<b>Colour</b>	White and red roan		
<b>Vaccination Status</b>	Unknown		
<b>Date impounded</b>	18/02/2025		

#### About me

Hi there, I am the amazing Rachel. If you are looking for a cheeky, smart, energetic and beautiful girl, well look no further because here I am.

I keep my carers on their toes here and I love it, they call me cheeky, well that's because I am a water baby. I love water play time. One day we were playing and having fun and then play time was over, I was most disappointed. So, when they went to fill up the water bowl in the play yard I may or may not have picked it up and ran away with it – hee hee – well I wanted to keep playing and it worked because we played chasey for a bit then. You know how it goes. “Rachel bring that back” I'm like “I can't hear you can you speak louder” as I kept running around with the bowl in my mouth. Gave them a good laugh. They were puffed but not me. So, I guess I am looking for a home that has an outdoorsy, energetic lifestyle.

I have met other dogs here and I can be a bit selective as I am not so much a puppy anymore, so meeting puppies was a little much for me, although they have the same energised nature as me I prefer dogs that are around my age. I was able to hang out with them a lot better. If you have a dog at home already please ask to bring them with you when you come to meet me.

As I can be an energetic bouncy girl, I might be a bit much for really little kiddies, I might accidentally knock them over, although I won't mean too. The carers are working with me on this and to walk better one lead. I am improving all the time. Well that's enough chat, why don't you come and meet me yourself. Don't forget if you have other dogs already at home please ask to bring them with you when you come to meet me.
