DATE.....

ITEM	1.1.2 POLICY AND PLANNING COMMITTEE
DATE	15 February 2021
HEADING	Planet Youth Pilot Project
AUTHOR	Julie Douglas, Senior Social Planner, Community & Org. Development
CITY PLAN LINKS	1.2 The health and wellbeing of our community is a priority 4.4 We plan effectively to address community needs and identify new opportunities 1.3 People are valued and they feel safe, included and connected
SUMMARY	This report briefly outlines a proposal from the Alcohol and Drug Foundation for the City of Salisbury to become a pilot site for the Planet Youth Program - a primary prevention program that focusses on alcohol and drug usage in young people and families.
RECOMMENDATION	
	<ol style="list-style-type: none">1. The report is received.2. The proposal for the City of Salisbury to become a Planet Youth pilot site is endorsed for progression.
ATTACHMENTS	
	This document should be read in conjunction with the following attachments: <ol style="list-style-type: none">1. Planet Youth Fact Sheet2. Summary of the Planet Youth Core Steps
1. BACKGROUND	
	<ol style="list-style-type: none">1.1 As the lead agency in the Northern Adelaide Local Drug Action Team, the City of Salisbury has been approached by the Alcohol and Drug Foundation (ADF) with a proposal for the City of Salisbury to become a new South Australian pilot site for Planet Youth - a youth focused alcohol, tobacco and drug primary prevention program.1.2 This report provides an overview of the Planet Youth program, and seeks endorsement to progress implementation of the program within the City if Salisbury.
2. REPORT	
	<ol style="list-style-type: none">2.1 Alcohol and drug misuse is a long-standing concern for many communities because of the many detrimental impacts experienced by individuals, families and the broader community. This includes a range of anti-social behaviours, mental health and health impacts, crime and offending rates, homelessness, unemployment, child protection and domestic/family violence issues which are often associated with chronic dependency or misuse.

- 2.2 The annual National Wastewater Drug Monitoring Program (NWDMP) indicates persistently high levels of drug and alcohol consumption in South Australia, and the northern Adelaide region particularly. The most recent NWDMP report indicates that since COVID-19 related restrictions came into effect in March/April 2020, record high consumption levels of some drugs have been recorded, such as:
- 2.2.1 Methylamphetamine had the highest consumption of the illicit drugs nationally, with Adelaide having the highest capital city rates of consumption nationally.
- 2.2.2 Cannabis consumption appears to have changed during the COVID-19 restrictions, with consumption increasing in most parts of the country compared to before the outbreak.
- 2.3 The context of increasing and problematic alcohol and drug use in the community provides a solid rationale for developing preventative approaches to alcohol and other drug misuse. This is consistent with the City Plan 2035 operational focus on implementing Council's Community Safety Strategy. Primary prevention approaches are also favoured in Councils Strategic Youth Action Plan, based upon extensive youth feedback that prevention programs should be a priority for young people.
- 2.4 The proposed Planet Youth Program will support delivery of the following actions in Council's Community Safety Strategy and annual implementation plan:
- 2.4.1 Identify, facilitate, participate in and support current external partnership networks and programs that effectively promote community capacity, safety and crime prevention initiatives.
- 2.4.2 Leadership in local, regional and national initiatives that help Council reduce violence, theft, fraud, and alcohol and drug abuse.
- 2.5 Recognising the significant challenges South Australia faces in alcohol and drug misuse the ADF has worked with Wellbeing SA to increase South Australian pilot sites for implementation of the Planet Youth Program, to combat the impacts of drug and alcohol misuse in young people. Planet Youth is an international evidence-based prevention program renowned for producing significant reductions in alcohol, tobacco and other drug use among young people. The program focusses on boosting protective factors against alcohol, tobacco and other drug harms, including promoting increased family time and stronger access to supervised extracurricular activities such as youth clubs, arts programs and sport. A fact sheet on the Planet Youth program is attached to this report (Attachment 1).
- 2.6 Planet Youth pilot sites have been implemented in areas that have already established Local Drug Action Teams (LDATs) funded through the ADF, as well as supportive local councils who have capacity and local leadership to support the program's development. Current Australian Planet Youth pilot sites are:
- Murray Bridge (SA);
 - Limestone Coast (SA);
 - Blue Mountains (NSW);
 - Lithgow (NSW); and
 - Marrickville (NSW).

- 2.7 As a pilot site the City of Salisbury will have access to funding through Wellbeing SA and the ADF to support the establishment of the program in the Salisbury council area. This will include developing partnerships with local schools and community members, training and international support in developing the program to suit the local context and issues.
- 2.8 The Planet Youth program is built on the following guiding principles, each providing direction for how the community intervention process ideally should be implemented:
- Applying a primary prevention approach that is designed to enhance the social environment;
 - Emphasising community action and embracing public schools as the natural hub of neighborhood/area efforts to support child and adolescent health, learning, and life success;
 - Engaging and empowering community members to make practical decisions using local, high-quality, accessible data and diagnostics;
 - Integrating researchers, policy makers, practitioners, and community members into a unified team dedicated to solving complex, real-world problems; and
 - Matching the scope of the solution to the scope of the problem, including emphasising long-term intervention and efforts to marshal adequate community resources.

A summary of the steps typically involved in implementing the Planet Youth program (based on the Icelandic Prevention Model) is included as Attachment 2.

- 2.9 Resourcing for the development of the Salisbury Planet Youth program will primarily be derived from funding made available through Wellbeing SA and the ADF, with coordination and oversight provided by the City of Salisbury Community Planning division within existing resources and in collaboration with the Northern Adelaide Local Drug Action Team.

3. CONCLUSION / PROPOSAL

- 3.1 This report has provided a brief overview of a proposal from the ADF to establish a pilot site for the Planet Youth program within the City of Salisbury. The Planet Youth program is an evidence-based primary prevention program that aims to combat alcohol, tobacco and other drug use and misuse among young people.
- 3.2 Endorsement of the proposal is sought to enable the administration to progress the development of the Planet Youth program within the City of Salisbury.

CO-ORDINATION

Officer: EXECUTIVE GROUP
Date: 08/02/2021

FACT SHEET - ABOUT PLANET YOUTH

What is Planet Youth?

- Planet Youth is a hugely successful evidence-based prevention program from Iceland, internationally renowned for producing significant reductions in alcohol and other drug use among young people.
- Planet Youth focusses on boosting protective factors against alcohol and other drug harms, including increased family time and stronger access to supervised extracurricular activities such as youth clubs, arts programs and sport.
- Since the introduction of Planet Youth in Iceland in the nineties, alcohol and other drug use rates among young people have transformed from some of the highest in Europe, to among the lowest. The country has also seen reduced rates of bullying and juvenile crime.

How does Planet Youth work?

Step 1:

Data collected through a survey of year 10 school students asking questions around family structure, parental and peer support, structured and unstructured activities and pastimes, substance use and academic achievement.

Step 2:

A workshop is held with the local community to understand local issues and plan local action based on their profile and needs.

Step 3:

Local action takes place. These actions are informed by the data collected and the unique qualities of each community, recognising that every community is unique and there is no one size fits all solution when it comes to addressing alcohol and other drug issues.

Step 4:

Activities are reviewed and analysed with a new round of data collection.

Has Planet Youth been successful/evaluated?

- The Icelandic Centre for Social Research and Analysis (ICSRA) has been studying the Planet Youth program for over 20 years.
- The Planet Youth results in Iceland are overwhelmingly positive, which is why the Alcohol and Drug Foundation is trialling an Australian version.
- Between 1998 and 2018, the percentage of Iceland's year 10 students who had been drunk in the past 30 days fell from 42% to 5%; daily cigarette smokers dropped from 23% to 2%; and the number of year ten students who used cannabis once or more in their lifetime declined from 17% to 6% respectively.
- Since the introduction of Planet Youth in Iceland in the nineties, alcohol and other drug use rates among young people have transformed from some of the highest in Europe, to among the lowest. The country has also seen reduced rates of bullying and juvenile crime.
- Iceland has also seen increased participation in organised sport, a changing culture surrounding alcohol and other drugs, parents spending more time with their adolescent children and better engagement in schools by both students and parents.
- Planet Youth has now been adopted in over 30 countries worldwide, including the current pilot project under way in Australia, through the Alcohol and Drug Foundation's Local Drug Action Team program.

SUMMARY OF THE PLANET YOUTH CORE STEPS¹

<i>Community Capacity Building</i>		<i>Implementation of Core Processes</i>						<i>Repetition</i>	
<i>Step 1 (Local Coalition Identification, Development, and Capacity Building)</i>	<i>Step 2 (Local Funding Identification, Development, and Capacity Building)</i>	<i>Step 3 (Pre-Data Collection Planning and Community Engagement)</i>	<i>Step 4 (Data Collection and Processing, Including Data-Driven Diagnostics)</i>	<i>Step 5 (Enhancing Community Participation and Engagement)</i>	<i>Step 6 (Dissemination of Findings)</i>	<i>Step 7 (Community Goal-Setting and Other Organized Responses to the Findings)</i>	<i>Step 8 (Policy and Practice Alignment)</i>	<i>Step 9 (Child and Adolescent Immersion in Primary Prevention Environments, Activities, and Messages)</i>	<i>Step 10 (Repeat Steps 1-9 Annually)</i>
Identify or develop a local prevention coalition, including school superintendents, school principals, school faculty, parents and other caregivers, community professional providers (public health, medical, mental health, recreation, faith community, law enforcement, etc.), elected officials, and other community leaders. Develop collective teamwork and capacity to achieve goals of reduced/eliminated substance use. Identify existing or new resources to include at least one professional dedicated to support coalition activities.	Identify existing and new resources. Reorganize funding to incorporate long-cycle grant funding (5 or more years) and contracting or make permanent structural changes to ensure ongoing funding.	Conduct community and school meetings designed to prepare the community for participation. Describe the Icelandic Prevention Model and data collection procedures, especially those protecting students and ensuring meaningful data collection. Answer community questions before each year's data collection begins.	Distribute consent forms/ introduction letters. Prepare final version of survey. Print surveys (if paper-and-pencil) and/or prepare for online distribution. Collect data from students, with data collection being primarily facilitated by an incentivized school leader, faculty, or staff member. Collect print surveys. Scan print surveys. Data are merged and cleaned. Descriptive data analysis is completed. Diagnostic data analysis is completed.	Advertise community meetings using multiple channels. Extend invitations from local coalition "champions" to community and key stakeholders. Reduce barriers to community participation as needed, for example, providing child care, transportation assistance, and meals as appropriate.	Reports are prepared. Reports are printed and disseminated to all involved using multiple media channels. Reports emphasize user-friendly and jargon free language and easy to interpret charts and graphs. Community presentations are advertised and conducted. Community presentations emphasize user-friendly and jargon free language and easy to interpret charts and graphs. Reports and presentations include no identifying information of individuals and are in confidential ownership of the local community in hand.	Local coalitions guide community in goal-setting activities. Set 3-4 specific goals related to community relevant risk and protective factors. Plan strategies/ actions based on selected goals. Communicate community-selected goals and strategies to parents and other caregivers throughout the community using multiple channels of communication.	Identify ways to align local policies and professional practice with goals selected by the community/ coalition. Examples include School improvement plans and other community strategic plans. Identify and pursue necessary changes to current policy and professional practice. Communicate community-selected goals and strategies, as well as updates to policy and practice, to nancealition, local professionals throughout the community using multiple channels of communication.	Children and adolescents receiving the "treatment" of time spent in a social environment are associated with reduced substance use initiation.	Evaluate opportunities to improve capacity and communication in Steps 1-3. Repeat Steps 4-9.
