

Number of Actively Trading Businesses

Headline Figure: 7,234 actively trading businesses

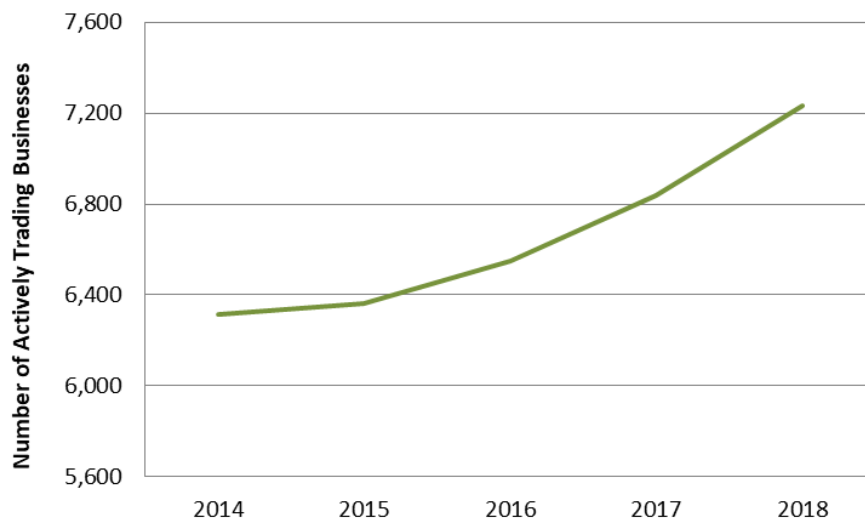

Why this indicator is important

The number of actively trading businesses is a measure of how many businesses are starting or closing in Salisbury. By breaking it down to an industry level, Council can better understand the demand for certain types of commercial premises as well as potential workforce or infrastructure requirements

Registered business by industry shows how many businesses there are in City of Salisbury within each industry sector using the Australian Bureau of Statistics (ABS) Business Register which itself is derived from the GST register held by the Australian Tax Office (ATO). Businesses are included if they are registered with the ATO, with an ABN used within the previous two financial years.

Current Performance

There has been a growth of 918 actively trading businesses in Salisbury between 2014 and 2018. For a number of years, the rate of growth of actively trading businesses in Salisbury underperformed the South Australian average, however over the last two years this has reversed with particularly strong growth in the number of businesses in the Transport, Postal and Warehousing sector.

Data Source

Australian Bureau of Statistics, Counts of Australian Businesses, including Entries and Exits, 2016 to 2018
