, together with any internal control structure it is possible that, even if the controls are suitably designed and operating effectively, the control objectives may not be achieved and so fraud, error, or non-compliance with laws and regulations may occur and not be detected.

An assurance engagement on operating effectiveness of controls is not designed to detect all instances of controls operating ineffectively as it is not performed continuously throughout the period and the tests performed are on a sample basis. Any projection of the outcome of the evaluation of controls to future periods is subject to the risk that the controls may become inadequate because of changes in conditions, or that the degree of compliance with them may deteriorate.

Council Certificate

Certification of Financial Statements

We have been authorised by the Council to certify the financial statements in their final form.

In our opinion:

- the accompanying financial statements comply with the *Local Government Act 1999, Local Government (Financial Management) Regulations 2011* and Australian Accounting Standards,
- the financial statements present a true and fair view of the Council's financial position at 30 June 2022 and the results of its operations and cash flows for the financial year,
- internal controls implemented by the Council provide a reasonable assurance that the Council's financial records are complete, accurate and reliable and were effective throughout the financial year,
- the financial statements accurately reflect the Council's accounting and other records.

Our Mission & Objectives

About NAWMA

Northern Adelaide Waste Management Authority (NAWMA) provides local waste management, resource recovery services and infrastructure of global significance. We do this on behalf of our Constituent Councils: City of Salisbury, City of Playford and Town of Gawler.

Mission

To deliver world-class recycling and waste management services to our Constituent Councils, and Client Councils.

Objectives

Objective 1: Achieve best practice in diversion of waste from landfill

Performance indicators:

- All Constituent Council households to have a three-bin system by 2022
- Increase kerbside diversion from 45% to 70% by 2023
- Reduce the contamination rate of the kerbside recyclables bin to less than 10% by 2023

Objective 2: Advocate and facilitate a circular economy

Performance indicators:

- Recycle 100% of yellow-lid bin (household recycling) recovered material in Australia by 2020, (and only access international markets where domestic markets are not available or commercially viable)
- Engage with Constituent Councils to encourage the purchasing back of half (by weight) of their kerbside recovered recyclables in the form of sustainable procurement by 2023

Objective 3: Maintain cost-effectiveness in service delivery

Performance indicators:

- Reduce cost per Serviced Entitled Premise by 5% by 2023 (allowing for LGPI/CPI indexation, and excluding State Government Solid Waste Levy)
- Reduce cost per Constituent Council by 5% by 2023 (allowing for LGPI/CPI indexation, and excluding State Government Solid Waste Levy)
- Efficiently manage the life of the Uleybury Landfill, while investigating landfill alternative technologies in readiness for post-closure

Report from the Independent Chairperson

In 2021-2022 NAWMA has aimed to deliver a high level of services to our Constituent Councils and residents. While consistent with many other organisations, we have continued to feel the lasting effects of the global pandemic.

Flexible working arrangements have continued across the state with more people working from home, resulting in a substantial increase in the volume of household waste and recyclables collected at the kerbside. NAWMA has successfully adapted to this change by being flexible in its approach to add additional service offerings across hard waste collections, Resource Recovery Centres, and helpful information accessed through our website and customer service centre.

The FY21/22 year saw the NAWMA team working hard to reduce operating costs and work on new recycling initiatives to post an operating surplus for the financial year after the initial budget forecast a small deficit. The surplus will be invested in asset and infrastructure replacement and maintenance and funding capital projects in forward years.

NAWMA has continued to operate a best practice Material Recovery Facility (MRF) and in FY21, proudly ensured that every single tonne of yellow top bin recyclables were marketed into domestic (Australian) and valid global recycling reprocessors.

Despite the challenges of several organisational distractions including the recruitment of a new Chief Executive Officer, the Senior Management Team, in support of the NAWMA Board, has sustained commercial improvement.

This positive operating result allows the NAWMA team to focus on asset renewal, replacement, sustainability targets and strategic capital projects, continuing to improve already high service delivery standards to our Constituent Councils.

The Paper Polishing Plant will continue as a key

Stages 1 and 2 of the landfill have already been completely filled, capped with topsoil and revegetated.

Report from the Independent Chairperson

priority in 2022-2023 to sort out impurities from paper and cardboard recovered from residents' yellow-lid bins). The Plant, once finally designed, constructed, and commissioned, will consolidate NAWMA's leadership position in Australia's emboldening circular economy. From a local perspective, the Plant will help to secure the future of our kerbside yellow-lid bin system, while creating a potential 60 construction jobs and further on-going employment opportunities for the Northern Region.

L Minister Susan Close and Rhiannon Pearce MP visit NAWMA.

NAWMA remains as one of Australia's leading waste management and resource recovery organisations and will continue to drive innovation in our field. Testament of this is the continued outstanding work on the 'Alternative to Landfill' project which is identifying world's best technology to divert and treat residual waste from the three Constituent Councils which would normally be destined for landfill.

The Project Advisory Group that are charged with investigating options available for red-lid bin (non-recyclable) waste for when the Uleybury Bafill and Renewable Energy Park is closed (circa 2025-2027) met on many occasions throughout the year and took part in specialised sub-groups and workshops to accelerate the thinking of this initiative.

The Group is comprised of NAWMA Board representatives, Constituent Council Executive, and highly skilled independent parties that specialise

in technical/environmental, procurement, probity, social licensing and community consultation, under the leadership and facilitation of NAWMA's Chief Executive Officer, and through a Terms of Reference administered by myself as Chairperson.

The package of work has progressed considerably in this financial year, with our sights firmly set on the introduction of community discussions within the next twelve (12) months.

In terms of governance, the NAWMA Board and Audit Committee continued to provide leadership and guidance to the organisation at all opportunities, with one joint meeting held throughout the year providing opportunity for collaboration and beneficial discussion.

As always, I take this opportunity to thank a number of important stakeholders – the NAWMA Board for their continued guidance, leadership and astute decision making, our Constituent Councils (Mayors, Elected Members, Chief Executives and Administration) who provide very strong support and trust to our organisation as well as the NAWMA Audit Committee, and NAWMA Project Advisory Group for their valued work in 2021-2022.

On behalf of all the above who are involved in governing and advising NAWMA, I want to thank John Phillips for his guidance and leadership in his time as NAWMA's Acting Chief Executive Officer and wish the new Chief Executive Officer, Toby Terlet, all the success as he takes the reigns into the future.

Finally, I thank our staff for their enormous efforts this year and the application of their expertise to make the success that is NAWMA. We are fortunate to have such a quality team working with us for our Councils and communities.

I look forward to another successful year in 2022-2023 continuing to deliver our Strategic Plan outcomes and I commend to you the 2021-2022 Annual Report.

Brian Cunningham
Independent Chairperson

Report from the (Acting) Chief Executive Officer

NAWMA continues to excel, working in partnership with Constituent Councils and key waste management and recycling sector stakeholders. Working together to achieve Circular Economy outcomes through waste diversion and resource recovery, responding to changing community behaviour during a period of business disruption influenced by Covid.

The objectives of NAWMA seek to ensure our Constituent Council communities and householders are serviced through a range of contemporary recycling and resource recovery initiatives and facilities, embracing the South Australian Waste Strategy 2020-2025 waste diversion targets.

To achieve increased diversion and reduced contamination in domestic waste streams NAWMA works closely with our 120,000 households through community engagement and education, underscoring increased participation in the three-bin

system and encouraging councils to increase green bin (Food and Organics) diversion from landfill.

During the two-year Covid pandemic, NAWMA has observed a change in household waste and recyclables mix, due to more time working from home. This change in consumer habits and more online shopping, saw increased plastics and cardboard, as well as the maxing out of hard waste collections during this 2021-2022 reporting period.

The NAWMA Board, Audit Committee, Management

NAWMA's Education & Community Engagement saw an increase in green bin usage by residents.

Report from the **(Acting)** Chief Executive Officer

L In the year 2021-2022 NAWMA facilitated over 30,000 bins delivered to residents (new and repaired).

Leadership Team and Staff have punched well above their weight during the year, responding to Covid related issues including, managing down time on a day-to-day basis, maintaining MRF operating at full throughput, ensuring transport operations availability, responding to hundreds of Customer Service Centre calls a day, and navigating increasing fuel, energy and asset management costs.

NAWMA recycling contractual arrangements support 26+ councils across rural and regional South Australia, and we collaborate closely with such authorities to maximize resource recovery and reduce the impact of the State Solid Waste Levy.

A significant cost to regional councils is borne through transport fees, waste levy, further impacted due to limited resources and scale of economy. NAWMA demonstrates significant value add collaborating with these organizations and contributing support to the overall South Australian transition to Circular Economy.

Key highlights of the 2021-2022 reporting period include:

- Planning for future growth as the Northern Region heads towards an additional 10,000 houses and estimated 130,000 population increase by 2035
- Responding to an average 320 calls per day

via the NAWMA Customer Service centre we implemented the new cloud-based phone system and NAWMA “Online chat” function which has been very positively received

- Over 30,000 bins delivered (new and repaired)
- Recovering over 13,000 tonnes of glass fines improving the quality of paper exports and supporting council and industry procurement and re-manufacturing opportunities
- Providing over 40,000 hard waste services across NAWMA’s three Constituent Councils

John Phillips
(Acting) Chief Executive
Officer

- Recovering 36,000 tonnes of food and organic material (FOGO) processed into quality compost products.

NAWMA

Governance

NAWMA is administered by a Board in accordance with the requirements of the *Local Government Act (1999)*, the **NAWMA Charter and various other policies. The Board is responsible for the overall governance, management and strategic direction of the Authority.**

The Board meets five (5) to six (6) times each financial year, and drives organisational performance to deliver efficient, best practice services and facilities to our Constituent Councils.

As defined by the NAWMA Charter, the membership of the Board comprises of ten (10) Directors - three Directors appointed by each of the Constituent Councils, and one independent person appointed by the Board who acts as Chair.

The Board appoints a Chief Executive Officer who is responsible for implementing the decisions made by the Board and the day-to-day operations of the Authority.

The Board held nine (9) formal meetings over the 2021-2022 financial year, in addition to several other matters being resolved by Circular Resolutions out of Session. The table below details Board Member attendance at the nine meetings.

NAWMA

Governance

Audit

In accordance with the requirements of the Local Government Act (1999), NAWMA has an established Audit Committee.

The functions of the Committee include:

- monitoring the integrity of NAWMA's financial statements, including its annual report, reviewing significant financial reporting issues and judgements within;
- reviewing the adequacy of NAWMA's accounting, internal auditing, reporting and other financial management systems and practices on a regular basis; and
- reviewing and providing recommendations to NAWMA on the sustainability of its financial performance and proposals with respect to debt levels included in the strategic management plans and, in particular, the long-term financial plan.

Constituent Council Chief Executive Officer Roundtable

NAWMA's Independent Chairman held a number of formal meetings of the Constituent Council CEOs to discuss strategic matters and facilitate collaboration in service delivery during 2021/2022.

The roundtable meetings are assisted by the NAWMA Chief Executive Officer as a subject matter expert.

Project Advisory Group

NAWMA's Project Advisory Group was established to accelerate due diligence into options for the disposal/processing of household non-recyclable waste once Uleybury Landfill is closed.

The Project Advisory Group worked under a Board Endorsed Terms of Reference Chaired by NAWMA's Independent Chairperson and led by NAWMA's Chief Executive Officer.

The Group met formally on two (2) occasions, with many more meetings occurring in sub-group disciplines of technical, environmental, legal, financial and social nature.

The membership of the Audit Committee consists of six (6) members, three (3) members who are independent members (including the Chair), two (2) members who are NAWMA Board Directors, and the NAWMA Board Chair as an Ex-Officio member.

The Audit Committee held five (5) formal meetings over the 2021-2022 financial year, in addition to several other matters being resolved by Circular Resolutions out of Audit Meeting frequency.

The following table details Audit Committee Member attendance at these meetings:

Mr Mark Labaz
Independent Chair
5 of 5 meetings

Ms Claudia Goldsmith
Deputy Chair
Independent Member
4 of 5 meetings

Mr Craig Johnson
Independent Member
4 of 5 meetings

Mr Charles Mansueto
Board Director
5 of 5 meetings

Cr Graham Reynolds
Board Director
4 of 5 meetings

Mr Brian Cunningham
Ex-Officio Member
5 of 5 meetings

The Audited Financial Statements for the year ended 30 June 2022 are provided from page 21.

Resource Recovery

Resource Recovery Centres

NAWMA operates two (2) Resource Recovery Centres (RRCs) within the northern community, which are open to the public and small commercial contractors seven (7) days a week.

The Edinburgh North Resource Recovery Centre is located on Bellchambers Road, Edinburgh North and houses:

- A drive-through undercover Resource Recovery Centre for materials recovery,
- A Salvage and Save retail outlet operated by MOBO, a not-for-profit disability employment business, and;
- A recycling service for Container Deposit Returns operated by Scouts SA.

The Pooraka Resource Recovery Centre is located on Research Road, Pooraka and operates a drive-through Resource Recovery Centre for materials recovery. The site will see the commencement of a significant upgrade in the 2022/2023 financial year, coordinated by NAWMA in conjunction with site owner City of Salisbury. The upgrade will ensure the site is operating as safely as possible and complies with all regulatory requirements.

Working in conjunction with Green Industries South Australia (GISA), the Edinburgh North Resource Recovery Centre houses a household chemical and paint drop-off area which is open to all South Australian residents.

The free service increases options for disposal of household volumes of materials such as batteries, poisons, pesticides and paint, and operates seven days a week out of this Resource Recovery Centre.

2021-2022 RRC statistics:

- Customers - 114,291
- Pooraka waste tonnes diverted to alternative fuels - 11,184
- Edinburgh North RRC waste tonnes diverted to alternative fuels - 4,531
- Mattress units Pooraka - 4,061
- Mattress units Edinburgh North - 8,244
- Tyre units Pooraka - 2,766
- Tyre units Edinburgh North RRC - 2,105
- Paint tonnes - 63

67,000

tonnes of recyclables

Provides more than

40,000

hard-waste services

Resource Recovery Material Recovery Facility (MRF)

South Australia's first Local Government owned and operated Material Recovery Facility (MRF) was commissioned in 2017 to process yellow-lid kerbside bin recyclables from residents in NAWMA's Constituent Council areas.

While the plant continues to process these tonnes, it now also receives material from 26 metropolitan and regional South Australian Councils – more than half of South Australian households geographically!

Our best practice facility sorted more than 67,000 tonnes of kerbside recyclables during the 2021-2022 financial year, producing high quality finished goods such as paper, plastics, glass, aluminium, and steel.

We are extremely proud that our MRF operation provides employment to more than fifty (50) local employees and creates a revenue stream to offset some of the costs associated with collecting and sorting to our Constituent Councils.

A highlight for NAWMA and its Constituent Councils is the ongoing pursuit of excellence in the industry.

Through the obtainment of Federal and State Government funding, we are planning to build an advanced Fibre Polishing Plant at our Edinburgh

facility, which once established will allow NAWMA to maximise the value of recovered paper and cardboard from yellow-lid kerbside recycling bins. The creation of further jobs and the ability to meet new quality benchmarks for recycled paper and cardboard products is something NAWMA is very excited about.

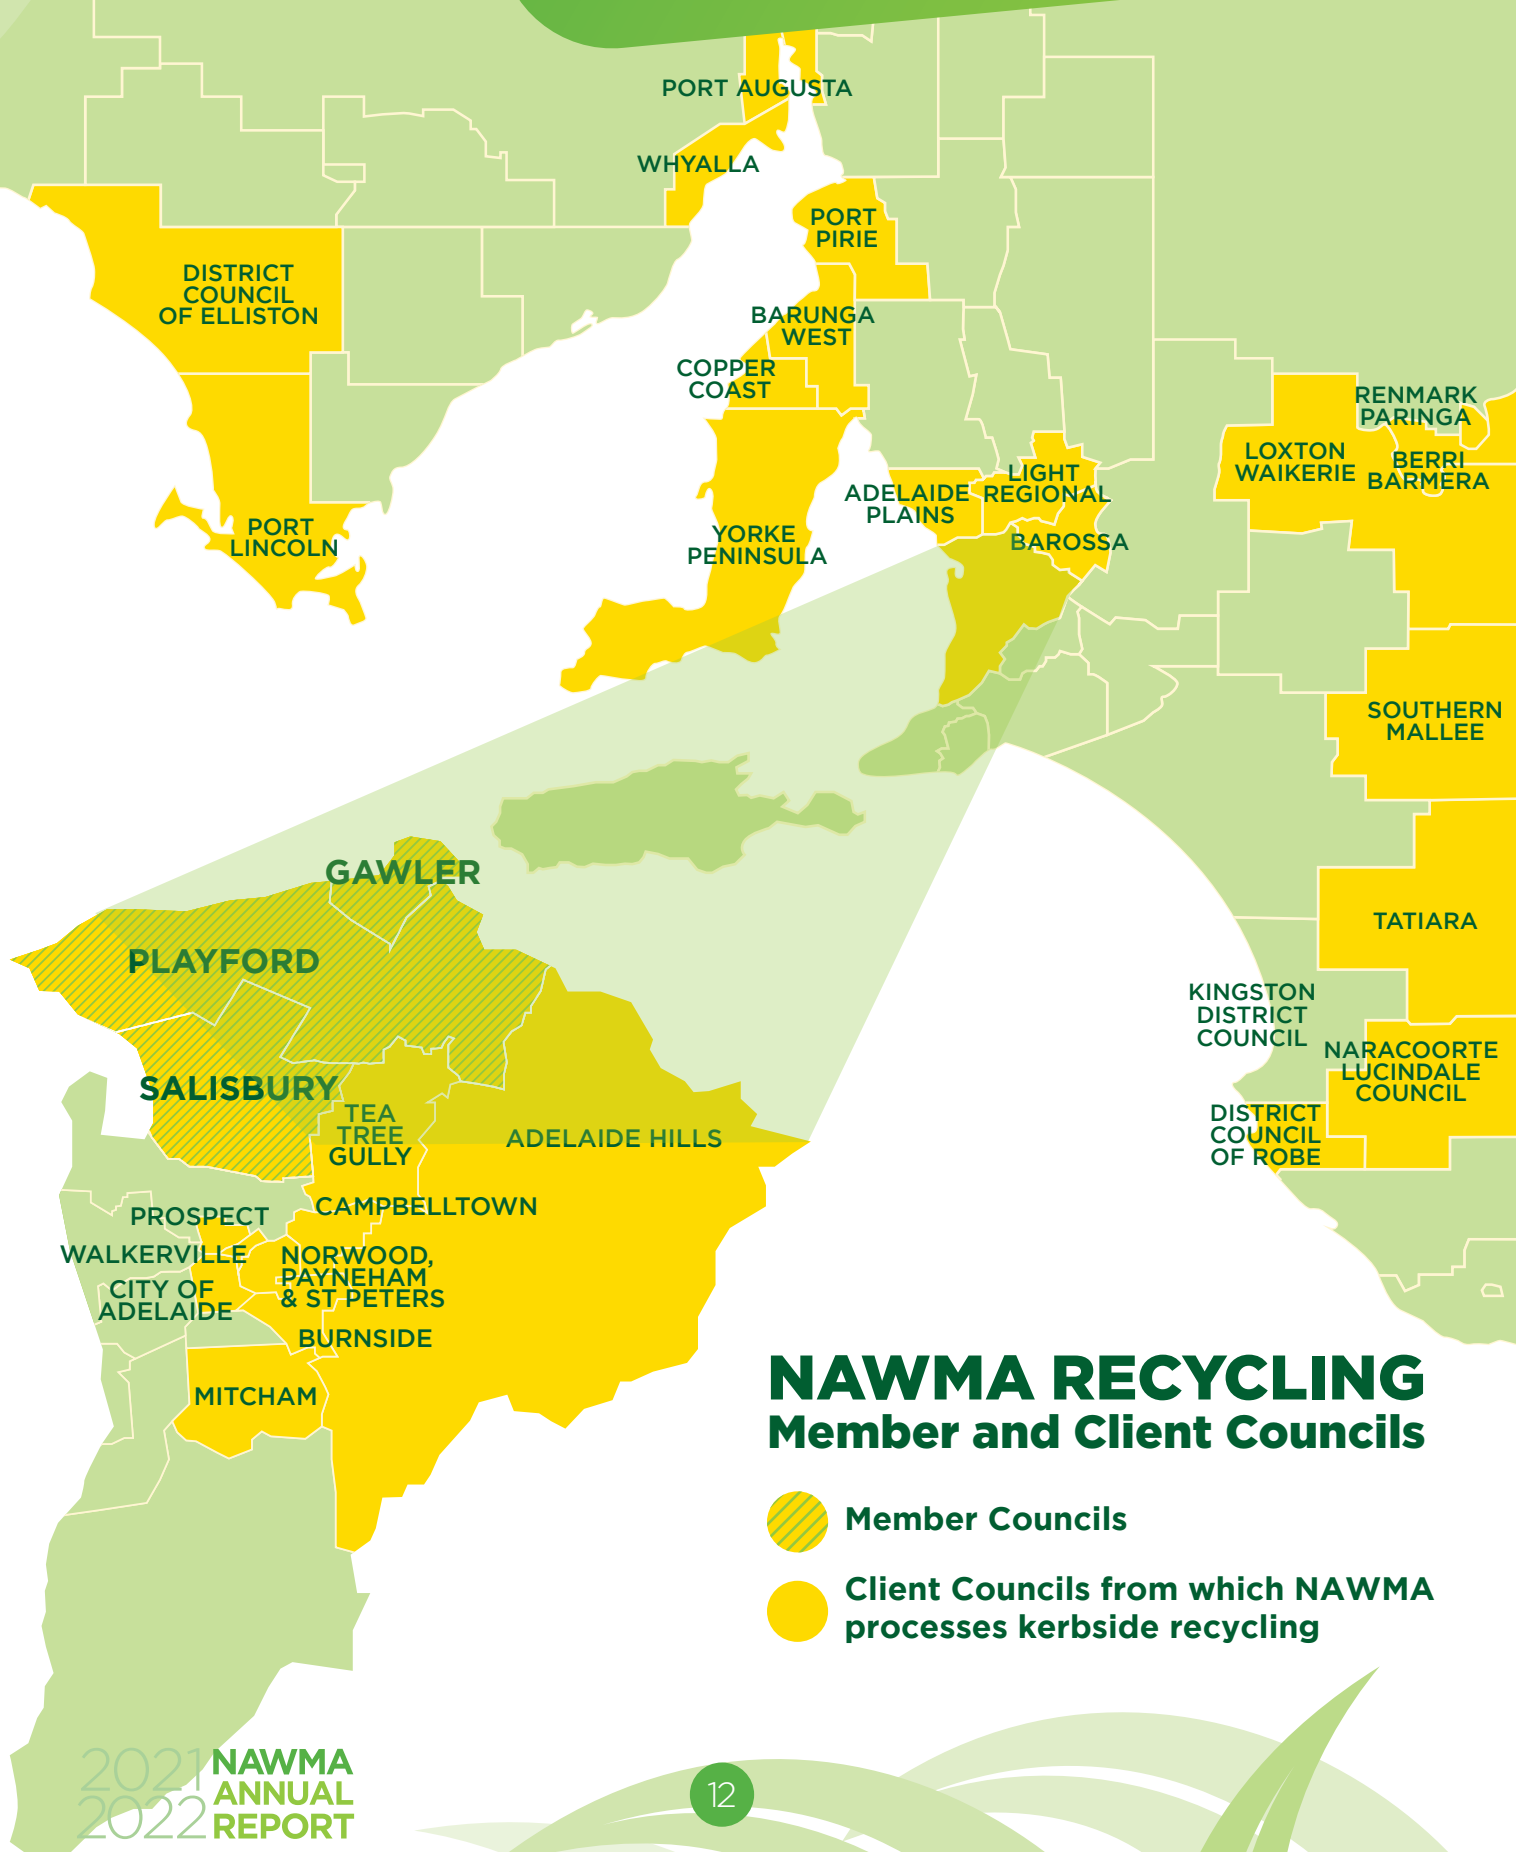

2021-2022 MRF statistics:

- Servicing 26+ Local Government Councils
- 18,000 waste tonnes diverted to alternative fuels
- 13,000 tonnes of glass fines diverted from landfill and used as a sand substitute
- 32,000 tonnes of paper and cardboard recovered and processed back into packaging products.
- 1,500 plus tonnes of steel and aluminium recovered and recycled
- 2,100 plus tonnes of plastic containers and bottles recovered and recycled

NAWMA's MRF operation provides employment to more than fifty (50) local people.

NAWMA Services Map

Resource Recovery

Food and Garden Organics

NAWMA's Food and Garden Organics (FOGO) collection is an opt-in service for the residents of our three Constituent Councils. Kerbside collected organic material is transported to our Edinburgh North facility by Veolia (NAWMA's kerbside collection contractor) using side-loader vehicles that are specifically designed for the kerbside collection of bins.

The material is stored short-term at this location before being bulk hauled by sealed vehicles to one of Peats Soils & Garden Supplies' Facilities.

The material is processed by Peats into mulch and compost products. Many of these products are used in large-scale operations such as vineyards and market gardens.

A highlight for the service was the removal of the price point for kerbside FOGO bins within the City

of Salisbury so that all residents of that council can access the service free of charge. The new service has been launched and will be supported by an ongoing education campaign.

2021-2022 FOGO statistics:

- Peats Processed 27,729 tonnes of kerbside collected material
- 8,246 tonnes were collected via our RRCs and processed by Peats

Peats Composting Windrow Turner turns FOGO items into high performance organic soil conditioner.

Did You Know?

- Free hard waste drop-off or collection services are available for residents of Salisbury, Playford and Gawler councils.
- Free trailer hire is available for residents of Salisbury, Playford and Gawler councils to use in conjunction with a hard waste drop-off service.
- A wide variety of items that can't be recycled via the yellow-lid recycling bin can be recycled at NAWMA's two Resource Recovery Centres, for example: liquid paint, x-rays, rigid polystyrene, used cooking oil and electronic waste.
- NAWMA offers residents, and people working with residents, from its constituent councils, free tours of its operational sites and Circular Economy Education Centre.

- In 2018, NAWMA's Material Recovery Facility (MRF) won a Local Government Professionals Australia award for 'Excellence in Environmental Leadership and Sustainability'.
- A 100kW solar system is installed on the roof of the Material Recovery Facility in Edinburgh.
- After receiving Green Industries SA grant funding, NAWMA introduced a paper and plastics detecting robot and a Glass Fines Recovery Plant into its MRF to increase recovery of recyclables.
- Residents can request a range of services including bin repairs online via NAWMA's website.

- NAWMA's Edinburgh North Resource Recovery Centre hosts a Community Chemical & Paint Drop-off facility where residents can dispose of hazardous household items for free, seven days a week.
- NAWMA's Uleybury Balefill and Renewable Energy Park won the Landfill Excellence category of the 2019 Australian Landfill and Transfer Stations Awards.
- Food waste is accepted in the green-lid Food Organics and Garden Organics bin (FOGO), which is then composted along with garden waste.
- NAWMA's two Resource Recovery Centres are open every day of the year with the exception of New Year's Day, Good Friday, ANZAC Day and Christmas Day.

Uleybury Balefill (Landfill) and Renewable Energy Park

NAWMA's Uleybury Balefill and Renewable Energy Park is the first combined solar – landfill gas farm of its type in Australia and continues to generate power for the local community.

The power is generated using over 11,000 solar panels and gas extracted from 18 vertical wells and a network of horizontal wells in the active cell area. NAWMA, with its South Australian partner Joule Energy, has committed to turning a once untapped waste product into a resource.

During 2021 -2022, 56,649 tonnes of material were deposited at the Uleybury Balefill. Placement of bales in the final cell (Cell 3) started in 2016 with revegetation of the site (Cells 1 and 2) well underway. As part of the closure plan for the Uleybury site, works will commence for a northern rock batter fill and landfill cap as Cell 3 is being completed.

Life for NAWMA's waste stream after the closure of the site is currently being investigated, with several

options being subject to thorough due diligence and discussions with the Board and Constituent Councils.

The Balefill Management Consultative Committee (BMCC), chaired during the year by Cr Paul Little (Town of Gawler), continues to meet as necessary. The committee provides nearby residents, councils, the Environment Protection Authority and NAWMA the opportunity to discuss topics relating to the Uleybury site and its operations, with meeting minutes and supporting documents distributed to nearby residents and City of Playford.

2021-2022 Uleybury Balefill statistics:

- Solar – 1,390,072 Kilowatt hours exported
- Gas – 7,970,304 Kilowatt hours exported
- 9,360,376 kWh accumulated power generation

NAWMA's combined renewable energy facility generates over 9,000 MWh of electricity per year.

Resource Recovery

Hard Waste Service

NAWMA continued to provide and operate a hard waste service for all three Constituent Councils during the 2021-2022 financial year. NAWMA was very proud that it successfully delivered this high-quality service uninterrupted during the global pandemic.

The service proved very popular with it being accessed just over 40,000 times across the three Constituent Councils. This is a slight increase from the previous financial year, sustaining the high pandemic numbers and servicing the growth of housing across NAWMA's three constituent councils.

The at-call collection service provides a reduction in wait time and allows residents to have their hard waste collected at a time convenient to their needs. NAWMA has added a reminder SMS feature for the HW collection service to remind residents of their impending collection, which has significantly reduced the number of times residents fail to present their items for collection.

The service level for collections is complemented by a drop-off system for hard waste presented to either

of NAWMA's Resource Recovery Centres. The drop-off system is a real-time system that allows residents to be sent a unique voucher number while on their mobile to the NAWMA Customer Service Team member. Almost 14,150 vouchers were redeemed in 2021- 2022, gaining momentum as a choice of convenience and an increase of 9% on the previous financial year.

NAWMA also offers a free trailer-hire service for residents of its three constituent councils who have hard waste items to recycle, but no access to their own trailer.

Residents can borrow a 6x4 caged trailer from either of NAWMA's two Resource Recovery Centres to transport hard waste as part of their drop-off service.

Residents of NAWMA's three Constituent Councils can access the free hard waste voucher system any day of the week.

Education and **Community Engagement**

NAWMA's Education team regularly conduct waste reduction and recycling activities across the three Constituent Councils.

NAWMA's community education and engagement activities started to return to normal as the impacts of COVID-19 lessened during the 2021-2022 financial year.

We were able to increase our presence in the community through the engagement of another part-time team member. In addition to group presentations and attending displays in public locations, we were able to partner with a variety of organisations to co-deliver a series of Zero Waste workshops. These included the themes of Zero Waste Christmas and Avoiding Food Waste.

We also had several information stalls at community events across our Constituent Council areas including the Town of Gawler STEMmania and City of Salisbury Fringe.

Building on Phase 1 of the Resident Engagement Strategy, we commenced Phase 2 and introduced

bin tagging to increase our interactions with residents of 450 households in the three target areas. A kerbside bin audit was carried out across the NAWMA region in November 2021.

Around nine hundred bins were audited, and separate data was obtained for houses with and without a FOGO service. Results from the audit will help to inform future services and educational programs.

Formal professional development sessions were held for school teacher groups. The sessions included a contextualised presentation in the Circular Economy themed NAWMA Education Centre, tour of the MRF and guided site visits to NAWMA's Edinburgh

Education and Community Engagement

North Resource Recovery Centre, Green Organics processing area, Waste Processing Facility and Uleybury Landfill.

Staff from different work teams of NAWMA's three Constituent Councils were also welcomed at the Education Centre where they combined a MRF tour with an information session to understand NAWMA's role as a subsidiary of the Constituent Councils and services provided. We were also happy to be able to resume our popular community tours for people who work or reside within the NAWMA region.

We increased usage of marketing opportunities within the community including at bus shelters and the City of Salisbury Gateway Tower digital signage.

Our following on social media continued to grow with the NAWMA Education Centre Facebook page recording a 79% increase in page visits from last financial year. Other digital platforms including the NAWMA website, My Local Services app, direct email mailout (biannual NAWMA News) and LinkedIn, continued to assist with providing messaging to the community.

NAWMA's Customer Service

The NAWMA Customer Service team experienced a busy year during the 2021-2022 financial year. Whilst navigating through the pandemic and its impacts, our team focused on improving technological resources to enhance the service provided to residents and Constituent Councils. A permanent part-time position joined the team, bringing the department to a total 4.5 FTE.

After much planning, comparison and deliberation, a new cloud-based phone platform was introduced in November 2021. The platform not only enhanced call quality but enabled us to drill down into the nature of enquiries from residents. This provides opportunity to strategically focus on the ways in which we can provide a more effective, efficient and fit-for-purpose service to our constituents. The system also assists us in developing call monitoring for training and development, queue call back and an automated after call survey. The survey question will be developed to align with a particular point of interest or issue and will be changed quarterly to allow NAWMA to gain further insight into the behaviours of residents.

The webchat feature trialled in 2021 was made a permanent feature in mid-2022. The service, available through the NAWMA website, provides a further point of contact between the Customer

Service team and NAWMA's residents and has proven popular for those who may be time poor or have a simple request for information. Our Customer Service team are utilising the webchat to guide residents to the information they require efficiently and effectively. To date, we have participated in over 600 individual chats with the community and see this channel of communication continuing to gain momentum as the service is more widely promoted through social media and word of mouth.

The Customer Service teams goal is to be available through as many communication channels as possible to provide residents with best practice service through the channel most suitable to their needs. NAWMA's platforms will continue to develop and be a focus of the 2022-2023 financial year. Concentration on reviewing, and developing these will make certain that our Customer Service remains inclusive and effective.

Total Customer Service Calls 2021-2022

The introduction of the new webchat function has shown a decrease in calls to NAWMA's Customer Service team, demonstrating the effectiveness and usefulness of webchat.

NORTHERN ADELAIDE WASTE MANAGEMENT AUTHORITY

Annual Financial Statements
Financial year ended 30 June 2022

Certification of Financial Statements

I have been authorised by Northern Adelaide Waste Management Authority to certify the financial statements in their final form. In our opinion:

- the accompanying financial statements comply with the *Local Government Act 1999, Local Government (Financial Management) Regulations 2011 and Australian Accounting Standards*.
- the financial statements present a true and fair view of the Authority's financial position at 30 June 2022 and the results of its operations and cash flows for the financial year.
- internal controls implemented by the Authority provide a reasonable assurance that the Authority's financial records are complete, accurate and reliable and were effective throughout the financial year.
- the financial statements accurately reflect the Authority's accounting and other records.

Toby Terlet
Chief Executive Officer

Brian Cunningham
Chairperson

NOTES TO AND FORMING PART OF THE FINANCIAL STATEMENTS for the year ended 30 June 2022

Note 1 - SIGNIFICANT ACCOUNTING POLICIES

The principal accounting policies adopted in the preparation of the financial report are set out below. These policies have been consistently applied to all the years presented, unless otherwise stated.

1 Basis of Preparation

1.1 Compliance with Australian equivalents to International Financial Reporting Standards

This general purpose financial report has been prepared in accordance with Australian Accounting Standards as they apply to not-for-profit entities, other authoritative pronouncements of the Australian Accounting Standards Board, Interpretations and relevant South Australian legislation.

The financial report was authorised for issue by certificate under regulation 14 of the *Local Government (Financial Management) Regulations 2011*.

The Authority is a Local Government Authority Section 43 Regional Subsidiary under the control of City of Salisbury, City of Playford and the Town of Gawler.

1.2 Historical Cost Convention

Except where stated below, these financial statements have been prepared in accordance with the historical cost convention.

1.3 Critical Accounting Estimates

The preparation of financial statements in conformity with Australian Accounting Standards which requires the use of certain critical accounting estimates, and requires management to exercise its judgement in applying the Authority's accounting policies.

The areas involving a higher degree of judgement or complexity, or areas where assumptions and estimates are significant to the financial statements are specifically referred to in the relevant sections of this Note.

1.4 Rounding

All amounts in the financial statements have been rounded to the nearest thousand dollar (\$'000).

2 The Local Government Reporting Entity

Northern Adelaide Waste Management Authority operates as a regional subsidiary pursuant to Section 43 of the SA *Local Government Act 1999* and Section 25 of the Local Government Implementation Act, and has its principal place of business at 71-75 Woomera Avenue, Edinburgh Park SA 5111.

These financial statements have been prepared for use by the Constituent Councils of the Authority.

3 Income Recognition

Income is measured at the fair value of the consideration received or receivable. Income is recognised when the Authority obtains control over the assets comprising the income, or when the amount due constitutes an enforceable debt, whichever first occurs.

4 Cash, Cash Equivalents and other Financial Instruments

Cash Assets include all amounts readily convertible to cash on hand at the Authority's option with an insignificant risk of changes in value with a maturity of three months or less from the date of acquisition.

Receivables are generally unsecured and do not bear interest.

All receivables are reviewed as at the reporting date and adequate allowance made for amounts the receipt of which is considered doubtful.

All financial instruments are recognised at fair value at the date of recognition. A detailed statement of the accounting policies applied to financial instruments forms part of Note 8.

NOTES TO AND FORMING PART OF THE FINANCIAL STATEMENTS
for the year ended 30 June 2022

Note 1 - SIGNIFICANT ACCOUNTING POLICIES (cont)

5 Infrastructure, Property, Plant & Equipment

All non-current assets purchased or constructed are capitalised as the expenditure is incurred and depreciated as soon as the asset is held "ready for use".

5.1 Initial Recognition

All assets are initially recognised at cost. Cost is determined as the fair value of the assets given as consideration plus costs incidental to the acquisition, including architects' fees and engineering design fees and all other costs incurred. For assets acquired at no cost or for nominal consideration, cost is determined as fair value at the date of acquisition.

The cost of non-current assets constructed by the Authority includes the cost of all materials used in construction, direct labour on the project and an appropriate proportion of variable and fixed overhead. Capital works still in progress at balance date are recognised as other non-current assets and transferred to infrastructure, property, plant & equipment when completed ready for use.

5.2 Materiality

Assets with an economic life in excess of one year are only capitalised where the cost of acquisition exceeds materiality thresholds established by the Authority for each type of asset. In determining (and in annually reviewing) such thresholds, regard is had to the nature of the asset and its estimated service life. No capitalisation threshold is applied to the acquisition of land or interests in land. The capitalisation threshold applied across all asset classes is \$5,000. Any purchases greater than this amount are capitalised and depreciated on the Authority's asset register.

5.3 Subsequent Recognition

Certain asset classes are revalued on a regular basis such that the carrying values are not materially different from fair value. For infrastructure and other asset classes where no active market exists, fair value is determined to be the current replacement cost of an asset less, where applicable, accumulated depreciation calculated on the basis of such cost to reflect the already consumed or expired future economic benefits of the asset.

5.4 Depreciation of Non-Current Assets

Other than land, all infrastructure, property, plant and equipment assets recognised are systematically depreciated over their useful lives in a manner which reflects the consumption of the service potential embodied in those assets.

Depreciation is recognised on a straight-line basis. Major depreciation periods for each class of asset are shown below. Depreciation periods for infrastructure assets have been estimated based on the best information available to the Authority, but appropriate records covering the entire life cycle of these assets are not available, and extreme care should be used in interpreting financial information based on these estimates.

Plant, Furniture & Equipment	5 to 10 years
Buildings	30 years
Waste Facility	10 to 20 years
Landfill Construction	Amortised proportionately to rate of filling
Landfill Capping & Rehabilitation	Amortised proportionately to rate of filling

5.5 Land Assets

As at 30 June 2018, an independent valuation was undertaken on all Land and Building assets held by the Authority. The independent valuation was undertaken by AssetVal Pty Ltd and valued land and building assets to the current market value. Given the material value of Land and Building assets subsequent to the valuation performed, Land and Building assets are shown as a separate class of asset and disclosed accordingly in Note 5.

NOTES TO AND FORMING PART OF THE FINANCIAL STATEMENTS for the year ended 30 June 2022

Note 1 - SIGNIFICANT ACCOUNTING POLICIES (cont)

5.6 Impairment

Assets that have an indefinite useful life are not subject to depreciation and are reviewed annually for impairment. Assets that are subject to depreciation are reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. An impairment loss is recognised for the amount by which the asset's carrying amount exceeds its recoverable amount (which is the higher of the present value of future cash outflows or value in use).

For assets whose future economic benefits are not dependent on the ability to generate cash flows, and where the future economic benefits would be replaced if the Authority were deprived thereof, the value in use is the depreciated replacement cost. In assessing impairment for these assets, a rebuttable assumption is made that the current replacement cost exceeds the original cost of acquisition.

6 Payables

6.1 Goods & Services

Creditors are amounts due to external parties for the supply of goods and services and are recognised as liabilities when the goods and services are received. Creditors are normally paid 30 days after the month of invoice. No interest is payable on these amounts.

7 Employee Benefits

7.1 Salaries, Wages & Compensated Absences

Liabilities for employees' entitlements to salaries, wages and compensated absences expected to be paid or settled within 12 months of reporting date are accrued at nominal amounts (including payroll based oncosts) measured in accordance with AASB 119.

Liabilities for employee benefits not expected to be paid or settled within 12 months are measured as the present value of the estimated future cash outflows (including payroll based oncosts) to be made in respect of services provided by employees up to the reporting date. Present values are calculated using government guaranteed securities rates with similar maturity terms.

No accrual is made for sick leave as the Authority's experience indicates that, on average, sick leave taken in each reporting period is less than the entitlement accruing in that period, and this experience is expected to recur in future reporting periods. The Authority does not make payment for untaken sick leave.

7.2 Superannuation

The Authority makes employer superannuation contributions in respect of its employees to Hostplus (formerly Statewide Super). The Scheme has two types of membership, each of which is funded differently.

Accumulation Fund Members

Accumulation fund members receive both employer and employee contributions on a progressive basis. Employer contributions are normally based on a fixed percentage of employee earnings in accordance with Superannuation Guarantee Legislation (10% in 2021/22; 9.5% in 2020/21). No further liability accrues to the employer as the superannuation benefits accruing to employees are represented by their share of the net assets of the Fund.

Contributions to Other Superannuation Schemes

The Authority also makes contributions to other superannuation schemes selected by employees under the 'choice of fund' legislation. All such schemes are of the accumulation type, where the superannuation benefits accruing to the employee are represented by their share of the new assets of the scheme, and no further liability attaches to the Authority.

NOTES TO AND FORMING PART OF THE FINANCIAL STATEMENTS
for the year ended 30 June 2022

Note 1 - SIGNIFICANT ACCOUNTING POLICIES (cont)

8 Rehabilitation

Expenditures relating to ongoing rehabilitation and restoration reduce any provision previously established.

Landfill Remediation

The Authority annually monitors the liability recorded for landfill rehabilitation and restoration estimates and make adjustments to the liability as required to ensure an accurate projected cost of the liability is showing in the balance sheet. An independent assessment of the Authority's landfill capping and post closure rehabilitation obligations was undertaken by Golder Associates Pty Ltd as at 30 June 2022.

The obligation to recognise a landfill remediation liability commences when the landfill cell is developed. Provisions are stated at the present value of the expected future cash outflows to occur. The Authority has an obligation to cap each cell upon the airspace of the cell being fully consumed as well as an ongoing post-closure monitoring and remediation of the site once it is closed for a period determined by the Environment Protection Authority (EPA) and other government environmental requirements.

Industrial Property Remediation

The Authority leases industrial property which under lease agreement held, requires that the Authority undertakes remediation and rectification works to the site upon exit. The scope of works includes the remediation of damaged and/or worn facilities, the removal of plant and equipment from the site as well as undertake rectification of any site contamination issues.

9 Comparative Information

Comparative information has been reclassified to be consistent with the current year disclosure of equivalent information in accordance with Australian Accounting Standards. No changes have been made to comparative information in the principal financial statements nor has not been amended for any changes to accounting standards.

10 Critical Accounting Estimates and Judgements

The Board evaluate estimates and judgements incorporated into the financial report based on historical knowledge and best available current information. Estimates assume a reasonable expectation of future events and based on current trends and economic data, obtained both externally and within the Authority.

11 New Accounting Standards

No new accounting standards were applied by the Authority during the financial year. The Authority has not elected to early adopt any new accounting standards, interpretations or amendments which are not yet effective.

12 Stock on Hand

The Authority records stock on hand as at reporting date to reflect the value of stockpiled recycled finished goods held. The value attributed to stock items is based on the expected sale price of goods held based on existing contract rates held with customers and/or public market rates, whichever is applicable.

13 Related Party Transactions – Services Provided by Member Councils to the Authority

The Authority has entered into a lease agreement with the City of Salisbury to manage and operate the waste transfer station located at Pooraka. The lease with the City of Salisbury is reflected on the Balance Sheet in accordance with AASB 16. Transactions between the Authority and Member Councils where services have been provided by the Authority have been separately disclosed in Note 13.

NOTES TO AND FORMING PART OF THE FINANCIAL STATEMENTS for the year ended 30 June 2022

Note 1 - SIGNIFICANT ACCOUNTING POLICIES (cont)

14 Leases

The Authority assesses at contract inception whether a contract is, or contains, a lease. That is, if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. The Authority recognises lease liabilities to make lease payments and right-of-use assets representing the right of use of the underlying assets.

14.1 Right-of- Use Assets

The Authority recognises right-of-use assets at the commencement date of the lease. Right-of-use assets are measured at cost, less any accumulated depreciation and impairment losses, and adjusted for any remeasurement of lease liabilities. The cost of right-of-use assets includes the amount of lease liabilities recognised, initial direct costs incurred, lease payments made at or before the commencement date less any lease incentive received and the estimate of costs incurred to restore the leased asset. Right-of-use assets are depreciated on a straight-line basis over the shorter of the lease term and the estimated useful lives of assets.

14.2 Lease Liabilities

At the commencement date of the lease, the Authority recognises lease liabilities measured at the present value of lease payments to be made over the lease term. In calculating the net present value of the lease payments, the Authority uses its incremental borrowing rate or the interest rate implicit in the lease.

14.3 Short-term leases and leases of low-value assets

The Authority applies the short-term lease recognition exemption to its short-term leases of machinery and equipment (i.e., those leases that have a lease term of 12 months or less from the commencement date). It also applies the low-value assets recognition exemption to leases of office equipment that are considered to be low value. Lease payments on short-term leases and leases of low-value assets are recognised as expense on a straight-line basis over the lease term.

Note 8 - FINANCIAL INSTRUMENTS

Recognised Financial Instruments

Bank, Deposits at Call, Short Term Deposits	<p>Accounting Policy: Carried at lower of cost and net realisable value; Interest is recognised when earned.</p> <p>Terms & conditions: Deposits on Call do not have a maturity period and have an average interest rates of 0.69% - 1.05% (2021: 0.3%)..</p> <p>Carrying amount: approximates fair value due to the short term to maturity.</p>
Receivables - Gate Fees & Associated Charges	<p>Accounting Policy: Carried at nominal values less any allowance for doubtful debts. An allowance for doubtful debts is recognised (and re-assessed annually) when collection in full is no longer probable.</p> <p>Carrying amount: approximates fair value (after deduction of any allowance).</p>
Liabilities - Creditors and Accruals	<p>Accounting Policy: Liabilities are recognised for amounts to be paid in the future for goods and services received, whether or not billed to the Authority.</p> <p>Terms & conditions: Liabilities are normally settled on 30 day terms.</p> <p>Carrying amount: approximates fair value.</p>

Net Fair Value

All carrying values approximate fair value for all recognised financial instruments. There is no recognised market for the financial assets of the Authority

Risk Exposure

Credit Risk represents the loss that would be recognised if counterparties fail to perform as contracted. The maximum credit risk on financial assets of the Authority is the carrying amount, net of any provision for doubtful debts. All investments are made with the SA Local Government Finance Authority and Bank SA. There is no material exposure to any individual debtor.

Market Risk is the risk that fair values of financial assets will fluctuate as a result of changes in market prices. All of the Authority's financial assets are denominated in Australian dollars and are not traded on any market, and hence neither market risk nor currency risk apply.

Liquidity Risk is the risk that the Authority will encounter difficulty in meeting obligations with financial liabilities. In accordance with the model Treasury Policy (LGA Information Paper 15), liabilities have a range of maturity dates based on cash inflows. The Authority also has available a range of bank overdraft and short-term draw down facilities that it can access.

Interest Rate Risk is the risk that future cash flows will fluctuate because of changes in market interest rates. Most of the Authority's financial instruments are at fixed rates. Any such variations in future cash flows will not be material in effect on either the Authority's incomes or expenditures.

Later than one year and not later than 5 years		19,032	35,506
Later than 5 years		-	-
		36,160	52,297

The Authority manages multiple external contracts with external suppliers for the collection, processing and disposal of waste on behalf of its Constituent Councils and customers. The commitments disclosed above reflect a consolidation of multiple contracts entered into with external suppliers. In future years, all contracts will be required to be renewed with external suppliers in accordance with adopted procurement policies and procedures of the Authority.

Note 10 - EVENTS OCCURRING AFTER REPORTING DATE

There were no events that occurred after reporting date that requires to be disclosed.

Note 11 - CONTINGENT LIABILITIES

The Authority has a performance bond/guarantee held with the Local Government Finance Authority to the Environment Protection Authority for an amount of \$1,350,000 in accordance with the requirements under its Post Closure remediation obligations for the Uleybury Landfill site.

NOTES TO AND FORMING PART OF THE FINANCIAL STATEMENTS

	2022 \$'000	2021 \$'000
Salaries, allowances & other short term benefits	753	713
TOTAL	753	713

NOTES TO AND FORMING PART OF THE FINANCIAL STATEMENTS
for the year ended 30 June 2022

Note 13 - DISCLOSURES OF RELATED PARTY TRANSACTIONS (Cont)

Transactions with Related Parties:

Related Party Entity	Sale of Goods and Services (\$'000)	Amounts Outstanding from Related Parties (\$'000)	Description of Services Provided to Related Parties
City of Salisbury	16,800	1,363	Provision of waste collection, processing and disposal services
City of Playford	11,568	984	Provision of waste collection, processing and disposal services
Town of Gawler	2,703	405	Provision of waste collection, processing and disposal services

The Related Parties disclosed above are equity owners of the Authority and are referred to as Member Councils. Member Councils have equal representation on the Board of the Authority and accordingly have significant influence on the financial and operating decisions of the Authority. No one Member Council individually has control of those policies.

Note 14 - FAIR VALUE MEASUREMENTS

The Authority measures and recognises the following assets at fair value on a recurring basis after initial recognition:

- Land assets
- Building assets
- Stock on Hand
- Landfill Capping
- Post Closure Rehabilitation Costs
- Right-of-Use Restoration

The Authority does not subsequently measure any liabilities at fair value on a recurring basis, or any assets or liabilities at fair value on a non-recurring basis.

(a) Fair value hierarchy

AASB 13: *Fair Value Measurement* requires the disclosure of fair value information according to the relevant level in the fair value hierarchy. This hierarchy categorises fair value measurements into one of three possible levels based on the lowest level that a significant input can be categorised into. The levels are outlined below:

Level 1

Measurements based on quoted prices (unadjusted) in active markets for identical assets or liabilities that the entity can access at the measurement date.

Level 2

Measurements based on inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly or indirectly.

Level 3

Measurements based on unobservable inputs for the asset or liability.

NOTES TO AND FORMING PART OF THE FINANCIAL STATEMENTS for the year ended 30 June 2022

Note 14 - FAIR VALUE MEASUREMENTS (Cont)

The fair value of assets and liabilities that are not traded in an active market is determined using one or more valuation techniques. These valuation techniques maximise, to the extent possible, the use of observable market data. If all significant inputs required to measure fair value are observable, the asset or liability is included in Level 2.

If one or more significant inputs are not based on observable market data, the asset or liability is included in Level 3.

Valuation techniques

The Authority selects valuation techniques that are appropriate in the circumstances and for which sufficient data is available to measure fair value. The availability of sufficient and relevant data primarily depends on the specific characteristics of the asset or liability being measured.

The valuation techniques selected by the Authority are consistent with one or more of the following valuation approaches:

- **Market approach:** uses prices and other relevant information generated by market transactions involving identical or similar assets or liabilities.
- **Income approach:** converts estimated future cash flows or income and expenses into a single current (i.e. discounted) value.
- **Cost approach:** reflects the current replacement cost of an asset at its current service capacity.

Each valuation technique requires inputs that reflect the assumptions that buyers and sellers would use when pricing the asset or liability, including assumptions about risks. When selecting a valuation technique, the Authority gives priority to those techniques that maximise the use of observable inputs and minimise the use of unobservable inputs.

Inputs that are developed using market data (such as publicly available information on actual transactions) and reflect the assumptions that buyers and sellers would generally use when pricing the asset or liability are considered observable, whereas inputs for which market data are not available and therefore are developed using the best information available about such assumptions are considered unobservable.

NOTES TO AND FORMING PART OF THE FINANCIAL STATEMENTS
for the year ended 30 June 2022

Note 14 - FAIR VALUE MEASUREMENTS (Cont)

The following tables provide the fair values of the Authority's assets measured and recognised on a recurring basis after initial recognition, categorised within the fair value hierarchy.

Total financial assets recognised at fair value		27	5,061	5,273	10,361

(b) Disclosed fair value measurements

The following table provides the level of the fair value hierarchy within which the disclosed fair value measurements are categorised in their entirety and a description of the valuation technique(s) and inputs used.

	Fair Value Hierarchy Level	Valuation Technique	Inputs Used
There has been no change in the techniques used to measure the value of items disclosed in the financial statements.	1	Market	Based on expected sale price of goods based on existing contract prices.
There has been no change in the valuation technique(s) used to calculate the fair values disclosed in the financial statements.	2	Market Value	Observable sales of similar properties – both vacant land and land with improvements.
There has been no change in the techniques used to measure the value of items disclosed in the financial statements.	3	Cost Approach	Landfill assets unobservable inputs. The measure of these costs requires significant estimates and assumptions such as: discount rate, inflation rate, assessment of EPA requirements, the timing, extent and costs of the required activities and the estimated remaining airspace of the landfill.

INDEPENDENT AUDITOR'S REPORT ON THE FINANCIAL REPORT

To the members of the Northern Adelaide Waste Management Authority (NAWMA)

Opinion

We have audited the accompanying financial report of NAWMA (the Authority), which comprises the statements of financial position as at 30 June 2022, the statement of comprehensive income, statement of changes in equity and cash flow statement for the year then ended, notes comprising a summary of significant accounting policies and other explanatory information, and the statement by the Executive Officer and the Chairperson.

In our opinion, the accompanying financial report presents fairly, in all material respects, the financial position of the Authority as at 30 June 2022, and its financial performance and its cash flow for the year then ended in accordance with the Australia Accounting Standards, *Local Government Act 1999* and *Local Government (Financial Management) Regulations 2011*.

Basis for Opinion

We conducted our audit in accordance with Australian Auditing Standards. Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Report* section of our report. We are independent of the Authority in accordance with the ethical requirements of the Accounting Professional and Ethical Standards Board's APES 110 *Code of Ethics for Professional Accountants* (the Code) that are relevant to our audit of the financial report in Australia. We have also fulfilled our ethical responsibilities in accordance with the Code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Responsibility for the Financial Report

The Authority is responsible for the preparation and fair presentation of the financial report in accordance with Australian Accounting Standards (including the Australian Accounting Interpretations), the *Local Government Act 1999* and the *Local Government (Financial Management) Regulations 2011* and for such internal control as Authority determines is necessary to enable the preparation of the financial report that is free from material misstatement, whether due to fraud or error.

In preparing the financial report, the Authority is responsible for assessing the authority's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Authority either intends to liquidate the Authority or to cease operations, or has no realistic alternative but to do so. Those charged with governance are responsible for overseeing the Authority's financial reporting process.

Auditor's Responsibility for the Audit of the Financial Report

Our objectives are to obtain reasonable assurance about whether the financial report as a whole is free from material misstatements, whether due to fraud or error, and to issue and auditor's report that includes our opinion. Reasonable assurance is a high level assurance, but is not a guarantee that an audit conducted in accordance with Australian Auditing Standards will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decision of users taken on the basis of this financial report.

Northern Adelaide Waste Management Authority

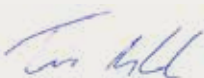

Financial Statements 2021-2022

As part of an audit of the financial report in accordance with Australian Auditing Standards, we exercise professional judgement and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risk of material misstatement of the financial report, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentation, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit of the financial report in order to design procedures that are appropriate in the circumstances, but for the purpose of expressing an opinion on the effectiveness of the Authority's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of Authority's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Authority's ability to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial report, including the disclosures, and whether the financial report represents the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

INDEPENDENT AUDITOR'S REPORT ON THE INTERNAL CONTROLS

To the members of the Northern Adelaide Waste Management Authority (NAWMA)

Independent Assurance Report on the Internal Controls of NAWMA

Opinion

We have audited the compliance of NAWMA (the Authority) with the requirements of Section 125 of the *Local Government Act 1999* in relation only to the internal controls established by the Authority to ensure that financial transactions relating to the receipt, expenditure and investment of money, acquisition and disposal of property and incurring of liabilities for the period 1 July 2021 to 30 June 2022 have been conducted properly and in accordance with the law.

In our opinion, the Authority has complied, in all material respects, with Section 125 of the *Local Government Act 1999* in relation to internal controls established by the Authority in relation to the receipt, expenditure and investment of money, acquisition and disposal of property and incurring of liabilities so as to provide reasonable assurance that the financial transactions of the Authority have been conducted properly and in accordance with law for the period 1 July 2021 to 30 June 2022.

Basis for Opinion

We conducted our engagement in accordance with applicable Australian Standards on Assurance Engagement ASAE 3000 *Assurance Engagements Other than Audits or Reviews of Historical Financial Information* and ASAE 3150 *Assurance Engagement on Controls*, issued by the Australian Auditing and Assurance Standards Board, in order to state whether, in all material respects, the Authority has complied with Section 125 of the *Local Government Act 1999* in relation only to the internal controls specified above for the period 1 July 2021 to 30 June 2022. ASAE 3000 also requires us to comply with the relevant ethical requirements of the Australian professional accounting bodies.

We believe that the evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Responsibility for Internal Controls

The Authority is responsible for implementing and maintaining an adequate system of internal controls, in accordance with Section 125 of the *Local Government Act 1999* to ensure that the receipt, expenditure and investment of money, acquisition and disposal of property and incurring of liabilities have been conducted properly and in accordance with law.

Our Independence and Quality Control

We have complied with the independence and other relevant ethical requirements relating to assurance engagements, and applied Auditing Standard ASQC 1 *Quality Control for Firms that Performs Audits and Reviews of Financial Reports and Other Financial Information, and Other Assurance Engagements* in undertaking this assurance engagement.

Auditor's responsibility

Our responsibility is to express an opinion on the Authority's compliance with Section 125 of the *Local Government Act 1999* in relation only to the internal controls established by the Authority to ensure that financial transactions relating to receipt, expenditure and investment of money, acquisition and disposal of property and incurring of liabilities have been conducted properly and in accordance with law, based on our procedures.

Northern Adelaide Waste Management Authority

Financial Statements 2021-2022

Our engagement has been conducted in accordance with applicable Australian Standards on Assurance Engagements ASAE 3000 *Assurance Engagements Other than Audits or Reviews of Historical Information* and ASAE 3150 *Assurance Engagements on Controls*, issued by the Australian Auditing and Assurance Standards Board, in order to state whether, in all material respects, the Authority has complied with Section 125 of the *Local Government Act 1999* in relation only to the internal controls specified above for the period 1 July 2021 to 30 June 2022. ASAE 3000 also requires us to comply with the relevant ethical requirements for the Australian professional accounting bodies.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

Limitations of controls

Because of the inherent limitations of any internal control structure it is possible that, even if the controls are suitably designed and operating effectively, the control objectives may not be achieved so that fraud, error, or non-compliance with laws and regulations may occur and not be detected.

An assurance engagement on controls is not designed to detect all instances of controls operating ineffectively as it is not performed continuously throughout the period and the tests performed are on a sample basis. Any projection of the outcome of the evaluation of controls to future periods is subject to the risk that the controls may become inadequate because of changes in conditions, or that the degree of compliance with them may deteriorate.

Limitation of use

This report has been prepared for the members of the Authority in accordance with Section 129 of the *Local Government Act 1999* in relation to the internal controls specified above. We disclaim any assumption of responsibility for any reliance on this report to any persons or users other than the members of the Authority, or for any purpose other than that for which it was prepared.
