## 3. DISCUSSION

- 3.1 Significant and regulated trees are offered protection through the *Planning Development and Infrastructure Act 2016* (the Act) and require development applications for removal. Objectives for assessment of development applications are contained within the Regulated and Significant Tree Overlay of the Act:

*Regulated trees are retained where they:*

- *make an important visual contribution to local character and amenity;*
- *are indigenous to the local area and listed under the National Parks and Wildlife Act 1972 as a rare or endangered native species; and/or*
- *provide an important habitat for native fauna.*

*Significant trees are retained where they:*

- *make an important contribution to the character or amenity of the local area;*
- *are indigenous to the local area and are listed under the National Parks and Wildlife Act 1972 as a rare or endangered native species;*
- *represent an important habitat for native fauna;*
- *are part of a wildlife corridor of a remnant area of native vegetation;*
- *are important to the maintenance of biodiversity in the local environment; and/or*
- *form a notable visual element to the landscape of the local area.*

- 3.2 These objectives are distinct from City of Salisbury criteria for removal, which are not a consideration through the development assessment.

- 3.3 The following appeals have been lodged under the Tree Removal Procedure and the residents are seeking removal of the trees.

CRM/Salesforce	Street	Suburb	Tree Species
9887	3 Bearing Road	Salisbury North	Euc leucoxylon
8764	13 Cavendish Terrace	Burton	Sophora sp
6107	7 Goldthorn Road	Salisbury Park	Ficus rubiginosa
6683	15 Dutton Drive	Para Hills	Euc torquata

- 3.4 The initial assessment for each appeal has identified that the trees are healthy, in good condition without any structural flaws and didn't meet City of Salisbury criteria for removal.
- 3.5 Where appropriate, pruning or canopy reduction has been undertaken to help alleviate concerns raised and actively manage the trees.
- 3.6 Following notification of appeal from the resident, and where appropriate, site meetings were arranged given the history with the trees.
- 3.7 Any further information provided by residents was reviewed and the appeals are presented directly to the Environmental Sustainability and Trees Sub Committee for recommendation to Council for consideration.
- 3.8 ***3 Bearing Road Salisbury North***
- 3.8.1 The Euc leucoxyton tree is noted as not being regulated or significant and has been inspected by two independent bodies.
- 3.8.2 The tree is in good health and doesn't achieve removal through the current criteria framework.
- 3.8.3 Maintenance pruning is recommended to reduce some weight over the driveway.

- 3.9 ***13 Cavendish Terrace Burton***
- 3.9.1 The Sophora tree is noted as not being regulated or significant and has been inspected by two independent arborists.
- 3.9.2 The Sophora is noted to have a health and structure rating of #1 good.
- 3.9.3 The tree is also a well-formed specimen that wouldn't normally achieve removal criteria.
- 3.9.4 Minor pruning is recommended
