Health in good hands

When it comes to your health and well-being, Salisbury House Medical and Dental Centre has got you covered.

The purpose built and integrated medical facility officially opened its doors in May to provide a wide range of medical services for the community of Salisbury.

Practice manager Diane Collins, with 16 years of management experience, says the state-of-theart centre enables patients to access a range of health services under one roof.

"We provide a full range of health services in a very modern and friendly environment and, with everything needed in the one location, it makes it easy and convenient for our patients," Ms Collins says.

"As we are a new centre in Salisbury, we are slowly building up our patient base and looking at the needs of our patients and we will endeavour to fulfil these needs within the centre by our many health service providers."

The centre specialises in family health, allied health, physiotherapy, podiatry, immunisations, health checks, spirometry, ECG's, wound dressings, chronic disease care plans, diabetes, asthma and much more. Within the centre, there is Abbott Pathology and an onsite pharmacy, as well as visiting specialists and an after-hours family home doctor.

There are male and female GPs who are fully qualified and hold fellowship through the Royal Australian College of General Practitioners.

"Our doctors like to take their time with their patients to develop a good doctor-patient relationship," Ms Collins says.

"General appointments with our GPs are 15 minutes long, but longer appointments can be booked for whatever is required and all are Bulk Billed."

GPs include Dr Rajnish Garg, who is an experienced clinician and is involved in teaching and mentoring of medical students and GP registrars; Dr Brijesh Arora, who has extensive experience in emergency medicine with a Diploma in Child Health and all aspects of general practice; Dr Taras Hembram, a multiskilled GP who has worked for several years in emergency departments, rural and metropolitan and holds a diploma in child health from WCH; and Dr Sudeshna De, the clinic's female GP with a special interest in emergency medicine, aged care, children's health and women's health.

Our registered and enrolled nurses have many years experience in hospital settings, as well as GP rooms. Our receptionists are fully trained and experienced in meeting the needs of patients with their appointments.

Salisbury House Medical and Dental Centre

also has body fat measurement scales. Dental Clinic will be operational in the near future.

For an appointment, phone the centre today.

Salisbury House Medical and Dental Centre, 16-20 Gawler Street, Salisbury. Open Monday to Friday, 8:30am-5:30pm, and Saturday 9am-1pm. Phone: 8250 3222.

"Complete Compassionate Care"

A new financial year is upon us – and what an exciting year it is shaping up to be!

Inside this edition is a summary of Council's 2017/18 Annual Plan, which I'm proud to say includes a major investment in infrastructure to help position Salisbury for future success. This includes \$27 million for the proposed Salisbury City Centre Community Hub, which will bring together a range of community, civic and learning services within one vibrant, adaptable and multi-functional building.

Construction is set to commence on the \$4.4 million Para Hills Community Hub (see pages 14-15), which involves works being undertaken alongside the existing Para Hills Library and Positive Ageing Centre creating a new Para Hills Community Hub. Council has also started rolling out the \$3 million Salisbury Oval Precinct Redevelopment.

Works have already begun on the \$2.4 million upgrade of pedestrian and cyclist access to the Elder Smith Road Bridge and Mawson Interchange at Mawson Lakes. The project is being funded by Council and the Department of Planning, Transport and Infrastructure.

Stage One of the Federal and State government-funded \$985 million Northern Connector project is currently underway. Local employment has been a major focus for this project with 117 people employed by the head contractor Lendlease up to the end of March 2017 with 98 positions filled through NorthHub, a one-stop, on-site jobs, education and training centre created specifically for the project.

After it was first promised almost 10 years ago, it appears the Gawler Line Electrification is finally going ahead with the State Government committing to fully fund the \$152 million electrification from Adelaide to Salisbury in the 2017/18 financial year. Major construction works are due to start in early 2018.

With Council also maintaining all existing service levels and increasing funding for programs such as verge maintenance, local flood management, street tree management and recreation facilities – Salisbury certainly is a flourishing City with opportunity for all.

LOOKING FOR LOCAL LEGENDS

WHAT makes a local a 'Legend'? Volunteering, sporting achievement, investment, innovation? The answer is all of the above! And the City of Salisbury is now calling for nominations for the 2017 Legends Awards.

The Legends Awards are designed to recognise outstanding community members that are contributing to all sectors of our City.

"There are so many individuals and groups doing great things for our community," said Mayor Gillian Aldridge.

If you know someone who enhances the lives of others in Salisbury, or there is someone you think should act as a voice for all that is great about our City, nominate them for a 2017 Legend Award.

Nominations are now open and will be received up until the close of business at 5pm on Friday 8 September.

Winners will be announced at a Mayoral Function in John Harvey Gallery in October in the categories of:

LIVING LEGEND: An individual or group improving quality of life in the City of Salisbury through learning and education, volunteering, environmental sustainability or community safety.

WORKING LEGEND: An individual or group that is enhancing the City of Salisbury by showcasing business excellence, or an individual or group improving the City of Salisbury through their business collaborations, events or innovation.

ACTIVE LEGEND: An individual or a group that has helped build pride and success in the City of Salisbury as a sportsperson, team, coach, umpire, official, artist or musician.

Nomination forms are available from the Council office, local libraries and community centres, and the City of Salisbury website at www.salisbury.sa.qov.au/legendsawards

GET INTO A NEW GAME

Registrations are about to open for the City of Salisbury's popular Growing for Gold program, which gives local young people a FREE opportunity to try a new sport or activity.

At no cost, young people aged 3-16 are able to try a diverse array of sports such as tennis, netball, martial arts, athletics, swimming, squash and much more.

Sessions are held during the September/

October school holidays and are fully supervised by club representatives. The club sessions are designed to introduce young people to a wide range of different sport and recreation opportunities, with the focus on:

- Being inclusive to all young people regardless of ability/disability, cultural background, socio-economic background
- Having fun and achieving personal success
- Finding a club

Built into the event is an incentive scheme that encourages young people to try different activities and most importantly to take the next step – joining a club of their choice.

Participants receive:

- A certificate of participation to all who register in any of the activities offered
- A Gold Certificate is awarded if a young person joins a participating club within a set period of the program ending, irrespective of the number of activities.
- The certificates incorporate a \$30 Sports
 Power voucher to assist with purchasing
 any apparel, shoes or equipment that will
 help get them started in their new sport

Registrations are now open. Please visit www.salisbury.sa.gov.au/ growingforgold for more information.

SALISBURY Bowling Club is already reaping the benefits of its new \$1.3 million undercover playing surface, which was officially opened earlier this year.

Club President Geoff Ambler said the response from the community and even members of other clubs had been "very positive". "We have received applications for membership from 14 individuals – and about half of those would be new bowlers," he said.

The development is Adelaide's first ever undercover lawn bowls surface and was named after club stalwart Colin Pfitzner. Mr Pfitzner is the Club's longest standing member having joined in 1951 and is still a member today. He is a Life Member and Past President.

The development was officially opened and named by the Hon. Member for Ramsay Zoe Bettison MP and Salisbury Mayor Gillian Aldridge respectively on Saturday 27 May. It is the first major works as part of the Salisbury Oval Precinct Redevelopment, which is Council's vision for the area as part of the ongoing Salisbury City Centre Revitalisation.

"Council approved the Salisbury Oval Precinct Masterplan earlier this year, which encourages private and public sector investment and supports the community's future recreation and sporting needs," Mayor Aldridge said. "Following the Bowling Club's recent investment, Council will be upgrading the nearby football/cricket oval grandstand, CCTV network, fencing, stormwater and road infrastructure. Options are also being considered for the future construction of a new indoor training facility subject to future external funding opportunities."

Salisbury Bowling Club – located on Orange Avenue – has made the new facility available for social and night bowls, which commenced in July, and it is also available for hire for private and community events. The Club's Orange Bowl Café is open Wednesday to Saturday, with family meals served every Thursday night. "This is not just for the bowling fraternity," Mr Ambler said. "This facility will attract the social bowler, families, social clubs, local companies and those who wish to experience the game of bowls. This is not just a sporting facility, but a whole new arena available to the Salisbury community for events and functions."

The project was supported by the State Government through a \$200,000 grant under the Community Recreation and Sports Facility program.

DOG AND CAT LAWS ARE CHANGING

NEW laws for cat and dog owners and breeders are being introduced in South Australia.

These changes are designed to improve dog and cat management and welfare and are the result of years of planning and public consultation by the Dog and Cat Management Board and the State Government. Below is a summary of the changes that all dog and cat owners should be aware of.

COMPULSORY DESEXING

From 1 July 2018 all new generations of dogs and cats (born after 1 July 2018) must be desexed by a certain age (unless exempted under the Act or if it is an existing dog born before 1 July 2018).

COMPULSORY MICROCHIPPING

From 1 July 2018, it will be compulsory for all dogs and cats to be microchipped. This applies to all existing dogs and cats. If your dog is microchipped before renewing your 2017/2018 registration, provide us with the information and you will be elgible for the additional rebate on your registration.

DISCOUNT MICROCHIPPING

Microchipping is a safe and permanent way to identify your dog and cat. The procedure is quick, with no ongoing discomfort and can only be carried out by a trained, authorised implanter. Discount microchipping days are offered throughout the State at various times of the year. Visit dogandcatboard.com.au, chipblitz.com, or visit your local yet for more details.

DOG AND CAT LAWS - PENALTIES

Doing the right thing will not only make you a responsible pet owner, but also help avoid the new and increased penalties:

Not Registering Your Dog: penalty \$170 (previously \$80)

Dog Attack: penalty \$315 (previously \$210)

Wandering at Large: penalty \$210 (previously \$80)

Failing to Microchip: From 1 July 2018 - Penalty \$170

Failing to Desex: From 1 July 2018 - Penalty \$170

CHANGES TO DOG REGISTRATION

Categories: Dog registration in South Australia is being simplified by reducing the Dog Registration categories and rebates. Council will be reviewing its current categories and rebates for the 2018/19 period and a decision will be made in early 2018. The new categories as determined by the Act are:

- Standard Dog: A dog that is both desexed and microchipped.
- **Non-standard Dog:** All other dogs, even if they are exempt from rules around desexing or microchipping.

This may mean that your registration for 2018/19 will have your dog placed into one of these categories (with additional rebates subject to Council decision).

Aussie Era Salisbury Car Show

Sunday 22 October 10am to 3pm John Street (Gawler Street to Ann Street), Civic Square and Parabanks Car park

REVITALISING OUR

OVER coming years Salisbury City Centre will undergo an exciting renewal program transforming the City Centre into a vibrant and modern precinct thanks to ongoing investment by the private sector and the City of Salisbury, including plans for a new state-of-the-art community facility.

Council is progressing plans for a \$43.8 million City Centre
Community Hub which will be a place for the community to come
together to exchange ideas, learn, participate and celebrate in a
range of flexible community spaces. The modern and state-of-art
facility will feature civic spaces, a gallery, learning and information
facilities, council chambers and office space for the Council's
administration. The project will also unlock the existing Civic Centre
and Len Beadell Library sites with a projected income of \$7 million,
to enable further development in the City Centre.

Mayor Gillian Aldridge says it will be "the social heart of our City Centre and a place to showcase and experience the difference Salisbury has to offer". "The Community Hub is a major element of the Salisbury City Centre Renewal Strategy, which is an ongoing program of investment to expand and energise the CBD," Mayor Aldridge said. "It's all about connecting people with opportunities to gather, socialise, live, study and invest."

"The project will create local job opportunities during construction while Council will also look to utilise local products and services wherever possible," Mayor Aldridge said. "The economic activity this level of investment attracts would build upon the City Centre's existing strengths including our multiplicity of services and eateries, easy access by public and private transport, and our diverse business base."

The **Salisbury City Centre Renewal** commenced in 2012 and has already seen:

- About \$20 million of private investment including upgrades to Parabanks Shopping Centre, Hoyts Cinema, Commonwealth Bank and Westpac Bank
- A \$700,000 upgrade of the Civic Square community space
- Renewal of Judd Street Laneway with a community mural, seating and table tennis equipment
- The introduction of Salisbury Secret Garden, which is attracting
 10,000 people into the City Centre during the Adelaide Fringe
- Upgrades to bus stops, pedestrian crossings, lighting and the Len Beadell Library facade, installation of new bike racks and street furniture, and graffiti removal
- Council in conjunction with the Salisbury Business Association will launch the inaugural Salisbury Food & Cultural Festival in September; and
- Adoption of Salisbury Oval Precinct Master Plan and investment in new and upgraded sporting facilities and development sites

The Salisbury City Centre Renewal includes redevelopment of the Salisbury Oval Precinct. Council's vision is to breathe new life into

CITY CENTRE

the area and develop it as an integrated recreation and residential precinct including new parks and upgraded sporting and recreation facilities.

The State Government has just completed an upgrade of Salisbury Railway Station which included wider gates for people with mobility aids or prams, additional disability car parks, installation of ticket validation gates and ticketing machines, a new footpath, fencing, and improved CCTV and lighting. In June, the State Government announced that works on the \$152 million electrification of the Gawler Line between Adelaide and Salisbury will commence in early 2018. Council has advocated strongly for this project, which will deliver faster, safer, more reliable and more comfortable rail services to and from Salisbury City Centre.

Communities around the world have used publicly-funded projects as a catalyst to attract further investment. The development of the Hub, along with investment by Council in the Salisbury Oval Precinct, will be a signpost to the business sector of Council's commitment to

revitalise the Salisbury City Centre, which we are supporting with works to improve the road network to facilitate better traffic, pedestrian and public transport movements. All of these come together to make Salisbury City Centre a growing, exciting and accessible destination.

Mayor Aldridge said the "Community Hub would be located on John Street between Civic Square and the Parabanks Shopping Centre." The site includes land owned by Council (the Civic Square carpark) and land owned by Parabanks (the site immediately adjacent to the Civic Square) which Council has a contract to purchase. This ideal location will enable integration with the popular Civic Square community space and create a centralised area for activities and services right in the heart of Salisbury. Any reduction in available car parking spaces would be temporary, with Council committed to maintaining the same overall number of Council-provided car parking spaces in the City Centre as part of the Hub project.

"In the second half of 2017, Council will be considering detailed project designs and undertaking community consultation before

making a final commitment to the project," Mayor Aldridge said. "Construction work could commence in the early half of 2018 with the Community Hub operational by late 2019."

The Community Hub is Council's ongoing contribution to driving the revitalisation of Salisbury City Centre

Mayor Gillian Aldridge

The Community Hub project costs have been factored into our Long Term Financial Plan which has placed Council in a strong financial position while still enhancing our service delivery in areas such as community centres, sporting and recreational facilities and road, streetscapes and verge management, and continuing to meet the ongoing needs of the community. Through the Community Hub development, existing Council-owned sites would be freed up for new uses, development and private investment with the proceeds of land sales helping to off-set project costs. Grant and other external funding opportunities are also being explored.

Extensive community consultation has been undertaken on the Hub proposal in recent years including during the development of the Salisbury City Centre Renewal Strategy in 2012, and the City Plan 2030 in 2015. Further consultation on the proposed site, form and uses was undertaken in August 2017 including questionnaires and open community forum drop-in sessions.

SOLD OUT LUNCHEON SHINES SPOTLIGHT ON MEN'S HEALTH

This year's Men's Health Week luncheon was a complete sell out and big hit at the Jack Young Centre with attendees being thoroughly entertained while learning ways to stay healthy.

Four time Magarey medallist and Australian Football Hall of Famer Russell Ebert kept the crowd enthralled with tales of his footballing life, Northern Health Network's Karen Bellchambers highlighted the many approaches to getting men talking about their health, and vocal impressionist 'Gerry O' ensured there was plenty of laughter in the air.

Free health checks were provided by members of the University of South Australia – Allied Health Van (blood pressure and diabetes risk assessments).

Men's Health Week is held nationally from 12 to 18 June. This year's theme was "HEALTHY BODY – HEALTHY MIND: KEEPING THE BALANCE" and explored the different ways men are managing to keep healthy, physically and emotionally, in a busy and sometimes challenging world.

SALISBURY eSPORTS **GROWING IN POPULARITY**

MONTHLY eSports competitive tournaments are now underway in the Twelve25 Salisbury Youth Enterprise Centre.

eSports (computer based gaming) has become a worldwide phenomenon with international competitions now regularly having prize pools of more than \$100,000. In some countries there are now professional leagues with full time players. In South Australia, the Adelaide Crows sought to be an early adopter and purchased an eSports team earlier this year.

Twelve25 is partnering with young people and staff from Northern Adelaide Senior College to run tournaments, which counterbalance the potential anti-social aspects of computer gaming by having food and socialisation as part of the program.

Every player must attend a 20 minute mini workshop every tournament. No workshop - no play. Topics so far have included the impact of caffeinated drinks on your body, Adelaide-based careers in animation and the impact of cybercrime.

"Online gaming is coming whether we like it or not, but by catering for young people who are passionate about this we can hopefully reduce the social impact of the negatives and provide a fun and professional playing environment for young gamers just like we do with other young sportspeople across the city," said Mayor Gillian Aldridge.

Each tournament has significant prizes and a perpetual trophy. Already some local young people are competing at higher levels and at interstate and international tournaments. As internet speed improves, the competitiveness of Australian players improves in major tournaments.

Each tournament to date has been a 5 vs. 5 set up with an independent umpire and two commentators. The game highlights are broadcast in real time onto a megascreen and they are currently working on Livestream broadcast to the public.

Local gamers are encouraged to follow the development of Salisbury eSports via Council's youth Facebook channel at www.facebook.com/youthinsalisbury

FULL STEAM AHEAD FOR NEW HUB

CONSTRUCTION works are about to commence on the \$4.4 million Para Hills Community Hub, which is expected to be complete by mid-2018.

The new Para Hills Community Hub will be built alongside the existing Para Hills Library and Positive Ageing Centre. The Hub will combine the old and new buildings to form a flexible multi-purpose community facility, creating a welcoming place for people of all ages and a purposeful location for business, cultural, learning and educational opportunities.

The 580m² extension designed by Thomson Rossi Architects is intended to seamlessly integrate with the existing facility and will include two multifunctional spaces (each to hold 120 people), six multifunction meeting rooms, a kitchen café, commercial kitchen facilities, new foyer, an internal courtyard and a library reading room. An upgrade to the car park, external landscaping and an attractive and useable outdoor space will finish off the much needed update.

The project cost has been included in the City of Salisbury's Long Term Financial Plan. "This project is crucial to ensuring members of our community remain connected, both socially and developmentally," said Mayor Gillian Aldridge. "The new Hub will be a breath of fresh air into a centre that is well over due for a makeover and I am excited about the opportunities that will come with it."

The Hub was informed by a significant consultation process with members of the community. This involved a series of stakeholder meetings, letterbox drops with feedback sheets, and community consultation events on design and functionality of the new centre.

Mayor Aldridge said feedback from the community was pivotal when considering the Hub's design, with more room for networking, family, business and senior programs being of the highest priority.

WANT TO STAY UP-TO-DATE?

Follow the progress and stay up-to-date with the latest on the Para Hills Community Hub by visiting the Latest News section of our website www.salisbury.sa.gov.au

Or visit the Para Hills Library and Positive Ageing Centre for further project updates.

IN YOUR LOCAL LIBRARY

THERE are plenty of opportunities to learn about technology through the Salisbury Library Service.

Each of the City of Salisbury's five library sites have an array of technologies available for library customers and visitors to access the internet, work on documents created with Microsoft Office and offer colour printing facilities. Free wi-fi for those who wish to bring their own laptop, tablet or smartphone and access the internet. Each library is equipped with photocopiers that double as scanners if you want to make a digital copy of a document or photo and save it to a USB drive for future use.

Salisbury Library Service offers opportunities to learn how to improve your technology skills. Every Tuesday Len Beadell Library volunteers assist people to learn how to use their own device. People with tablet devices, new phones and laptops come in to learn the basics of how to use their technology or connect with family and friends online. Bookings are essential.

Access to a large range of free online magazines and eBooks is also provided and can be borrowed with your library card. Our magazine collection consists of more than 400 titles and covers a range of topics including gardening, cars, homewares, fashion, art, and of course technology. The eBook collection grows every month and provides access to a variety of current and classic titles across many genres.

All Salisbury libraries stock a large collection of books and magazines to help you understand technology (and many other topics too).

Don't hesitate to drop into your local library or contact Salisbury Library Service on 8406 8311 if you have any questions.

TECHNOLOGY AT YOUR COMMUNITY CENTRE

THE City of Salisbury's community centres offer low cost learning opportunities to help you develop your technology skills and make new friends.

Bagster Road Community Centre and Burton Community Centre offer computer and internet access, a computer club is located at the Paddocks Centre, basic computer lessons are available at Pooraka Farm Community Centre and an eight week Essential Computer Skills program that covers everything from the internet, online shopping, internet banking and social media is on offer at the Morella Community Centre. There is also a Broadband for Seniors program at Jack Young Centre and Para Hills Centre. If you are interested in learning more about technology just contact the relevant centre for more information:

- Bagster Road Community Centre 8250 4167
- Burton Community Centre 8280 8843
- Morella Community Centre 8406 8484
- The Paddocks Centre 8258 8099
- Pooraka Farm Community Centre 8406 8488
- The Mawson Centre 8302 5449

ART PRIZE PUTS SPOTLIGHT ON PRECIOUS RESOURCE

Amazing, colourful and unique artworks dotted the John Harvey Gallery walls during this year's Watershed Art Prize competition.

Entries were up for all categories this year with 60 works shortlisted for the main prize and 15 shortlisted for the Young Emerging Artist section.

Mayor Gillian Aldridge said the annual Watershed Art Prize is a prestigious program that encourages awareness of water as a precious resource and significant environmental management issue, with works entered under the theme 'wetlands biodiversity and / or water sustainability'.

2017 WATERSHED ART PRIZE WINNERS:

- First Prize (\$5,000): 'Birdhide' by Christopher Meadows, of Clare
- Second Prize (\$2,500): 'Flight over Wetlands' by Hans Koppan, of Para Hills
- Highly Commended: 'Biodiversity' by Samantha Snow, of Fairview Park
- Mayors Award: 'Living Water' by Ruth Zozuk, of West Lakes
- Young Emerging Artist (\$500): 'Save the Turtles' by Shannon Beck, of Salisbury Plain
- Young Emerging Artist Highly Commended: Felisse Ordonez, of Parafield Gardens

The 2017 Watershed Art Prize judging panel included Mayor Aldridge, Eleanor Scicchitano from Country Arts SA, Thomas Readett from Adelaide Central School of Art, and International Centre of Excellence in Water Resources Management (ICE WaRM) Managing Director Darryl Day.

Many thanks to our sponsors ICE WaRM and Salisbury Water.

MASTER CLASSES FOR BUDDING WRITERS

WRITERS of all persuasions descended on Salisbury from August 18 to 27 to hone their skills and learn valuable insights into the publishing industry.

The 13th annual Salisbury Writers' Festival program provided a series of presentations and workshops for the literary enthusiast across a variety of genres.

Former pop star, Australian Idol judge and barrister turned author Mark Holden kick-started this year's Festival as the Opening Night keynote speaker on August 18 in John Harvey Gallery. The free evening concluded with the announcement of the winners of the Salisbury Writers' Festival competitions.

address at the Writers' Forum on August 19. Tricia is a best-selling Australian author who fell in love with writing when creating local history stories for the children she taught. Those beginnings led her to expand her writing, which is based in rural Australia, and she is now the author of eight adult books. Tricia was part of a Meet The Author session and hosted this year's Masterclass.

Another major drawcard was Tricia Stringer, who gave the keynote

I thoroughly enjoyed seeing keen writers exploring their imagination and developing their talents and interests through the quality program of events and opportunities available at this year's Festival.

Mayor Gillian Aldridge said the annual Festival is one of the premier events on the Northern Adelaide calendar. "Our annual Salisbury Writers' Festival has something for everyone – no matter whether you are a budding author, literary enthusiast, seasoned writer or just have a passion for the written word," Mayor Aldridge said. "I thoroughly enjoyed seeing keen writers exploring their imagination and developing their talents and interests through the quality program of events and opportunities available at this year's Festival."

The Writers' Festival is proudly presented by the City of Salisbury in partnership with the SA Writers Centre.

SIX TOP TIPS FOR WRITERS

Below are some top tips for becoming the writer of your dreams, courtesy of the SA Writers Centre:

READ

Good writers are good readers! Reading is the best way to learn about writing. Read what you love.
Read genres you've never read before. Read books by local authors. And of course, join your local library.

JOIN

Writing doesn't have to be a solitary activity. Joining a writers' group is a great way to get support and feedback on your work. You can find a group through your local council or library, or at sawriters.org.au. If you can't find one that suits you, you can always start your own!

LEARN

All artists need to develop their skills – think of the hours dancers, musicians and painters spend learning their craft. Good writers do the same. You can find writing courses at the Salisbury Writers Festival, libraries, online, or through the SA Writers Centre. Get studying!

PRACTISE

It can be hard to find time to write, but setting up a comfortable, regular space will let you focus on your work. It could be a dedicated room in your home, or just a corner of the kitchen table. Or try your local café or library. The important thing is that you go there regularly and just write.

ENTER

Writing competition deadlines can be a great motivator and an opportunity to get your work out into the world. Winning is just a bonus! You can find a list of competitions, awards and other opportunities at sawriters.org.au. Start getting ready for the 2018 Salisbury Writing Competition now.

CONNECT

The only way to truly fail at writing is to give up.

All writers suffer from creative burn out. Staying engaged with other writers in your local community can help you rediscover your passion for writing, and keep you inspired. Attend as many local writing events, readings and festivals as you can. You can find them all in the SA Writers Centre e-news.

Enrolments for 2018

Paralowie R-12 School focuses on the whole child. We understand that student wellbeing and a positive school experience are the foundations on which we build good learning.

Innovative teaching, expectations of excellence, and enhancing student engagement in a caring environment are central to our school culture.

Ring for a tour today.

We invite parents of all prospective students to see the quality learning environment of our school. Book a tour with the Principal, Peter McKay, today.

Call 8182 7222 for an appointment.

NORTHERN RESPITE CARE SERVICES

Northern Respite Care is a Low Cost, low level service provider offering three programs for care recipients living in the northern suburbs of Adelaide – one on one home visits, a Friday ladies outing group and a Wednesday Men's outing group.

Do you need a hand to assist you in continuing to care for your loved one? We can help you! Let us take away some of the stresses for both you as the carer and the care recipient – call us! Would you like to be a Volunteer in this amazing program? We can help you to help others!

The aim of the program is to meet the needs of carers of the frail and aged who live in the Salisbury, Playford and Tea Tree Gully Council areas in order to help them maintain, with maximum independence, their caring role and to enhance the quality of life for both the carer and the care recipient.

We achieve this through the commitment of a dedicated team of volunteers who provide services to the care recipient so the carer can have a break from the caring process.

Home visits entail a volunteer visiting either in the home or through outings for up to 4 hours each week or fortnight, while our Men's Outing service boasts a team of male volunteers who collect male care recipients each week for morning tea and then a lunch activity. Our women's outing group allows women to socialise with women on outings, with a dedicated team of female volunteers to assist them.

NRCS is auspiced through the Lyell McEwin Volunteers Association and is supported by The Australian Government Department of Health. Visit the department's website (www.health.com.au) for more information.

For further information and to assess your needs, or to volunteer with us please contact: The Program Manager, Ph: 8182 9651 or Mob: 0411 117 323

\$4M PROJECT KICKING GOALS ON AND OFF THE FIELD

THE Salisbury Florina and Salisbury International soccer clubs are benefiting from the \$4.2 million upgrade and award-winning redesign of Underdown Park.

Mayor Gillian Aldridge said this major upgrade required some innovative planning. "We needed a single storey building that could cater for two clubs, but also allow them to operate independently and grow," Mayor Aldridge said. "The facilities had to include social areas, office and committee spaces, bar and kitchen facilities, storage for sporting gear and ground equipment, player and match service areas, and the spectators had to be able to watch games and training."

"I'm proud to say the project picked up the Excellence Award in Design and/or Construction of a Public Works Environmental Enhancement Project at the 2017 IPWEA SA Excellence Awards Dinner at the Playford Hotel, Adelaide on 19 May 2017."

Club Vice President Bianca Simeoni, who last year won the FFSA Volunteer of the Year Award, said the new facilities were helping support the Club's growing female player base. "We faced the challenges of having only one pitch and one set of changerooms with an open shower area," Bianca said. "We are one of the largest womens and girls clubs in South Australia and we could not have achieved this without the redevelopment from the Salisbury Council and hard work of our committee, in particular Carlo Bittoto who lost his battle to cancer earlier this year."

The Salisbury International Soccer Club changerooms provide for both women and men independently, and can be shared when one gender is not using the facilities. Both clubs have sufficient showers to cater to home and away teams concurrently. The number of playing pitches has been increased and the clubrooms have operable walls that allow for the separate spaces to merge into one large function area capable of accommodating 400 quests.

"The new facility has seen our numbers increase by 25% this year allowing us to expand further with more junior girls teams and also some old members of our club have returned to play"

"For the first time in three years we have all of our teams playing and training home at the one venue. This also means that we can have our canteen facilities open during most junior and women's games whereas in previous years this was not an option."

In 2017 Salisbury Inter – which has Salisbury's first ever senior women's team in the Women's National Premier League – is celebrating 10 years of women's and girl's soccer.

Back: Florina A Men's Trevor Hall (left), Salisbury Inter A Men's Captain Michael Marchioro, Salisbury Inter Women's National Premier League's Tamara Wesbroom and Florina A Men's Captain Thomas Stoneham. Front: Salisbury Inter's Liana Marrollo, Gabriella Fazzalari and Elana Dalakis.

INFRASTRUCTURE FOCUS FOR 2017/18

THE City of Salisbury is preparing for the future by injecting more than \$50 million into infrastructure in 2017/18 to ensure Salisbury continues to be a great destination to live, work and invest.

Mayor Gillian Aldridge said Council's investment has been factored into its Long Term Financial Plan to "ensure we maintain and improve our \$1.6 billion worth of assets in a sustainable manner".

"Council is maintaining all existing services while also increasing funding towards improving the areas that have been raised with us by ratepayers over the past 12 months. These include verge maintenance, local flood management, street tree management and recreation facilities," Mayor Gillian Aldridge said.

"We are investing more than \$50 million in infrastructure in 2017/18. Some key projects include upgrades to the Salisbury Oval Precinct, construction of a Para

Hills Community Hub, road resealing, reconstruction and kerb replacement, building renewals, and park and playground upgrades.

"This is a budget that continues to place Council in a strong financial position while enhancing our service delivery and continuing to meet the ongoing needs of the community."

The City of Salisbury has budgeted for a surplus of \$3.8 million (underlying surplus of just under \$1.1 million).

The intention is to have a small surplus available to respond to community needs that may arise in the year. The average rate increase for 2017/18 is 3%, which equates to an extra 83 cents a week on the average residential rates notice.

This is a budget that continues to place Council in a strong financial position while enhancing our service delivery and continuing to meet the ongoing needs of the community.

Verge and tree maintenance have been identified as a key priority by the community

KEY PROJECTS & SERVICES IN 2017/18

- \$27 million for Salisbury City Centre Community Hub (estimated \$37 million net project) – The proposed Salisbury City Centre Community Hub brings together a range of community, civic and learning services within one vibrant, adaptable and multifunctional building. The hub will provide modern spaces for community use and have state-of-the-art technology that will improve how we work and engage with our community. Construction is planned to start in 2018, following a comprehensive design process that will involve community and stakeholder input.
- \$1.7 million for Salisbury Oval Precinct (\$3 million project) The Salisbury Oval Precinct has a major role to play in the Salisbury City Centre Revitalisation including encouraging private and public sector investment, and supporting the community's recreation and sporting needs. Council is upgrading the existing grandstand, CCTV network, fencing and stormwater infrastructure.
- \$2.3 million for Para Hills Community Hub (\$4.4 million project)

 Major works are being undertaken alongside the existing
 Para Hills Library and Positive Ageing Centre creating a new
 Community Hub. The Hub is strategically located within walking distance of the Para Hills Neighbourhood Shopping Centre and
 Para Hills schools. It will offer business, cultural, education and recreational opportunities and feature well-equipped facilities, a multi-function space for up to 120 people, and spaces for events, exhibitions and workshops. The Paddocks Community Centre (excluding the netball clubrooms) will be decommissioned.
- \$14 million for Asset Renewal This includes \$8.8 million towards road resealing, reconstruction and kerb replacement.

 About \$1.6 million for building renewal, \$1.4 million for drainage works and \$1.4 million for park and playground upgrades.

- \$1.3 million for Streetscape Renewal Budget for this ongoing program has increased this year to help improve the amenity of the City through the consistent management of existing street trees with consideration of species which are more appropriate to the space provided.
- \$1 million for Watercourse Management Works This is an ongoing program to renew and upgrade Council's waterway infrastructure.
- \$0.75 million for Local Flooding Program This ongoing program is for minor flood mitigation works, mainly as a result of flooding reports.
- \$0.4 million for New Footpaths This ongoing program is to install new footpaths in older suburbs where footpaths do not already exist. The locations are prioritised in accordance with Council's Footpath Policy.
- \$0.4 million for Footpath Renewals This ongoing program is for resealing of asphalt footpaths and shared use paths.
- \$0.4 million for Kerb Ramp Construction and Upgrades The ongoing program is for the proactive upgrading of kerb ramps to provide a continuous accessible path of travel.
- \$0.35 million for Reserve Upgrades This ongoing program looks to increase the service levels provided by local reserves and parks.
- \$250,000 for St Kilda Masterplan Stage 2 The implementation of the St Kilda Precinct Plan Stage 2 works will occur over a five-year period, commencing with detailed design, consultation and external funding negotiations in 2017/18.
- \$211,000 for Irrigation Renewal Replacement and minor upgrade of old, inefficient irrigation systems located within parks and reserves

MORE MAINTENANCE FOR VERGES

Early this year the City of Salisbury committed ongoing additional funds to increase the services provided through our Verge Cutting Program.

The increased investment will result in an additional two cuts per year for residential property verges and improved cycle times.

The program will now deliver a total of seven residential property verge cuts (at 6 weekly cycles) and eight main road cuts (at 5 weekly cycles) per year, ensuring verge cutting and maintenance services are provided from February through to December each year.

In addition to the number and frequency of cycles, Council will now undertake chemical application to the footpath keeping the path network free of vegetation.

Council still encourages residents to maintain their own verge to enhance the streetscape presentation of the City.

Street sweeping will continue to follow up behind the grass cutting activities within 48 hours of cutting.

For more information on verges as well as general information on tree maintenance, please visit www.salisbury.sa.gov.au/verges

DOUBLE THE FUN AT ST KILDA

ST Kilda Adventure Playground just keeps getting better with not one, but two big new wave slides recently opening to the public.

In total the City of Salisbury opened three new slides to the public in July including two big new wave slides and an intermediate level slide. All three are located on the Volcano attraction.

"Everyone loved the old wave slide and it was probably the Playground's most popular attraction, but it was aging and in need of renewal," Mayor Gillian Aldridge said. "I'm glad that Council saw the opportunity to construct a second wave slide at the same time the original was being replaced, while also installing a new intermediate level slide. The additional slides will mean more fun for everyone and even shorter queues to use the slides into the future."

66

If you are visiting St Kilda, be sure to check out the Castle with its internal and external slides and drawbridge, the flying fox, bouncy boomerang, swings and barbecue facilities, pirate ship, maze and much more.

"

Renewal of the old wave slide cost \$225,000, construction of the new wave slide was \$270,000, and the new intermediate level slide was \$150,000.

NEW \$40M INSTITUTE AT MAWSON LAKES

A new \$40 million Defence Technologies Institute is being built by the University of South Australia and SAAB Australia as they focus on collaborative research and teaching opportunities in the South Australian defence sector.

The Institute is expected to be complete by 2019 and will be located in a new purpose built third wing at SAAB's Mawson Lakes Headquarters, which is in close proximity to UniSA's Schools of Engineering, Information Technology and Mathematics, and the Future Industries Institute.

SAAB Australia Managing Director Dean Rosenfield said the significant defence industry projects planned for the next 20 to 30 years in Australia will require a new level of people with specialist skills in systems engineering. "It is forecast that the need for additional personnel with the right education and training will be in excess of 5,000 and about 20 per cent of those will need to be university qualified," he said. "This partnership ensures academia is in the heart of industry. Students will learn the technological skills the industry demands and through the practical experience element, know how to deliver projects effectively."

Mayor Gillian Aldridge said the City of Salisbury welcomed the announcement and congratulates UniSA and SAAB Australia on their partnership. "This announcement reinforces Mawson Lakes as a research and development hub for high-tech companies, with the link between industry and the university crucial to educating

students for real world experience," Mayor Aldridge said.

UniSA Vice Chancellor Professor David Lloyd said the new Institute will address not only SAAB skills and education needs, but also provide opportunities for smaller companies in the defence supply chain, giving them access to new generations of well-prepared graduates and the chance to upskill existing staff. "This initiative is a fine example of how universities and industry can work together to deliver future growth for South Australia," Prof Lloyd said.

This announcement reinforces Mawson Lakes as a research and development hub

The partnership and investment announcement complements the Federal Government's recent \$25 million commitment to an Adelaide-based Australian Maritime Technical College, which is proposed to start operating in 2018.

NEW FESTIVAL FULL OF FLAVOUR

GET ready to experience a diverse array of fine foods from around the world at the inaugural SALISBURY FOOD and CULTURAL FESTIVAL.

This new, free family day is a one of a kind event that will showcase the many different cultures that call Salisbury home. It is presented by the Salisbury Business Association (SBA) and the City of Salisbury.

"We are expecting up to 2,500 people who will enjoy the tantalising offerings of 40 market stalls, 30 local traders and more than 10 cultural food vendors," Mayor Gillian Aldridge said. "There will also be a diverse schedule of entertainment across two performance areas, plenty of free children's activities including a Rockabout Climbing Wall, bouncy castle, face painting, balloon animals, library activities, colouring-in competition and more."

SBA Executive Officer David Waylen said the Festival presents a unique opportunity to bring together many cultural community groups and local community traders.

"This is all about showcasing the diverse range of cultures and cultural businesses in the Salisbury City Centre and giving them a chance to highlight their products and services to both their local cultural demographic and the wider community," Mr Waylen said. "We want this to be a truly inclusive event that encompasses as many cultural groups as wish to be involved."

The Festival is supported by a working party with representatives from Migrant Resource Centre SA, PBAFM Community Radio, Ramsay Electorate Office, Parabanks Shopping Centre, Italian Radio, City of Salisbury - Community / Seniors centres and libraries, Salisbury Business Association, and other interested parties such as Hoyts Salisbury Cinemas, Multicultural Communities Council of SA and Australian Migration Options.

SALISBURY FOOD & CULTURAL FESTIVAL

John Street West (Gawler Street to Church Street)

Salisbury
FOOD & CULTURAL
FESTIVAL

AN EXPO YOU WOULDN'T EXPECT

ABOUT 400 people attended the City of Salisbury's first ever Cemetery Expo to learn more about the diverse array of end of life services available across Northern Adelaide.

The Expo brought together members of the funeral industry including lawyers, public trustee, cemetery services, funeral directors and stonemasons to inform people on why they need a Will, what to do when there is a death in the family, and what type of funeral and memorial options are available.

The friendly and welcoming atmosphere was the perfect setting for people to discuss what can be a difficult topic – and potentially saved attendees many hours of phone calls and research by having all the information available in one convenient location.

Thank you to all of the exhibitors including Garner Memorials, Smithfield and Elizabeth Funerals Directors, Mattiske Funerals, Tindall Gask Bentley Lawyers, Salisbury Memorial Park, Simplicity Funerals, Peter Elberg Funerals, Life's Memorials, Public Trustee, Georgiadis Lawyers and Chapel Funerals.

SPACE STATION WITHIN REACH FOR LOCAL CADETS

Seven lucky cadets from the Australian Air League Parafield Squadron had a once in a life time opportunity to speak with French astronaut Thomas Pesquet while he was on board the International Space Station earlier this year.

The cadets joined 12 other cadets from the South Australian air league squadrons based at Port Adelaide and Gawler. The Space Station was orbiting the Earth at 27,500 kph at an altitude of 412 km when the contact started at 7.05pm on May 31.

The cadets had a 10-minute window to talk with Thomas before the Space Station moved out of the radio contact range. This was a truly international event as it involved cadets in South Australia and a French astronaut, who was in the Russian section of the Space Station while it was in orbit over Santa Rosa California in the USA.

The contact was held at the South Australian Aviation Museum at Port Adelaide using a telebridge system to contact the space station. NASA called the museum and then transferred the call to the ground station is Santa Rosa, where it was converted into a radio signal and sent up to the Space Station. Thomas returned to earth on 3 June 2017.

During the communication, Charlotte Lelliott asked, "what experiments have you been allocated to look after?" and Thomas replied, "Looking at how the brain functions in space and what can we do to help those with brain injury back on earth".

Ryan Mattner asked, "what do you do in your spare time" and Thomas replied that he loves taking pictures of the Earth as it's the most beautiful thing he has ever seen.

Get trade ready

Our building trades courses will give you the skills and knowledge to develop pathways and opportunities in the building industry.

Certificate II in Construction Pathways (cPc20211) Learn about the processes, materials, tools and equipment used.

Certificate II Program in Construction (Bricklaying, Tiling and Plastering) (CPC20211) Learn skills in selecting contractors, overseeing work and its quality, and liaising with clients.

For more information: T 8207 4981 | E buildfurn@tafesa.edu.au

Apply now for semester 2 2017 tafesa.edu.au

Certificate II in Glass and Glazing (MSF30413) Learn to perform glass processing, glazing, installation and fabrication.

CAPITAL WORKS

Ongoing maintenance - Maintenance will occur around the city as part of an ongoing program. This includes such programs as kerb and gutter reinstatement due to tree damage and footpath reinstatement. For more information please contact Council's Customer Centre on 8406 8222.

BUS SERVICES ADDED NEAR BUSY CENTRE

In response to community demand, public transport services have now been made available adjacent to Martins Plaza Shopping Village in Parafield Gardens.

The City of Salisbury recently completed the construction of an indented bus bay on the eastern side of Martins Road and two accessible bus pads on both sides of this road.

Following the completion of Council's capital works, the South Australian Department of Planning, Transport & Infrastructure (DPTI) installed bus stop poles and made the necessary service inclusions and announcements. The Route 404R service now includes Bus Stops 39B on Martins Road.

To optimise costs and bring best-value for dollar benefit to the community, Council planned and designed this infrastructure in-house and managed the construction of the project with an internal project manager.

THE WRIGHT WAY AROUND

Two roundabouts have been built at each intersection of Wright Road and RM Williams Drive to improve traffic flow and safety.

The western junction was fully funded with Commonwealth Black Spot Funding, while the eastern roundabout was two thirds funded by State Black Spot Funding and one third Council funded.

Each roundabout cost approximately \$600,000 and were designed to improve the safety of the two junctions. Both roundabouts included new kerbing, asphalt, pedestrian facilities, updated footpaths and lighting.

WHAT YOU TOLD US ON SOCIAL MEDIA

The City of Salisbury keeps in touch with its community via a range of different methods, including social media. Facebook and Twitter are used to communicate with residents, to promote Council's initiatives

and to primarily keep residents up-to-date and informed.

www.facebook.com/cityofsalisbury www.twitter.com/cityofsalisbury

Thankyou for your quick response in sending someone to investigate 2 dogs that came charging towards me on the 24th of May. Hopefully the owns will take better responsibility for their dogs actions and not leave their roller door up and to be no where to be seen in sight to control their dogs. I don't know if the dogs got taken away or if they just got a warning. Lucky it wasn't a little kid going pass their as they could of be seriously injured. *Brady Hall*

City of Salisbury comes up with the goods once again! New finish line equipment to make sure all of our parkrunners stay safe. This is your council at work providing for the community directly and all of us at Mawson Lakes parkrun are very appreciative of their ongoing support. See you at the Z on Saturday! Mawson Lakes Parkrun

Bridgestone Reserve officially opened today! Located on Frost Rd, this is a significant new parkland, recreation and fitness playspace for everyone to enjoy. It's a multi-million dollar development on the former tyre factory site. Bridgestone donated the land to the community in recognition of the community and council support over their 46 year history there. Well done to the City of Salisbury *Play & Go Adelaide*

Great to see gully mowed by school. Thanks, Maureen Warnes

Congratulations City of Salisbury for winning the Cultural Diversity in Aged Care Award at the ACS SA & NT Awards for Excellence Dinner. This award is a newly introduced award and sponsored by Multicultural Aged Care. *Multicultural Aged Care*

Walked Dry Creek from Mawson Lakes to Walkley Heights yesterday and took a moment to reflect at the Brian Goodall Reserve, Pooraka. *Peter Sokes Senior*
