## LEAVE OF ABSENCE

Nil

## PRESENTATION OF MINUTES

Moved Cr S Reardon

Seconded Cr C Buchanan

The Minutes of the Policy and Planning Committee Meeting held on 16 July 2018, be taken and read as confirmed.

**CARRIED**

## REPORTS

### *Administration*

#### **1.0.1 Future Reports for the Policy and Planning Committee**

Moved Cr G Caruso

Seconded Cr D Bryant

1. The information be received.

**CARRIED  
UNANIMOUSLY**

#### **Bring forward Items 1.3.1 and 1.3.3 to this point on the Agenda**

Moved Cr C Buchanan

Seconded Cr D Balaza

1. That Item 1.3.1, Rural (Aircraft Noise) Direk Industry and Residential Interface Development Plan Amendment, and Item 1.3.3, Globe Derby Developer Funded DPA, be brought forward to this point on the Agenda.

**CARRIED  
UNANIMOUSLY**

**1.3.1 Rural (Aircraft Noise) Direk Industry and Residential Interface Development Plan Amendment**

*Cr L Caruso declared an actual conflict of interest on the basis of being a resident of Diment Road and also a family member owns land in the Direk industrial area. Cr L Caruso left the meeting at 06:36 pm.*

*Cr G Caruso declared a perceived conflict of interest on the basis of family members owning land within the DPA area. Cr G Caruso left the meeting at 06:36 pm.*

*Cr G Reynolds declared a perceived conflict of interest on the basis of his employer being a key stakeholder in the DPA. Cr G Reynolds left the meeting at 06:36 pm.*

Moved Cr C Buchanan

Seconded Cr D Proleta

1. Council endorse the City of Salisbury Rural (Aircraft Noise) Direk Industry and Residential Interface Development Plan Amendment, subject to the following amendments:
  - a. Amend Residential Zone boundary to include the whole of 16 Beadell Street.
  - b. Include into the Residential Zone allotments 24 and 25 in F18218 (1 and 3 Wyatt Road) that are currently in the Rural Living Zone.
  - c. Minor adjustment to zone boundary to follow the cadastre of portion of 117 Bolivar Road but not increase residential development potential.
  - d. Minor adjustment to zone boundary to follow the cadastre of portion of 105 Bolivar Road but not increase residential development potential.
  - e. In the proposed Neighbourhood Centre Zone, Non Complying Development list, add to Horticulture an exception which identifies 'Areas 4 and 5 in Concept Plan Sal/11 Waterloo Corner Road Neighbourhood Centre.'
  - f. Wording changed on Map Concept Plan Sal/35 so that it reads 'no road link for industrial/commercial vehicles' at Beadell Street and Currawong Street.
  - g. Minor editing requirements as identified by DPTI.
2. The CEO sign the Schedule 4B Certificate certifying that the Rural (Aircraft Noise) Direk Industry and Residential Interface DPA is suitable for approval and submit the amended DPA that is Attachment 6 to Policy and Planning Committee item 1.3.1 and supporting documents to the Minister for Planning requesting the Minister's approval pursuant to Section 25(14) and (15) of the Development Act 1993.

3. The General Manager City Development be authorised to make minor administrative amendments and changes as necessary to the Rural (Aircraft Noise) Direk Industry and Residential Interface DPA that do not alter the approved policy intent of the DPA, to ensure it is suitable for approval by the Minister.

**CARRIED**  
UNANIMOUSLY

*Cr G Caruso returned to the meeting at 06:47 pm.*

*Cr L Caruso returned to the meeting at 06:47 pm.*

*Cr G Reynolds returned to the meeting at 06:48 pm.*

### 1.3.3 **Globe Derby Developer Funded DPA**

*Cr S Bedford declared a perceived conflict of interest on the basis of his employment with the Attorney General's Department who regulate the SA Harness Racing Clubs. Cr S Bedford left the meeting at 06:51 pm.*

*Cr G Caruso declared a perceived conflict of interest on the basis of his employment. Cr G Caruso managed the conflict by remaining in the meeting and voting in the best interest of the community.*

The Chairman advised that a number of residents of Globe Derby Park were in attendance in the public gallery and had indicated that they wished to speak against the proposed DPA. The Chair invited each of the speakers to address the Committee for five minutes as follows:

- Mr Des Nolan
- Ms Jan Sowden
- Mr Andrew Gilbert (*Cr C Buchanan sought leave of the meeting for Mr Gilbert to speak for a further five minutes and leave was granted*)
- Mr Tony Copeland
- Mr Gareth Heron

*Mayor G Aldridge left the meeting at 07:19 pm.*

*Mayor G Aldridge returned to the meeting at 07:21 pm.*

*Cr L Caruso left the meeting at 07:21 pm.*

*Cr L Caruso returned to the meeting at 07:22 pm.*

*Cr C Buchanan sought leave of the meeting to speak for a further five minutes and leave was granted.*

*Cr B Brug left the meeting at 07:39 pm.*

*Cr B Brug returned to the meeting at 07:40 pm.*

Moved Cr C Buchanan

Seconded Cr G Caruso

1. That Council declines to proceed with a developer-funded Development Plan Amendment for the land comprising the Globe Derby Park harness racing facility, having consideration of:

- 
- a) The current Development Plan policy settings for the locality seeking to support the continuation of harness racing and associated activities on the land; and
  - b) The desirability of considering future land use policy and zoning for the Port Wakefield Road/Northern Connector corridor, of which the subject land is a part, holistically.
2. Noting the intent to support the continuation of the harness racing industry in the Globe Derby area, the State Government be requested to consider the issue of the future zoning of the Globe Derby area as part of a broader review of planning policy applying to the Port Wakefield Road/Northern Connector corridor, and that the current planning policy provisions for the area also be reflected in the transition to the Planning and Design Code as part of the proposed Sub-Zones layer of the code that reflects local variations to zones.

**CARRIED**  
**UNANIMOUSLY**

*The majority of members present voted IN FAVOUR of the MOTION.  
Cr G Caruso voted IN FAVOUR of the MOTION.*

*Cr S Bedford returned to the meeting at 07:58 pm.*

## **BREAK**

In accordance with the Code of Practice for Meeting Procedures, the presiding member provided a break to all present. The meeting was suspended at 8.00 pm.

The meeting reconvened at 8.07 pm.

---

*Community Development*

**1.1.1 Minutes of the Youth Council Sub Committee meeting held on Tuesday 14 August 2018**

**1.1.1-YC1 Future Reports for the Youth Council Sub Committee**

Moved Cr R Zahra  
Seconded Cr G Caruso

1. The information be received.
2. A workshop be held with staff and Youth Council to discuss the Salisbury North Skate Park and Judd Street Laneway reports.

Moved Cr R Zahra  
Seconded Cr G Caruso

1. That the information be received and noted.

**CARRIED**  
UNANIMOUSLY

### 1.1.2 Carp Fishing Competition Mawson Lakes

*Cr D Balaza declared a perceived conflict of interest on the basis of his employment. Cr Balaza managed the conflict by remaining in the meeting and voting in the best interest of the community.*

Moved Cr B Brug

Seconded Cr D Proleta

1. That staff promote the Sponsorship Grants with angling clubs and seek feedback on the potential for a fishing event at Mawson Lakes in 2019, as outlined in Option 1 of this report.
2. Failing that there are no angling clubs to utilise this opportunity that Council consider option 2 or a stand-alone event.

With leave of the meeting and consent of the seconder Cr B Brug  
VARIED the MOTION as follows:

1. That staff promote the Sponsorship Grants with angling clubs, local community groups and associated businesses, and seek feedback on the potential for a fishing event at Mawson Lakes in 2019, as outlined in Option 1 of this report, and in the event there is interest, Council also approach local businesses and media for financial support of the event.
2. Failing that there are no angling clubs, local community groups and associated businesses to utilise this opportunity that Council consider the Salisbury Plays event.

Cr C Buchanan moved a FORMAL MOTION that the MOTION be PUT.

Seconded by Cr E Gill

Council give further consideration to the Telstra Safe Connections Program and the administration consult with community centres about including the Telstra Safe Connections Program as a service delivered by community centres. <b>Due:</b> October 2018	Julie Douglas
28/05/2018 1.2.1	<b>Cities Power Partnership Program</b> 1. That Council re-consider becoming a partner of the Cities Power Partnership program once the City of Salisbury's Energy Management Plan has been finalised and endorsed during 2018/19. <b>Due:</b> February 2019	Andy Le Grand
28/05/2018 1.3.3	<b>Salisbury Community Hub - Status Update Report</b> 3. That a market approach be undertaken commencing June 2018 to identify the level of interest in the café offer framed by the Café Principles outlined in Section 9.6 (Item 1.3.3, Policy and Planning, 21/05/18), with a further report on the outcomes of the market approach to be brought back to Council. <b>Due:</b> November 2018 <b>Deferred to:</b> January 2019 <b>Reason:</b> Awaiting evaluation of Expressions of Interest.	Karen Pepe
28/05/2018 2.2.1	<b>Disability Programs</b> 4. Staff to provide an update report on the Salisbury Home and Community Care Business Model with recommendations on future options for the council in regarding disability and ageing sectors in December 2018. <b>Due:</b> December 2018	Vesna Haracic

25/06/2018 1.1.3	<b>Community Art Program</b> 4. Note that a further report regarding the Public Art Framework will be brought back to Council in February 2019. <b>Due:</b> February 2019	Adam Trottman
25/06/2018 1.2.1	<b>Approach to Supporting Business Growth and Investment</b> That it be noted that further individual reports will be provided for consideration in respect to: ... ... c) The Northern Business Breakfast. <b>Due:</b> September 2018 <b>Deferred to:</b> December 2018 <b>Reason:</b> To enable the matter to be considered as part of broader consideration of Polaris business services and to enable consultation with all stakeholders.	Greg Ratsch
25/06/2018 MWON2	<b>Cultural Advisory Committee</b> That Staff provide a report to Council regarding the benefits and requirements for reforming the Cultural Advisory Committee (or similar) to provide advice and recommendations in regards to artworks to be undertaken by the City of Salisbury. <b>Due:</b> February 2019	Adam Trottman
23/07/2018 MON1	<b>Basketball Court - Cascade Estate, Mawson Lakes</b> 1. That a report be brought forward, which investigates the appropriateness and feasibility of establishing a 'half court or full court' basketball court in the Cascade Estate at Mawson Lakes, and other suitable locations within the City of Salisbury. <b>Due:</b> December 2018	Adam Trottman / Craig Johansen
23/07/2018 1.1.2	<b>Salisbury Sport and Recreation Network Review</b> 4. That staff bring back a further report within the next six months outlining activities and the potential for establishing a network between the Cities of Salisbury, Tea Tree Gully and Playford. <b>Due:</b> January 2019	William McInerney
23/07/2018 1.3.1	<b>Statutes Amendment (Decriminalisation of Sex Work) Bill 2018</b> 4. A report be provided to Council advising of necessary changes to the planning rules to make brothels a non-complying development in residential areas. <b>Due:</b> October 2018	Peter Jansen
23/07/2018 1.5.1	<b>The Paddocks Masterplan</b> 3. That a scoping study of works be brought back to Council with an implementation plan for year three onward. <b>Due:</b> April 2019	Clint Watchman

27/08/2018	<b>Single use Straws</b>	Adam Trottman / Karen Pepe
MON7.4	<p>That Council, in recognising it is imperative to reduce single use plastic, seek a report on measures necessary to implement the following proposals to commence from 1 July 2019, to:</p> <ol style="list-style-type: none"> <li>1. Ban the use of single use plastic straws, that cannot be appropriately recycled or reused, in Council operations and Council-run events, and</li> <li>2. Ban the use of single use plastic straws, that cannot be appropriately recycled or reused, in all new licenses for events in Council reserves.</li> </ol> <p><b>Due:</b> January 2019</p>	
27/08/2018	<b>Recognition of Benefactors of Salisbury Oval</b>	Adam Trottman
MON7.10	<p>2. A report be brought forward to the February 2019 meeting of Council advising the outcomes of this consultation, including the list of suggestions from both clubs, along with any suggested by the administration, and recommending an appropriate way to recognise those benefactors for this gift to the City of Salisbury.</p> <p><b>Due:</b> February 2019</p>	
27/08/2018	<b>Community Hub for South Ward</b>	Pippa Webb
P&P-OB1	<p>1. That a report be brought back to Council in April 2019 on establishing a community hub for South Ward which would incorporate the current Sunset Room at the Recreation Centre and the Ingle Farm Library. Extensions to the library facility to possibly include a meeting room(s) with flexible space, an office, reception/lounge, small kitchen and a computer room.</p> <p><b>Due:</b> April 2019</p>	

#### 4. CONCLUSION / PROPOSAL

- 4.1 Future reports for the Policy and Planning Committee have been reviewed and are presented to Council for noting.

#### CO-ORDINATION

Officer:	EXEC GROUP	GMCID
Date:	10/09/2018	06/09/2018

<b>ITEM</b>	1.1.1
	<b>POLICY AND PLANNING COMMITTEE</b>
<b>DATE</b>	17 September 2018
<b>HEADING</b>	Regional Public Health Plan Biennial Report to the Chief Public Health Officer 2018
<b>AUTHOR</b>	Julie Douglas, Senior Social Planner, Community Development
<b>CITY PLAN LINKS</b>	2.3 Have natural resources and landscapes that support biodiversity and community wellbeing. 3.1 Be an adaptive community that embraces change and opportunities. 3.3 Be a connected city where all people have opportunities to participate.
<b>SUMMARY</b>	Council is required under the <i>South Australian Public Health Act 2011</i> to deliver a biennial report to the Chief Public Health Officer providing a comprehensive assessment of the extent to which, council has succeeded in implementing its regional public health plan. This report provides an assessment of the implementation of the City of Salisbury's Regional Public Health Plan between July 2016 and June 2018.

## RECOMMENDATION

1. That this report be received.
2. That the Section 52 report, as set out in Attachment 2 to this report (Item No. 1.1.1, Policy and Planning Committee, 17/09/2018) be endorsed for submission to the South Australian Chief Public Health Officer.

## ATTACHMENTS

This document should be read in conjunction with the following attachments:

1. City of Salisbury Regional Public Health Plan
2. City of Salisbury Regional Public Health Plan Section 52 Report 2018

## 1. BACKGROUND

- 1.1 Councils are required to prepare and maintain a Regional Public Health Plan under section 51 of the *South Australian Public Health Act 2011*. Regional Public Health Plans should be consistent with the State Public Health Plan where appropriate and respond to the public health challenges within the local government area. The City of Salisbury Regional Public Health Plan (Attachment 1) was endorsed for implementation by Council at its February 2015 meeting.

- 1.2 As part of its statutory requirements under section 52 (1) of the *South Australian Public Health Act 2011* Council must prepare a biennial report for the state's Chief Public Health Officer containing a comprehensive assessment of the extent to which it has succeeded in implementing its Regional Public Health Plan.
- 1.3 The current reporting period is from 1 July 2016 to 30 June 2018. The statutory deadline for submission of reports to the Chief Public Health Officer is on or before 30 September 2018.
- 1.4 This report provides an overview of key points from the Section 52 report (Attachment 2) proposed to be presented to the Chief Public Health Officer.

## **2. CONSULTATION / COMMUNICATION**

### **2.1 Internal**

- 2.1.1 Community Development – Community Health and Wellbeing
- 2.1.2 Community Development – Community Planning and Vitality
- 2.1.3 Community Development – Community Capacity and Learning
- 2.1.4 City Development – Environmental Health and Safety
- 2.1.5 City Development – Economic Development and Urban Policy
- 2.1.6 City Infrastructure – Technical Services
- 2.1.7 Business Excellence – People and Culture

### **2.2 External**

- 2.2.1 SA Health regarding the guidelines for reporting.

## **3. REPORT**

- 3.1 An assessment of the City of Salisbury's Regional Public Health Plan indicates the following in relation to Council's implementation of the 46 actions in the regional Public Health Plan:
  - 6 actions are still in progress;
  - 7 actions have been completed as discrete projects; and
  - 25 actions are continuing imbedded within the usual business of Council.
- 3.2 There is 1 action that has been deferred and 7 actions that have not been implemented during the reporting period, these are identified as follows:
  - 3.2.1 The development of a health and wellbeing toolkit and evaluation framework – this action has not progressed as it duplicates work currently being undertaken by SA Health for the development of the Public Health Indicator Framework, which Council's will need to evaluate progress against. The development of appropriate evaluation processes and good practice to inform delivery of wellbeing initiatives across a diverse range of Council functions will be further developed once the SA Health Public Health Indicator Framework has been completed.

- 3.2.2 The development and implementation of a food security action plan – this action has not progressed beyond the background stage; however food security principles will be pursued in a forthcoming Council report regarding options for increasing community gardens scheduled for 2019.
- 3.2.3 The development of a families and children discussion paper to explore becoming a UNICEF recognised Child Friendly City – this action has not progressed beyond the background stage; however Council provides programs and services that support children and families, including:
- early literacy programs;
  - community centre programs;
  - vacation programs;
  - STEM based learning programs;
  - Recreation programs;
  - Community events;
  - Immunisation services;
  - Play space provision;
  - Recreation ground provision; and
  - Open space provision.
- 3.2.4 The development of Healthy Kids research projects - this action has not progressed beyond the project exploration stage due to different University of SA and Council priorities.
- 3.2.5 The development of an affordable living strategy – this action has not progressed beyond the background stage; however Council undertakes to provide affordable programs, services and initiatives to the community, including:
- Library services and programs;
  - Community Centre programs and services;
  - Twelve25 Youth Enterprise Centre programs and services;
  - Seniors Centre programs and services;
  - Affordable housing through Council owned developments;
  - Adult Community Education programs; and
  - Home and social support for seniors and people with a disability.
- 3.2.6 The development and implementation of a community health and wellbeing survey - this action has not progressed as it duplicates work currently being developed by SA Health to support the development of the Public Health Indicator Framework.

- 3.2.7 An advisory group to guide the delivery of Public Health across the community and organisation - this action has not progressed, however Council's existing advisory groups have been utilised to provide feedback on health initiatives. These groups have included:
- Reconciliation Action Plan Working Group;
  - Salisbury Seniors Alliance;
  - Disability Access and Inclusion Network; and
  - Salisbury Youth Council.
- 3.2.8 The development of an environmental health emergency management plan – this action has not progressed because Council refers to the SA Health Public Health Emergency Management Plan & Councils Emergency Management Plan in relation to matters concerning Public Health.
- 3.3 A broad range of partnerships have been established to achieve the implementation of the Regional Public Health Plan in the following areas:
- Resilience and Wellbeing;
  - Early intervention on domestic violence;
  - Suicide prevention;
  - Volunteering;
  - Mental health supports;
  - Positive ageing;
  - Squalor and hoarding;
  - Drug and alcohol;
  - Recreation programs and services;
  - Nutrition;
  - Early years programs and services;
  - Immunisation services;
  - Climate change adaptation;
  - Mosquito management; and
  - Youth programs and services.
- 3.4 Key enablers that have been identified include:
- The importance of partnerships in implementing public health actions and maximising the impact and longer term impacts of those actions; and
  - The value of financial support and appropriate funding for delivering public health initiatives.
- 3.5 Key challenges that have been identified include:
- Achieving meaningful engagement across diverse population groups;
  - Developing appropriate measurement and evaluation frameworks and process that are relevant to the broad range of activities that local councils undertake that contribute to public health outcomes for the community;

- Maintaining effective multi-sectoral partnerships in the absence of ongoing financial support; and
- Implementing regionally focussed or partnered actions when stakeholder priorities are not aligned.

#### **4. CONCLUSION / PROPOSAL**

- 4.1 The attached Section 52 Report outlines the implementation of the City of Salisbury's Regional Public Health Plan (Attachment 2). It identifies that Council has implemented 38 of the 46 actions; 25 of which are ongoing embedded with Council business, 6 are in progress, and 7 have been completed as discrete projects.
- 4.2 Of those actions that have not progressed, 1 has been deferred pending development of the State Public Health Indicator Framework, and 7 will not be progressed to full implementation stage for reasons outlined in the report.

Date: 10/09/2018

City of Salisbury

# Regional Public Health Plan

February 2015

Item 1.1.1 - Attachment 1 - City of Salisbury Regional Public Health Plan

# INTRODUCTION

“Health is a resource we all need for everyday life. When we are well connected and satisfied with our lives, our ability to work and learn expands, our quality of life improves, our families and communities are stronger and our community is safer”<sup>1</sup>.

The inaugural City of Salisbury Regional Public Health Plan (the Plan) is an important strategic document that will guide Council’s work to improve the health and wellbeing of the Salisbury community into the future. The health and wellbeing of the Salisbury community has always been a high priority of the Council with Salisbury’s commitment and roles reflected within Salisbury’s City Plan 2020 ‘Sustainable Futures’ and Salisbury’s numerous action and business plans.

This plan for the first time brings together and recognises the significant contribution Council makes to the health and wellbeing of the community and strategically plans for enhancement into the future.

# PUBLIC HEALTH PLANNING

**Council is responsible for developing and maintaining a Regional Public Health Plan for the purposes of our operations under the SA Health Act 2011.**

The Act recognises council as the Public Health authority in their area. This is in recognition of the contribution of councils towards their community's health and wellbeing through their influence on local environments. They are in the best position to lead public health actions in their own community.

While councils do not have prime responsibility for every public health issue identified within their community they are able to recognise and understand them within the context of other issues, needs and priorities.

The State Government is also required to develop a State Public Health Plan. The State and Regional Public Health Plans are interlinked; the State Plan needs to include issues from the Regional Plans and Regional Public Health Plans needs to be consistent with the State Plan where appropriate.

## What is Public Health?

The South Australian Public Health Act 2011 defines public health as the following:

*Public health means the health of individuals in the context of the wider health of the community.*

Public health may involve a combination of policies, programs and safeguards designed:

- > To protect, maintain or promote the health of the community at large, including where one or more persons may be the focus of any safeguards, action or response; and
- > To prevent or reduce the incidence of disease, injury or disability within the community.

## The Determinants of Health

The social determinants of health recognise that health is not just influenced by our genetics, lifestyle or behaviours. It is influenced by the circumstances in which people are born, grow up, live, work, age, and the systems put in place to deal with illness. These circumstances are in turn shaped by a wider set of forces; economics, social policies, and politics.

The Social Determinants of Health framework<sup>2</sup> identifies that to influence health outcomes we need to change environments that influence health. We cannot continue to simply deal with illness after it appears, or keep exhorting individuals to change their attitudes and lifestyles, when the environment in which they live and work gives them little or no choice or support.

The social determinants of health are mostly responsible for health inequities – the unfair and avoidable differences in health status across groups in society – are those that result from the uneven distribution of social determinants. People in lower socio-economic groups are more likely to experience chronic ill-health and die earlier than those who are more advantaged. Health inequalities also exist between different genders and different ethnic groups (see Figure 1).

### City of Salisbury Regional Public Health Plan Development

Council conducted an internal audit, research, population health analysis and internal consultation to form a strong evidence base for the development of the actions contained within the City of Salisbury Regional Public Health Plan. The audit and a Key Challenges and Trends for the City of Salisbury paper are contained in separate documents.

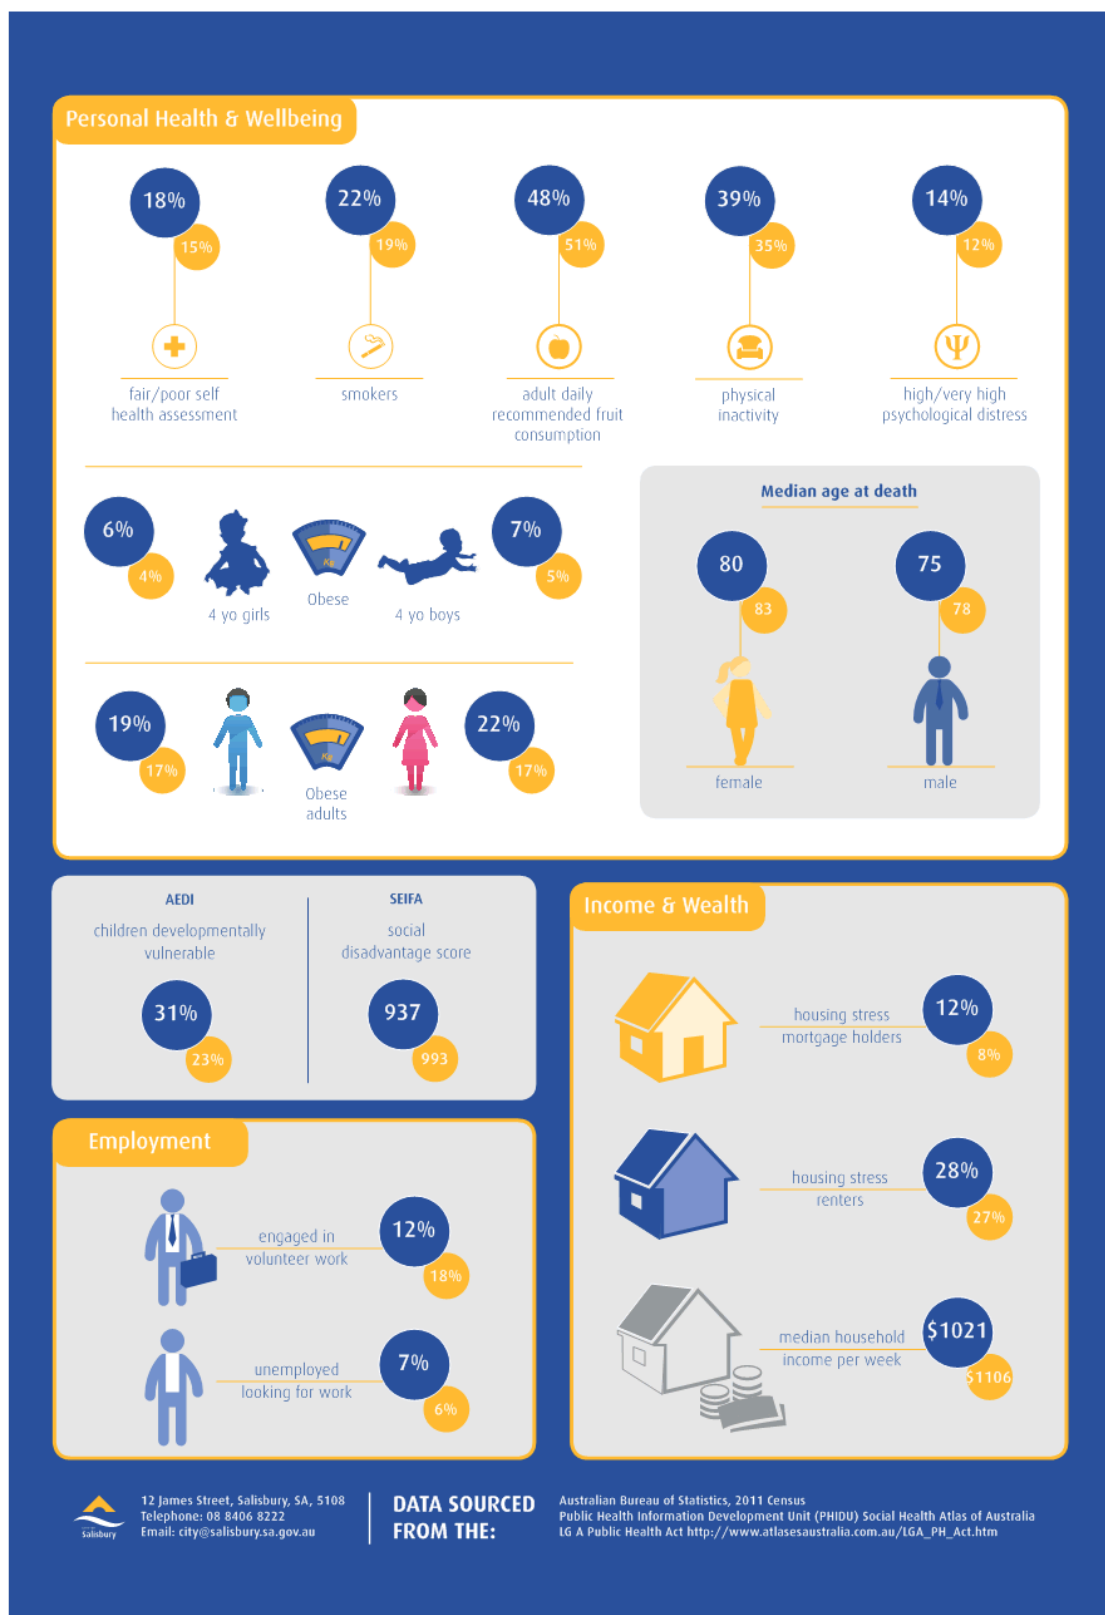

### State of Health and Wellbeing

There is a large amount of data available to demonstrate the state of health and wellbeing in the Salisbury community. The following info-graphic provides a summary of a selection of key data for the Salisbury community:

FIGURE 1: SOCIAL DETERMINANTS OF HEALTH FRAMEWORK

## Priority Areas and Actions

The City of Salisbury undertakes many initiatives that contribute to the health and wellbeing of the community as outlined in the audit. However the Salisbury community continues to face a number of significant health challenges that we need to continue to recognise and consider as a part of our planning and deliverables into the future.

Ongoing implementation of Council's following plans will contribute to the community's health and wellbeing:

- Ageing Well Priority Actions for an Ageing Population
- Youth Action Plan
- Learning Action Plan
- Beyond the Ramp Social Inclusion Planning Framework
- The Game Plan - open space and recreation action plan
- Sports Development Framework;
- Cultural Strategy
- Reconciliation Action Plan
- Play Space Action Plan
- Safer Salisbury Strategy and Action Plan
- City of Salisbury Landscape Plan
- Building City Pride Strategy
- Drug and Alcohol Framework

Responses to the identified key issues and challenges facing the Salisbury community will be responded to during the development of the following plans and discussion papers currently under development or to be developed:

- Social Infrastructure Plan
- Growth Action Plan
- Integrated Transport Plan
- Walking and Cycling Strategy

- Resilient Salisbury – Environmental Action Plan
- Ageing Action Plan – next iteration
- New Arrivals and Culturally and Linguistically Diverse Population Discussion Paper
- Learning Action Plan – next iteration
- Digital Strategy
- Affordable Living Strategy
- Families and Children Discussion Paper
- Food Security Action Plan

The identified key challenges facing the Salisbury community have been or will be addressed in the strategies, action plans and discussion papers outlined above however the following critical areas have been identified as key focusses over the next five years:

- Mental Wellbeing
- Healthy Living, Healthy Eating and Being Active
- Early Childhood Development
- Healthy and Connected Built and Natural Environments
- Building Excellence – Developing Capabilities

Key responses for each of these areas are outlined below.

### MENTAL WELLBEING

*Good mental health is a sense of wellbeing, confidence and self-esteem. It enables us to fully enjoy and appreciate other people, day-to-day life and our environment. When we are mentally healthy we can form positive relationships; use our abilities to reach our potential; and deal with life's challenges<sup>3</sup>.*

Australia like most modern societies is facing serious mental health challenges:

- One in five people will experience a mental health problem or illness each year,
- 45% of people will experience a mental health problem or illness at some point during their lifetime and more than 75% of these people will have their first episode before 25 years of age; and
- Mental illness can affect men, women and children of all ages and cultural backgrounds<sup>4</sup>.

Mental illness has significant impacts on individuals, carers, families and the wider community as well as significant social and economic costs.

Social isolation is one of the most serious mental and physical health risks facing our community. Risk factors that have been identified which contribute to social isolation include health and disabilities, loss of a spouse, living alone, unemployment, ageing, transportation issues and societal adversity<sup>5</sup>. For example, studies of elderly people and social isolation concluded that those without adequate social interaction were twice as likely to die prematurely<sup>6</sup>.

Local government plays a role in the mental wellbeing of their communities. Roles include:

- The provision of attractive and well-designed open space and urban environments that support active living, physical activity and opportunities for social interaction which have been shown to reduce mental fatigue and stress; and

- The provision of services and programs that provide opportunities for community members to learn, interact, contribute to their community and keep their minds active.

### STATE OF MENTAL WELLBEING IN SALISBURY

#### Data

- 13.8% of the Salisbury population reported that they had high or very high levels of psychological distress which is above metropolitan average
- 11.1% of males and 12.6% of females are estimated to have mental and behavioural conditions as a long-term condition which is above the metropolitan average
- There are notably more deaths from suicide before 75 years age compared to the metropolitan average
- Higher level of clients aged 18 years and over who were clients of government funded community mental health services which is 5% more clients than the metropolitan average
- Nine out of 10 people in Salisbury (90.5%) were estimated to be able to get support in times of a crisis which is consistent with the metropolitan average

#### Consultation Findings

- Mental illness was identified through the consultation as a key issue for the Salisbury community
- Increasing numbers of community members with mental health issues are being referred or self-referring to community centres to become actively involved in programs or volunteering
- Social isolation is identified as a significant factor facing many residents. The importance of Council's community development programs and service delivery in reducing this isolation were highlighted during consultation

## Regional Public Health Plan

- Squalor and hoarding were identified as emerging issues that require a cross agency response in the northern region
- Adult protection – the lack of awareness and ability to respond to this emerging issue was raised during consultation

**STRATEGIC CONTEXT**

State Public Health Plan: SA: A Better Place to Live

- Strategic Priority 1: Stronger and healthier communities and neighbourhoods for all generations
- Strategic Priority 2: Increasing opportunities for healthy living, healthy eating and physical activity

City of Salisbury: Key Direction 3 - The Living City

- Objective 1: To have a community that embraces healthy and active lifestyles
- Objective 2: To have an engaged community with a strong sense of vitality, pride and belonging
- Objective 3: To have a city where quality of life is achievable
- Objective 4: To have a community that aspires to and embraces learning as a lifelong goal

**POTENTIAL PARTNERS**

State Public Health Plan: SA: A Better Place to Live

- Northern Community Mental Health
- nc-21 (Northern Connections)
- SAHMRI Wellbeing and Resilience Centre
- Centacare, Anglicare and other non-government organisations
- University of Adelaide/University of South Australia

**PERFORMANCE MEASURES**

The actions outlined in the following pages will be evaluated individually to determine if successful outcomes are achieved.

The biennial Community Perceptions survey measures changing community views over a set period. The questions that are broadly related to the mental health of the community are:

- The proportion of residents who are involved in community activities,
- The level of satisfaction with the quality of life in the Salisbury Council area; and
- The level of satisfaction and dissatisfaction with particular aspects of quality of life.

**POPULATION HEALTH AND WELLBEING****INDICATORS**

The following indicators are long-term population indicators measured by the Australian Bureau of Statistics National Health Survey approximately every five years. These indicators will continue to be monitored however the results need to be taken with caution as they are influenced by a number of factors outside the City of Salisbury's control. The indicators include:

- Proportion of the population who had high or very high levels of psychological distress,
- Percent of males and females estimated to have long-term mental or behavioural conditions,
- Number of deaths from suicide before 75 years age,
- Levels of clients aged 18 years and over who were clients of government funded community mental health services; and
- Community connectedness and the ability to get support in times of crisis.

**Objective 1: To deliver initiatives that will enhance the mental wellbeing of the Salisbury community**

Action	Council Roles	Responsibility	Resource	Timeframe
<b>NEW RESPONSES</b> 1. Improve the capacity of City of Salisbury's service delivery to appropriately refer and support the increasing number of people with mental health issues accessing Council's services <ul style="list-style-type: none"> <li>• Delivery of staff and volunteer training to increase knowledge of mental health issues, referral pathways and appropriate responses within the parameters of their role</li> <li>• Build and foster relationships with other organisations and networks to share knowledge and build partnerships</li> <li>• Advocate for an increase in appropriate responses by other agencies and government departments</li> </ul>	Advocate Facilitate Service Delivery	Community Development:  Community Health and Wellbeing  Libraries and Community Centres	Response development - existing operating budgets  Response implementation – to be determined	December 2015
2. Build and measure the wellbeing of the Salisbury community to reduce mental illness, increase resilience and enable citizens to flourish. This is in response to the recommendations by Thinker in Residence Professor Martin Seligman as outlined in "Building the State of Wellbeing: A Strategy for South Australia" <ul style="list-style-type: none"> <li>• Collaborate with northern regional stakeholders and the SAHMRI Wellbeing and Resilience Centre to develop and deliver a community wide Northern Adelaide Resilience Program</li> <li>• Develop a City of Salisbury response to deliver positive psychology initiatives to the community</li> </ul>	Facilitator Leader Service Delivery	Community Development:  Community Health and Wellbeing	Existing operating budgets  New Initiative 2015/2016	2014/2015 & ongoing
3. Build the capacity of the City of Salisbury to respond to squalor and hoarding issues within the community <ul style="list-style-type: none"> <li>• Support the development of a cross agency northern squalor and hoarding taskforce</li> <li>• Develop City of Salisbury and cross agency protocols</li> </ul>	Facilitator Advocate	Community Development:  Community Health and Wellbeing Division	Existing operating budgets	December 2014
4. Raise awareness and advocate for Adult Protection <ul style="list-style-type: none"> <li>• Support the establishment of community networks for adult protection to promote education and awareness of abuse and the framework for responding to abuse</li> <li>• Support the development of a policy and legislative framework on adult protection at State Government level</li> </ul>	Facilitator Advocate	Community Development  Community Health and Wellbeing Division	Existing operating budgets	2014/2015

## Regional Public Health Plan

**Objective 1: To deliver initiatives that will enhance the mental wellbeing of the Salisbury community**

Action	Council Roles	Responsibility	Resource	Timeframe
<p><b>EXISTING RESPONSES</b></p> <p>5. Comorbidity Action in the North (CAN) research project in partnership with the University of Adelaide</p> <ul style="list-style-type: none"> <li>Support the University to study barriers to accessing effective comorbidity care by both mental health and alcohol and other drug services in the northern region of South Australia</li> </ul>	Partner	Community Development: Community Planning and Vitality	Existing operating budgets	2014/2015
<p>6. Building City Pride Strategy</p> <ul style="list-style-type: none"> <li>Delivery of the critical actions identified in the City Pride Strategy as outlined in the objectives to improve the amenity and visual appearance of the City; strengthen social networks and community cohesion and promote the merits of the City as a great place to live, work and play</li> </ul>	Facilitator Advocate	Community Development	Existing operating budgets	ongoing
<p>7. Continue to deliver the following City of Salisbury programs and services that support positive mental health:</p> <ul style="list-style-type: none"> <li>Home and Community Care (HACC) social programs that operate from 3 Seniors Centres in Salisbury: Jack Young Centre located in Salisbury, the Para Hills Centre and Pine Lakes House at Parafield Gardens</li> <li>Delivery of the Cultural HACC Social Program. This program works with nine culturally and linguistically diverse (CaLD) communities to support their older members to receive appropriate community aged care services and meet in social settings</li> <li>City of Salisbury Volunteer Program engages approximately 575 volunteers to support the delivery of 25 programs across the City of Salisbury</li> <li>Provision of the City of Salisbury's six community centres, Mawson Centre and Twelve25. All play a vital role in supporting and developing social and educational life within the City. They do this by delivering lifelong learning opportunities that support social wellbeing, foster intellectual and personal growth, and provide pathways into further education, training and employment</li> <li>Provision of the City of Salisbury's five libraries. Libraries provide places where people of all ages and nationalities meet, read, learn and access information</li> </ul>	Service Provider Leader Facilitator	Community Development	Existing operating budgets and external funding	Ongoing

Objective 1: To deliver initiatives that will enhance the mental wellbeing of the Salisbury community				
Action	Council Roles	Responsibility	Resource	Timeframe
<ul style="list-style-type: none"> <li>Early childhood development programs including Books R4 Babies; Giggle Time; Family Literacy; ABC 30+3 and Story Time and the provision of Family Reading Centres. These programs have multiple outcomes for families and children including reduction in social isolation, development of cognitive skills (language, literacy, numeracy and cognition) and the development of strong relationships between parents and child. Studies have shown reading to children increases academic and life skills outcomes; demonstrating this early-life intervention is beneficial for the rest of the child's life</li> <li>Provision of recreation services through the City of Salisbury's three recreation centres. The centres provide health and fitness benefits and the opportunity for the development of community connections</li> </ul>	Partner	Community Development; Community Planning and Vitality	Existing operating budgets	2014/2015
<p>8. The provision of quality and usable open space and recreation grounds</p> <ul style="list-style-type: none"> <li>Attractive well designed open space is restorative and reduces mental fatigue and stress and promotes opportunities for active living and opportunities for social interaction</li> </ul>	Owner	Community Development, City Development & City Infrastructure	Existing operating budgets	Ongoing

## HEALTHY LIVING, HEALTHY EATING AND BEING ACTIVE

Over the past two decades the number of people in the community who are overweight, obese and with insufficient levels of physical exercise has significantly increased. Being overweight, obese or physically inactive are major risk factors for many non-communicable conditions (such as type 2 diabetes, stroke, ischaemic heart disease and certain forms of cancer) as well as contributing to overall mortality. Chronic diseases are among the most prevalent, costly and preventable of all health problems and remain the major cause of death and disability among South Australian adults. This threatens our individual health and the productivity, vitality and eventually the prosperity of our community.

Excessive weight and sedentariness can be reduced by even small changes in how active we are and in what we eat. These changes may be a matter of personal choice but the choices can be greatly influenced by the opportunities available to us. Planning for healthier communities and neighbourhoods can boost opportunities for more physical activity as well as improving access to and availability of fresh, nutritious and safe food.

### *Access to Healthy Food*

The accessibility and availability of healthy local food impacts on the choices that community members make. Factors that influence choices are the type and location of food outlets, affordability, knowledge of how to use healthy food and the availability of healthy choices. Healthy choices become easy choices because of the way people use good food products in their local community.

### *Urban Planning & Development*

Our lifelong health and wellbeing and chronic disease rates are affected by the design of the built environment.

The way cities, towns and neighbourhoods are planned and designed impacts on people's opportunity to walk, cycle and use public transport, to access healthy food and to participate in community life.

## STATE OF HEALTHY LIVING, HEALTHY EATING AND BEING ACTIVE IN SALISBURY

### *Data*

- Fruit and vegetable consumption – Less than half of the adult population and just over half of the children between five and 17 years in Salisbury met the daily recommended fruit consumption
- Physically inactive – population health data has identified that a greater proportion of the Salisbury community are physically inactive than the metropolitan Adelaide area
- Salisbury has significantly higher levels of children and adults who are either obese or overweight than greater Adelaide. There is a high proportion of Salisbury community members who:
  - > Report their health as fair or poor,
  - > Have types 2 diabetes; and
  - > Have high levels of potentially avoidable hospital admissions.

### *Consultation Findings*

- The City of Salisbury currently takes into consideration health implications in its planning and design of the built environment. However improvements could be made to develop a systematic approach to considering health implications in decision making, to seek synergies and to evaluate the outcomes and impacts of our decision making.
- Being active and healthy eating have been identified as critical preventative measures that provide significant health and wellbeing outcomes for the Salisbury community.

- Federal and State Government funding for preventative program delivery will be a critical for the ongoing delivery or development of programs into the future.

## STRATEGIC CONTEXT

State Public Health Plan: SA: A Better Place to Live

- Strategic Priority 1: Stronger and healthier communities and neighbourhoods for all generations
- Strategic Priority 2: Increasing opportunities for healthy living, healthy eating and physical activity

City of Salisbury: Key Direction 3 – The Living City

- Objective 1: To have a community that embraces healthy and active lifestyles
- Objective 2: To have an engaged community with a strong sense of vitality, pride and belonging
- Objective 3: To have a city where quality of life is achievable

## POTENTIAL PARTNERS

- SA Health
- Centacare, Anglicare and other non-government organisations
- University of Adelaide/University of South Australia

## PERFORMANCE MEASURES

The actions outlined in the following table will be evaluated individually to determine if successful outcomes are achieved.

The biennial Community Perceptions survey measures longitudinal changes. The questions that are related to the community's accessibility of opportunities to be physically active are:

- Satisfaction with the range of community groups and sports clubs,
- Satisfaction with access to parks and reserves,

- Satisfaction with access to streets and walkways,
- Satisfaction with provision of recreation and community facilities,
- Satisfaction with recreational areas; and
- Satisfaction levels with parks and reserves, walkways or trails.

The City of Salisbury undertakes an open space survey approximately every two years. The question that is related to the level of physical activity is:

- Frequency of visits to open space within the City of Salisbury.

## POPULATION HEALTH AND WELLBEING

### INDICATORS

The following indicators are long-term population indicators measured by the Australian Bureau of Statistics National Health Survey approximately every five years. These indicators will continue to be monitored however the results need to be taken with caution as they are influenced by a number of factors outside the City of Salisbury's control. The indicators include:

- Physical inactivity – estimated number of people aged 15 years and over who reported being physically inactive,
- Obese and overweight – estimated number of males/females aged 18 years and over reporting their height and weight at levels assessed as being overweight or obese,
- Self-assessed health as fair or poor – estimated population aged 15 years and over reporting their health as 'fair or poor'; and
- Fruit consumption
  - > Estimated number of children aged five to 17 years with a usual daily intake of two serves of fruit
  - > Estimate number of people aged 18 years and over with a usual daily intake of two serves of fruit

## Regional Public Health Plan

**Objective 2: To provide and increase opportunities to live healthy lifestyles, have access to healthy food and be physically active**

Action	Council Roles	Responsibility	Resource	Timeframe
<b>NEW RESPONSES</b>				
<b>1. Food Security Action Plan</b> <ul style="list-style-type: none"> <li>Endorsement and implementation of a City of Salisbury Food Security Action Plan to improve access to quality healthy food that is affordable and appealing to the Salisbury Community</li> </ul>	Leader Facilitator	Community Health and Wellbeing	Existing Operating budgets	Endorsement June 2016 Implementation ongoing

Action	Council Roles	Responsibility	Resource	Timeframe
4. Ongoing Delivery of recreation opportunities from the City of Salisbury's recreation centres	Leader Service Provider	Community Development: Recreation Services	Existing Operating Budgets	Ongoing
5. Continue to provide City of Salisbury's volunteer program and deliver on the actions outlined in the Volunteer Strategic Management Framework	Leader Service Provider	Community Development: Community Health and Wellbeing	Existing Operating Budgets	Ongoing
6. Continue to deliver positive ageing programs from the Community Health & Wellbeing division	Leader Service Provider	Community Development: Community Health and Wellbeing	Existing Operating Budgets	Ongoing
7. Implementation of Council's declaration of smoking bans where junior sport is played under the Recreation Grounds (Regulations) Act 1931	Leader Service Provider	Community Development: Community Planning and Vitality	Existing Operating Budgets	Ongoing

## EARLY CHILDHOOD DEVELOPMENT

Research clearly links outcomes in adulthood to the support and opportunities provided in early childhood experiences. Relationships and attachments children make in the early years provides the context for all learning.

*“When we invest wisely in children and families, the next generation will pay that back through a lifetime of productivity and responsible citizenship. When we fail to provide children with what they need to build a strong foundation for health and productive lives, we put our future prosperity and security at risk”.*

## STATE OF HEALTH AND WELLBEING

### Data

Salisbury has a higher population of families with young children than Greater Adelaide (16% compared to 14%).

Key challenges that have been identified in the population health data for Salisbury’s families and children are<sup>10</sup>:

- Comparatively high levels of early childhood vulnerability in one or more domains of the Australian Early Childhood Development Index compared to the metropolitan average;
- Low levels of literacy and numeracy skills compared to the metropolitan average;
- Obesity in four year old girls and boys is markedly above the metropolitan average;
- Just over half of children between the age of five and 17 years were estimated to meet the recommended daily requirement for fruit consumption;
- The infant death rate in Salisbury (4.1 per 1000 live births) is markedly above (19%) the metropolitan average (3.4 per 1000 live births);
- Significantly higher rates of women smoking during their pregnancy (18.2%) compared to metropolitan average (13%); and
- Higher level of children (0-19 years of age) with a mental health issue who are clients of Child and Adolescent Mental Health Service (CAMHS) 18% higher than metropolitan average.

### Consultation Findings

Consultation identified that the City of Salisbury currently does not have an overarching strategic direction that outlines councils’ role in service and infrastructure provision, planning, advocacy and community development for children.

## STRATEGIC CONTEXT

State Public Health Plan: SA: A Better Place to Live

- Strategic Priority 1: Stronger and healthier communities and neighbourhoods for all generations
- Strategic Priority 2: Increasing opportunities for healthy living, healthy eating and physical activity

City of Salisbury: Key Direction 3 - The Living City

- Objective 1: To have a community that embraces healthy and active lifestyles
- Objective 2: To have an engaged community with a strong sense of vitality, pride and belonging
- Objective 3: To have a city where a quality of life is achievable
- Objective 4: To have a community that aspires to and embraces learning as a lifelong goal

## HEALTHY AND CONNECTED BUILT AND NATURAL ENVIRONMENTS

Our lifelong health and wellbeing and chronic disease rates are all affected by the design of the built environment. The way cities, towns and neighbourhoods are planned and designed impacts on people's opportunity to walk, cycle and use public transport; to access healthy food; recreate; and to participate in community life. Some ways to make our communities more liveable, walkable and inclusive are by;

- Improving access to parks and playgrounds;
- Improving footpaths and street lighting;
- Increasing cycle ways;
- Improving transport plans;
- Increasing opportunities for social connectedness, volunteering and other forms of community participation;
- Developing and implementing community safety strategies; and
- Improving resilience and amenity of our urban environment to a changing climate.

Future planning and designing of our communities need to consider the impact of extreme weather events including heatwaves, bushfires and flooding. Ways to achieve this include:

- Better provision for shade and other cooling green infrastructure elements;
- Provision of social infrastructure to support the community in extreme heat events such as "cool refuges"; and
- Ensuring that our hard infrastructure such as roads, stormwater systems, rail lines and essential services (electricity, water supply) are designed to cater for the changing environmental conditions.

A key consideration for a healthy community is the affordability of living.

The costs associated with housing, living expenses including resource and transport costs and the affordability of activities are placing significant pressures on the community.

A need has also been identified for adaptable (universal) housing design to ensure a diverse housing stock to cater for changes in people needs and requirements throughout their life as well as having sustainable housing design to ensure internal living conditions have high amenity for habitants.

## STATE OF HEALTHY AND CONNECTED BUILT AND NATURAL ENVIRONMENTS

The City of Salisbury currently takes into consideration health implications in its planning and design of the built environment. However improvements could be made to develop a systematic approach to considering health implications in decision making, to seek synergies and to evaluate the outcomes and impacts of our decision making.

Affordable living is increasingly becoming an issue for the Salisbury community. The costs associated with housing, living expenses including resource and transport costs and the affordability of activities are placing significant pressures on the community.

Housing has become increasingly unaffordable in Salisbury over the years, with prices escalating faster than the average income. Approximately 12% of mortgage holders and 28% of renters report that they live in housing stress – paying more on rent or mortgage than they can afford. This is higher than the greater Adelaide average.

## STRATEGIC CONTEXT

State Public Health Plan: SA: A Better Place to Live

- Strategic Priority 1: Stronger and healthier communities and neighbourhoods for all generations
- Strategic Priority 2: Increasing opportunities for healthy living, healthy eating and physical activity

## Regional Public Health Plan

- Strategic Priority 3: Preparing for climate change
- Strategic Priority 4: Sustaining and Improving Public and Environmental Health Protection

City of Salisbury: Sustainable Futures Salisbury City Plan 2020

- Key Direction 1: The Prosperous City - supporting the future prosperity of our city
- Key Direction 2: The Sustainable City - providing built and natural environments that are sustainable and resilient
- Key Direction 3: The Living City encouraging and supporting a thriving and connected community

### POTENTIAL PARTNERS

- Department of Planning Infrastructure and Planning
- Department of Environment, Water and Natural Resources

### PERFORMANCE MEASURES

The actions outlined ahead will be evaluated individually to determine if successful outcomes are achieved.

The biennial Community Perceptions Survey measures longitudinal changes. The questions that are related to healthy and connected built and natural environments are the level of satisfaction and dissatisfaction with particular aspects of quality of life.

The City of Salisbury undertakes an open space survey approximately every two years. Questions that provide an insight into open space usage include;

- Frequency of visits to open space within the City of Salisbury;
- What people do when they visit a park or open space?; and
- How did people get to the open space?

## POPULATION HEALTH AND WELLBEING

### INDICATORS

The following indicators are long-term population indicators measured by the Australian Bureau of Statistics Census of Population and Housing every five years. These indicators will be monitored however the results should to be taken with caution as they are influenced by a number of factors outside the City of Salisbury's control.

- Housing stress – a family or individual is considered to be in mortgage or rental stress if they are in a low income bracket and pay more than 30% of their income on mortgage repayment or on rent.

**Objective 4: To develop healthy built and natural environments that meet the needs of Salisbury's community today and into the future**

## BUILDING EXCELLENCE - DEVELOPING CITY OF SALISBURY'S CAPABILITY

The City of Salisbury makes a significant contribution to the health and wellbeing of the Salisbury community and reaches across many of council's day-to-day functions. However, to ensure what Council delivers has the best possible health and wellbeing outcomes for the community a number of improvements could be made to enhance our organisation's capabilities. This includes the development of a systematic approach to considering health implications in decision-making, to seek synergies and to evaluate the outcomes and impacts of our decision-making.

### PERFORMANCE MEASURES

Achievement of the performance indicators in the following:

- Report to the State Government as a biennial reporting requirement of the SA Health Act 2011. The reporting framework is currently being developed by SA Health, the LGA and other councils; and
- Health and Wellbeing toolkit evaluation framework to be developed as outlined in the table below

### POTENTIAL PARTNERS

- Heart Foundation
- City of Playford
- City of Port Adelaide Enfield
- City of Tea Tree Gully

### STRATEGIC CONTEXT

State Public Health Plan: SA: A Better Place to Live

- Strategic Priority 1: Stronger and healthier communities and neighbourhoods for all generations
- Strategic Priority 2: Increasing opportunities for healthy living, healthy eating and physical activity

- Strategic Priority 4: Sustaining and Improving Public and Environmental Health Protection

City of Salisbury: Key Direction 3 - The Living City

- Objective 1: To have a community that embraces healthy and active lifestyles
- Objective 2: To have an engaged community with a strong sense of vitality, pride and belonging
- Objective 3: To have a city where quality of life is achievable
- Objective 4: To have a community that aspires to and embraces learning as a lifelong goal

City of Salisbury: Key Direction 4 - Achieving Excellence

- Objective 3: To deliver sustainable, creative and innovative solutions that enable excellent operations and service delivery
- Objective 5: To apply business and resource management that enables excellent service delivery and financial sustainability
- Objective 6: To provide our customers with excellent service that meets their needs

## Regional Public Health Plan

**Objective 5: To improve the City of Salisbury's capacity to deliver the best possible positive health and wellbeing outcomes to the community**

Action	Council Roles	Responsibility	Resource	Timeframe
<b>NEW RESPONSES</b> <b>1. Integration of Health In All Policies</b> <ul style="list-style-type: none"> <li>Adopt a health in all policies approach to the development of all council policies, strategies and plans. A health in all approach is to systematically take into account the health implications of decisions, seeks synergies, and avoids harmful health impacts, in order to improve population health and health equity</li> </ul>	Leader Facilitator	Community Development: Community Health and Wellbeing	Existing Operating Budget	Ongoing
<b>2. Health and Wellbeing Toolkit and Evaluation Framework</b> <ul style="list-style-type: none"> <li>Develop a Health and Wellbeing toolkit to enable staff to consider ways of having a positive impact on the health and wellbeing of the community. The toolkit will guide the development and implementation of strategies, plans and policies and the development and delivery of programs and services across the organisation. An evaluation framework will be developed and implemented to review the outcomes of the toolkit implementation. Include usage of existing toolkits such as the Heart Foundations - Healthy by Design guidelines and Streets for People Compendium - South Australia</li> </ul>	Leader Facilitator	Community Development: Community Health and Wellbeing	Existing operating budgets	Ongoing
<b>3. Community Health and Wellbeing Survey</b> <ul style="list-style-type: none"> <li>Investigate the possibility of undertaking a community Health and Wellbeing survey to measure the success of the Regional Public Health actions. To be delivered biennially in alternate years from the Community Perceptions Survey</li> </ul>	Service Provider	Community Development: Community Health and Wellbeing	Existing operating budgets	First survey August 2015
<b>4. Advisory Group</b> <ul style="list-style-type: none"> <li>Incorporate the existing Healthy Communities Initiative and OPAL advisory groups into a Health and Wellbeing Advisory Group to guide the delivery of public health across the community and organisation</li> </ul>	Leader Facilitator	Community Development: Community Health and Wellbeing	Existing operating budgets	Ongoing

<b>ITEM</b>	1.1.2
	<b>POLICY AND PLANNING COMMITTEE</b>
<b>DATE</b>	17 September 2018
<b>HEADING</b>	Safety in the City of Salisbury
<b>AUTHOR</b>	Julie Douglas, Senior Social Planner, Community Development
<b>CITY PLAN LINKS</b>	4.1 Strengthen partnerships that enable us to better address our community's priorities. 4.2 Develop strong capability and commitment to continually improve Council's performance. 3.2 Have interesting places where people want to be.
<b>SUMMARY</b>	This report provides an overview of community safety across the City of Salisbury and advice from SAPol on community safety issues and measures for improving safety.

## RECOMMENDATION

1. That this report be received and noted.

## ATTACHMENTS

There are no attachments to this report.

## 1. BACKGROUND

- 1.1 At Council's June 2018 meeting the following resolution was passed:

*That a report be provided to Council that provides advice on safety issues in the City of Salisbury and provides advice, with input from SAPOL, on whether there are measures that need to be implemented to improve safety where needed (2554/2018).*

- 1.2 This report responds to that resolution by providing an overview of community safety across the City of Salisbury.

## 2. CONSULTATION / COMMUNICATION

### 2.1 Internal

- 2.1.1 The City of Salisbury Community Safety Coordination Group was consulted on community safety issues across the City of Salisbury.

### 2.2 External

- 2.2.1 SAPol was consulted on safety issues across the City of Salisbury and measures to improve safety.

### 3. REPORT

- 3.1 Similar to other larger metropolitan Council areas the City of Salisbury experiences a range of community safety issues and anti-social behaviours. Typically major activity centres (such as Salisbury and Mawson Lakes) and suburbs with large populations (such as Mawson Lakes, Parafield Gardens and Paralowie) tend to have higher rates of reported crime due to their specific characteristics and population.. Some of these have recently also received high profile media attention. These factors combined can affect community perceptions regarding those areas.
- 3.2 Every two years the City of Salisbury conducts the Community Perceptions Survey as a measurement tool to track community perceptions. The survey is conducted by an external research company using a random sample extracted and having the survey methodology remaining unchanged from each survey. The next monitor is scheduled to undertake fieldwork in the coming months with the final survey due back early next year.
- 3.3 In relation to the perceptions of community safety within the City of Salisbury, Council's biennial community perceptions survey indicates that the perception of safety has significantly improved over time. The most recent survey was conducted in 2016, with a summary of the findings indicating that:
- Respondents feel reasonably safe within the community, with an average safety score of 7.1 out of 10 (significantly higher than 6.7 in 2012).
- 3.4 In a very consistent finding over time, those aged over 65 felt the safest with a mean score of 7.6.
- 3.5 For the main part Council has adopted a proactive stance in addressing community safety by ensuring that safety considerations are appropriately factored into the design of our facilities, parks and reserves, and public realm. Council currently undertakes and/or collaborates on a wide variety of community safety initiatives, which include the following:
- CCTV network provision and monitoring;
  - Participation in SAPol's Community Safety Committee;
  - Local Drug Action Team regional partnership;
  - Management of the Salisbury CBD Dry Zone;
  - Drug and alcohol programs and funding;
  - Operation Bounce Back;
  - Place Activation of public spaces;
  - Crime Prevention through Environmental Design (CPTED);
  - Lighting in Public Spaces;
  - Graffiti Management;
  - Malicious damage and vandalism initiatives;
  - Dog controls;
  - Parking controls;
  - Homelessness and Violence Against Women regional collaboration;
  - Responsible service of alcohol in sporting clubs training;
  - Various anti-social behaviour initiatives;

- Neighbourhood Watch funding;
  - Syringe and sharps collection;
  - Regular security patrols of community facilities and reserves; and
  - Youth engagement and participation initiatives.
- 3.6 When criminal or anti-social issues arise Council staff members endeavour to liaise and cooperate with relevant authorities to ensure that such issues are appropriately responded to in a timely fashion. Developing and maintaining positive relationships between Council and SAPol is key to ensuring good communication and effective, collaborative responses when community safety issues arise.
- 3.7 From July 2018 SAPol moved from its previous model of 6 Local Service Areas (LSAs) to a 4 District Policing Model (Northern, Eastern, Southern, Western), as part of its broader organisational reform agenda. The aim is to have more officers on the ground and focus efforts within geographical areas. The reforms are also focused on being able to respond to hot spots, better target resources as required. at this stage there is no evident change to SAPol operations in terms of relationships, with existing committees remaining intact.
- 3.8 SAPol statistics on reported offences reveals a declining trend in crime across the City of Salisbury over the past 5 years. Notwithstanding incidents of serious criminal offending, which can receive disproportionate media coverage, the majority of crimes in the City of Salisbury relate to theft. Theft offences include serious criminal trespass (break ins), theft from retail premises, theft from construction sites, theft from motor vehicles, and illegal use of a motor vehicle.
- 3.8.1 SAPol provide advice to the public to implement measures to protect their property and motor vehicles from theft, such as:
- ensuring that all residential/business doors and windows are secured with keyed locks;
  - locking gates, garages and sheds when not in use;
  - keeping trees and bushes in front of doors and windows trimmed to avoid being used as hiding places;
  - securing all access points to the main house from garages and car ports;
  - ensuring all valuables are removed from vehicles or concealed in the boot;
  - ensuring that motor vehicles are appropriately secured;
  - marking valuable property;
  - not to leave valuables or keys in obvious places;
  - installing security systems and/or high quality CCTV; and
  - report all suspicious behaviour and incidences of crime directly to SAPol.

- 3.9 SAPol provide a range of safety and security booklets and fact sheets on their website to assist members of the public in relation to a wide range of safety and security issues. In addition, SAPOL have a District as well as Corporate Community Programs Section that is able to provide advice and assistance in relation to business and personal security matters.
- 3.10 Council and SAPol regularly meet to discuss community safety issues through SAPol's regional Community Safety Committee. Representatives include Playford and Salisbury Council, Renewal SA Housing SA Community Corrections Edinburgh Defense Precinct. The purpose of this committee is to :
- Build and maintain successful community partnerships;
  - Ensure multi-agency and partnership cohesiveness;
  - Adopt and maintain a community based problem solving approach;
  - Determine and act upon strategic community safety priorities;
  - Form and Allocate Actions to Operational Committees as required;
  - Regularly review activities and identify opportunities for continuous improvement;
  - Assist with providing advice to assist in policy development and decision making where appropriate.
- 3.11 In addition, Council has an internal Community Safety Coordination Group to provide coordination, effective communication and guidance to the organisation on community safety issues. The group has cross-Council staff membership, with representatives from Inspectorate, Security, Community Development, Communications and Customer Relations, Libraries, Community Health and Wellbeing, and Landscape Design. The group meets regularly ahead of the SAPol Community Safety Committee meetings to identify emerging safety issues to be communicated with SAPol.

#### **4. CONCLUSION / PROPOSAL**

- 4.1 This report has provided an overview of Council's actions in relation to community safety across the City of Salisbury. Advice from SAPol on crime issues and measures to improve safety has identified a range of strategies that members of the public may choose to adopt to protect their property and possessions from theft.
- 4.2 Council staff will continue to work closely with SAPol in relation to matters relating to community safety.

#### **CO-ORDINATION**

Officer: EXECUTIVE GROUP  
Date: 10/09/2018

**INFORMATION ONLY** 1.1.3

## **POLICY AND PLANNING COMMITTEE**

**DATE** 17 September 2018

**HEADING** Bridgestone Reserve Athletics Facility

**AUTHOR** Adam Trottman, Manager Community Planning & Vitality, Community Development

**CITY PLAN LINKS** 3.2 Have interesting places where people want to be.  
3.3 Be a connected city where all people have opportunities to participate.

**SUMMARY** Bridgestone Reserve Athletics Facility is on track to commence and complete construction of the new facility in 2020. An additional \$500,000 of funding has recently been announced by the State Government taking the total State Government contribution to \$1.495 Million.

## **RECOMMENDATION**

1. That the information be received.

## **ATTACHMENTS**

This document should be read in conjunction with the following attachments:

1. Bridgestone
2. Community Building Concept

## **1. BACKGROUND**

- 1.1 In November 2017, Council considered a report regarding the development of a synthetic athletics facility at Bridgestone Reserve, Salisbury South.
- 1.2 Council resolution 2153/2017 stated inter alia that:
  - a. Staff continue the concept development for a regional athletics facility at Bridgestone Reserve, subject to external funding and other key considerations.*
  - b. The City of Salisbury's application to Round One of the Office for Recreation and Sport's Sporting Surfaces Program for \$1million towards the development of a synthetic athletics track at Bridgestone Reserve;*
  - c. The City of Salisbury's application to the Office for Recreation and Sport's Community Recreation and Sport Facility Program for \$500,000 towards the development of a club and change room facility located at Bridgestone Reserve;*

*d. The City of Salisbury's applications to other appropriate funding programs or sources that may be identified in the future for the development of athletics facilities at Bridgestone Reserve;*

*e. Staff continue to engage with potential users of such a facility with a desire to develop partnership agreements with Council.*

*A further report be brought back to Council for consideration regarding the detailed scope of works and operating costs, revenue streams and end user commitments associated with Council's preferred option before June 2018.*

*Subject to receipt of significant external funding and end user commitments, a new initiative bid for the 2018/19 Budget be prepared for Council consideration for the development of the endorsed Concept.*

## **2. CONSULTATION / COMMUNICATION**

### **2.1 Internal**

2.1.1 City Infrastructure

2.1.2 Business Excellence

2.1.3 Community Development

### **2.2 External**

2.2.1 Athletics SA

2.2.2 SA Little Athletics

2.2.3 Sporting clubs

2.2.4 Office for Recreation, Sport and Racing

## **3. REPORT**

### **3.1 Project Scope and Design**

3.1.1 In November 2017 Council considered as a part of budget deliberations budget provision for community facilities and a synthetic athletics track located at Bridgestone Reserve. The budget bid detailed the following elements a synthetic athletics track, associated field infrastructure (throwing and jumping facilities), equipment storage shed and a club room/change facility that is more flexible and slightly larger than the existing facility utilised by athletics clubs at Rundle Reserve.

3.1.2 The concept plan for the building had change rooms (suitable for other sports), bar and canteen facilities, function area, multi-use office space, minor storage, referee room, first aid and additional toilets accessible to the public.

3.1.3 The budget for the project is contained in the below, which includes a grant of \$1Million.

DESCRIPTION	CONCEPT ESTIMATE
Site, track, field, take off and throwing circles and equipment storage	\$2,200,000
Option 1: Club room, change facilities, storage and site rectification	\$1,600,000
TOTAL	\$3,800,000

- 3.2 All work undertaken to date is within this endorsed budget, and concept and has been verified through an independent cost estimator.
- 3.3 Since the budget was approved more detailed work has been undertaken to further refine the concepts relating the design of the track and the associated building.
- 3.4 The refined scope of the Bridgestone Reserve athletics track and facility is described below;
- 3.4.1 Track - 3 eight lane 400m synthetic athletics track and associated throwing, jumping and field facilities, to the International Association of Athletics Federation (IAAF) Class 2 accredited Regional Level classification.
- 3.4.2 A community facility - which contains change rooms, referees room, toilets, function area, multiuse/flexible office space, minor storage for club administrative files, canteen/bar.
- 3.4.3 Large equipment storage shed.
- 3.5 To receive IAAF Class 2 accreditation for a Regional Level 3 athletics facility, there are functional requirements, construction method and accuracy that must be met.
- 3.6 Staff have worked extensively with stakeholder groups, particularly the State associations and an IAAF subject matter expert nominated by Athletics SA, to determine the functional requirements for the facility.
- 3.7 The design of the community facility will be suitable for the co-location of three athletics clubs and for school carnivals, state association activities and others when not being used for athletics, which will have priority.
- 3.8 The Athletics track design is such that the internal areas of the track could be utilised by a variety of sports when not being utilised by Athletics, however ensuring usability for athletics would be a priority.
- 3.9 Importantly the remainder of Bridgestone Reserve to the east of the site would remain as an informal recreation area accessible by the whole community. This area lends itself to informal recreational uses with large irrigated turf areas, BBQ facilities, public toilets and informal play spaces available for use by the wider community.

#### 4. BUDGET SUMMARY

- 4.1 Council has included an amount of \$3.8Million (including grant income of \$1Million) in its budget from 2018/19 to 2021/22 towards the Bridgestone Reserve Athletics Facility.
- 4.2 Funding from the Office for Recreation, Sport and Racing of \$995,000 towards the proposed Bridgestone Reserve athletics track (announced February 2018) has been received into the City of Salisbury accounts. This funding must be expended by 30 June 2020.
- 4.3 Additional funding from the Office for Recreation, Sport and Racing of \$500,000 was announced on 31 August 2018 to construct a Community Facility with unisex change rooms at Bridgestone Reserve. This brings the total State Government contribution to \$1.495 Million.
- 4.4 A further application for \$500,000 will also be submitted through the recently announced Australian Government Community Sport Infrastructure Grant Program administered through SportAus (formerly the Australian Sports Commission). Applications for funding close on 14 September 2018 with announcements not before 1 November 2018
- 4.5 The table below reflects the breakdown of the endorsed budget for the project:

	Track	Building	Storage	TOTAL
2018/19	\$2,152,000 (CapEx)	\$ 384,000 (CapEx)	\$60,000 (CapEx)	<b>\$2,596,000</b>
2019/20	\$ 15,000 (OpEx)	\$1,096,000 (Cap Ex)	\$ 0	<b>\$1,111,000</b>
2020/21	\$ 18,000 (OpEx)	\$ 30,000 (OpEx)	\$ 0	<b>\$ 48,000</b>
2021/22	\$ 15,000 (OpEx)	\$ 30,000 (OpEx)	\$ 0	<b>\$ 45,000</b>
<b>TOTAL</b>	<b>\$2,200,000</b>	<b>\$1,540,000</b>	<b>\$60,000</b>	<b>\$3,800,000</b>

#### 5. IN SCOPE UNBUDGETED ITEMS

- 5.1 Through more detailed project scoping in collaboration with the key stakeholders the following has been identified as in-scope, but are currently unfunded and will need to be resolved through the design process (value management), as well as requiring Council endorsement of any changes in scope. Allocated budget may be off-set through grants funding which could provide future council with the ability to re-allocate funding if it so desires.
- 5.2 Following extensive stakeholder consultation (both internal and external) in the detailed scoping phase, items have been identified that were not included within the initial project scope but are considered important for the facility.
- 5.3 Below is a summary of unfunded project requirements which have been identified through further detailed scoping. The components below total (excluding the lighting) total \$357,500 and consideration could be given to off-setting these with the additional \$500,000 funding announced by State Government on 31 August 2018 ensuring no increased cost to Council.

- 5.4 These items will be considered in the context of value engineering as detailed design and costing are sought for the building, with the exception of lighting, which it is proposed be considered through Councils Sports Lighting Program in 2019/2020 budget.
- 5.5 All of these elements will be subject to further detailed design, value management exercises through the detailed design process, and subject to future council decisions.

Functional requirements	Rationale	Budget Estimate
Provision of internal shelving/racks for storage	Identified through review of similar facilities and identified by stakeholders. Necessary to minimize overall size of storage required, ensure efficiency of design and most effective use of space.	\$5,000
Increase in change room size by 45m <sup>2</sup>	Increasing the change room size would future proof the facility for growth. It would also allow for other sporting codes to have access to the facilities, when not being utilised by the priority access sport of athletics, noting that the use would not be intended to cater for any one particular sporting code and athletics would maintain it's priority usage.	\$157,500
Access paths and minor landscaping	Sealed access paths are currently not installed at Bridgestone Reserve. Currently paths are unsealed. Sealed access paths are important to ensure access for all to not only the proposed community facility but to the existing BBQ and playground facilities.	\$50,000
Undercover patron area	Athletics events can typically attract large numbers of families both participating and viewing activities. Stakeholders have indicated their need for an undercover area and this was not initially identified in the original project scope. This would be in the form of a veranda attached to or as part of the community facility building.	\$145,000
Sports field lighting	As clubs will now be relocating to the facility, sports flood lighting will be required so that clubs can operate at night. Investigations into the lighting at	\$295,000

	Rundle Reserve have found that they are not suitable for relocation and will not meet the required lux levels. Consideration could be given to submitting this as part of budget considerations through the 2019/20 Sports Field Lighting Upgrade Program.	
--	--	--

- 5.6 A further report to council will be presented as decisions regarding these items are required. It is envisaged that this will occur during detailed design phase and after value engineering expertise have taken place as well as any implications from potential successful funding applications which are currently in train.

## **6. DEVELOPMENT OF FACILITY MANAGEMENT MODEL**

- 6.1 Staff have met on a number of occasions with the state athletics bodies including Athletics SA and SA Little Athletics to progress discussions regarding the facility.
- 6.2 Staff met most recently with the three athletics clubs (Ingle Farm Little Athletics, Salisbury Little Athletics and Northern Districts Athletics Club) on 3 July 2018 to continue discussions regarding the proposed facility. The three clubs and two state associations continue to be positive regarding the new facility.
- 6.3 Work is currently being undertaken to consider the feasibility of various management options of the proposed facility. This work will include consideration of a head lease with clubs as sub tenants, a facility manager with the clubs as sub tenants and any other options identified through the process. Key considerations will be maximising community use of the facility, the ongoing sustainability of clubs at the site and offsetting long term maintenance of the facility.
- 6.4 A further report will be brought back to Council for consideration of the feasibility of various management options.

## **7. INTEREST IN FACILITY**

- 7.1 Following Council's consideration of the Bridgestone Reserve athletics track in November 2017, there has been significant interest in the facility from clubs, schools and regional associations.
- 7.2 The state associations have received interest from other clubs outside of the City of Salisbury indicating a desire to use the facility for major meets and occasional training throughout the year. This will help to maximise the benefits of the facility and promote visitation to the City of Salisbury.
- 7.3 In addition, a number of schools have enquired about the expected opening date of the facility to allow them to consider the site when scheduling future carnivals.
- 7.4 Bridgestone Reserve athletics track will be the only other full synthetic athletics track in South Australia and as such, will be South Australia's back up State facility with IAAF Accreditation.

## **8. TIMING**

- 8.1 The procurement for design and construction of the facility is expected to be undertaken in late 2018 with commencement of design planned for 2019.
- 8.2 The track and building are to be scheduled so that completion of both are complimentary to each other and ensures the facility can be used at the earliest possible time. Completion of construction is still expected for 2020.

## **9. CONCLUSION / PROPOSAL**

- 9.1 Following Council's endorsement of further concept development in November 2017 of the Bridgestone Reserve athletics facility, interest in the facility has been high including from schools and clubs located outside of the City of Salisbury.
- 9.2 An amount of \$1,495,000 has been secured from the State Government towards the Bridgestone Reserve athletics facility.
- 9.3 Additional funding (\$500,000) will also be sought through the recently announced Australian Government Community Sport Infrastructure Grant Program administered through the SportAus (formerly the Australian Sports Commission). Applications for funding close on 14 September 2018 with announcements not before 1 November 2018.
- 9.4 A further report will be brought to council as detailed design and costings for the facility are developed.
- 9.5 Construction of the proposed athletics facility is likely to commence in 2019 with completion expected in 2020 subject to budget and procurement strategy.
- 9.6 Work is currently being undertaken to consider various management options of the proposed facility. This work will include consideration of a head lease with clubs as sub tenants, a facility manager with the clubs as tenants and any other options identified through the process.
- 9.7 Staff will continue working closely with the Office for Recreation, Sport and Racing, Athletics SA, SA Little Athletics and clubs as required to ensure this facility becomes the regional focus for athletics in the North with maximum community use.
